1ST RAID ON MANILA!

Dynamite Home of Supt. Johnson

FLYERS SINK 11 JAP SHIPS AND DESTROY 205 PLANES

American Carrier Force Loses 15 Aircraft.

(Map on page 11.)

U. S. PACIFIC FLEET HEADQUARTERS, Pearl Harbor, Sept. 21 (AP).—Carrier planes of the Halsey-Mitscher 3d fleet made the United States' first aerial counter-attack of the war on the Manila bay area yesterday.

They destroyed 205 Japanese planes and sank 11 warships and probably sent 26 others to the bottom.

A floating drydock and two barges also probably were wiped out.

[The Tokyo radio acknowledged that the "Manila sector" had been the target of two separate air attacks—one in the morning and one in the afternoon. Martial law was declared in the Philippines after the raids.]

Adm. Nimitz reported collection of the first instalment on the huge debt to be exacted from the Japanese in the northern Philippines in a special bulletin tonight.

The damage was inflicted in a strongly defended area despite a big umbrella of planes the Japanese sent to intercept American aircraft from Vice Adm. Marc A. Mitscher's fleet carrier task force.

One hundred ten enemy aircraft were shot down in aerial dogfights and 95 more destroyed on historic Clark and Nichols air fields, Manila.

The shipping was caught at Cavite naval base in Manila bay.

List Enemy Ships Sunk.

Adm. Nimitz' bulletin reported that this daring strike by Adm. William F. Halsey Jr.'s third fleet, which includes Mitscher's aircraft carriers, sank these ships:

One large destroyer leader, four large oil tankers, one small whale tanker, two large cargo ships, one medium cargo ship, and two small cargo ships, and damaged and probably sank a destroyer, two large whale tankers, one large transport, 10 large cargo ships, 12 medium cargo ships, one floating drydock, and two barges.

Adm. Nimitz reported also that much damage was done to military objectives adjacent to Clark field and Nichols field and to the fields themselves.

He added:

"Our losses in this superlatively successful attack, which apparently caught the enemy completely by surprise, were 15 aircraft from which several of the flight personnel were recovered. There was no damage to our surface ships."

Peleliu Progress Slowed.

An earlier bulletin said United States marines of the 1st division, after killing 6,792 Japanese troops, had been brought to a virtual standstill on the west coast of Peleliu Island in the Palaus by possibly 3,000 enemy troops entrenched in a precipitous area.

All the east coast of Peleliu, which was invaded on Sept. 15 [Palau time], is in marine hands, but the leathernecks were credited in the bulletin with only minor gains in the steep Ngarekeukl hills sector yesterday.

Land based planes continued strikes at Paramushiro, in the Kuriles; at Iwo in the Volcano Islands; at Moen air field on Truk, and on Wotje in the Marshalls.

Carrier Planes Bomb Island.

ALLIED HDQ., New Guinea, Sept. 22 [Friday].—More than 100 allied planes bombed bases on the flanks of Morotai Island, recently invaded by United States forces, while PT boats smashed what was perhaps an attempt to reënforce Japanese on the islet, headquarters reported today. A total of 215 tons of bombs were unloaded Monday on Halmahera, Ceram, and Dutch Celebes by carrier based and land based aircraft.

Nazis Report Raid on Japan.

New York, Sept. 21.—The German radio said tonight that "units of Super Fortresses of the United States air force on Wednesday morning conducted an air raid against northern Kyushu." It claimed 23 of the huge craft were shot down.

TELLS WARNING TO WHITE HOUSE ON HAWAII PERIL

BY LAURENCE BURD.

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 21.—Warnings that the Japanese fleet was prowling the Pacific were delivered to the White House 72 hours before the attack on Pearl Harbor Dec. 7, 1941, Rep. Church [R., Ill.] told the house today. He presented documentary evidence that the Australian government had advance warning of the Pearl Harbor attack.

Church read into the house record a sworn affidavit quoting an Australian official, Owen Dixon, former Australian minister to the United States, as saying the Australian naval intelligence flashed two warnings of danger before the Pearl Harbor attack.

Two Messages to White House.

The Evanston congressman told the house a naval officer delivered two messages to the White House containing the Australian information, the first on Thursday night, Dec. 4, 1941, and the second on the Sunday morning of the attack.

The Australian naval intelligence flashed the first warning, according to the affidavit, 72 hours before Pearl Harbor. It said that a Japanese task force was at sea and apparently headed for Australian waters.

The second warning, the affidavit said, came 24 hours later and stated that the Jap force was apparently not aimed at Australia, but might be directed against American possessions. This second warning, according to Church, was not delivered to the White House until Sunday morning.

Denials by McCormack.

Church quoted the naval officer as saying, when he took the messages to the White House, that "this looks like a surprise attack on Pearl Harbor and a midnight attack on the Philippines."

This data was given the house only a few hours after Majority Leader McCormack [D., Mass.] took the floor to denounce previous reports that the United States had received such warnings from Australia before Dec. 7, 1941. McCormack quoted the state, war, and navy departments, and Prime Minister Curtin of Australia, as denying that such messages were sent or received.

Church replied that McCormack had carefully avoided quoting the White House as denying it had been warned. Church further observed that Curtin denied only that cable warnings were sent, but did not disclaim the transmission of radio or telephone warnings to our government.

West Point Graduate.

The affidavit submitted by Church was signed by Sidney C. Graves, a resident of Washington, graduate of West Point, and a World war veteral. Graves is a wealthy insurance

Find Hillman's Candidate Is Ex-Klansman

Los Angeles, Cal., Sept. 21 [Special].—Sidney Hillman's CIO-Democratic nominee for congress in the 15th district confessed today in a radio broadcast that he has been a member of the Ku Klux Klan.

He is Hal Styles, 48, proprietor of a radio program known as "Help Thy Neighbor," who defeated Rep. John Costello for the Democratic congressional nomination in the May primaries thru the backing of the CIO political action committee headed by Hillman.

After being unmasked by newspaper investigators today Styles attempted in his radio broadcast to explain his membership in the Klan. He said a relative, whose name he did not disclose and who since has died, joined the K. K. K. and "had the temerity to incorporate a part of my name when he became a member." Styles said this relative's first initial is the same as his [Styles'] second initial.

Joined as "a Spy."

This incorporation, Styles continued, prompted him to join the group as "a sort of spy."

However, while engaged in his work as "a sort of spy," Styles led a series of parades, meetings, and demonstrations in Jamaica, Queens county, N. Y. In one of these demonstrations, it is said, he was in an altercation with police who attempted to halt a Klan parade.

Reviewing his personal history, Styles said he had been reared a Catholic, but later "associated" himself with Protestant churches.

Exposure of the broadcaster's Klan affiliations sent his political supporters, including the directors of the local CIO political action committee, Democratic party leaders, and local campaign managers, into deep silence to consider the situation.

George Pepper, executive secretary of the Hollywood Democratic committee, said the committee's executive board will investigate "and expects to have a public statement early next week."

Speeds from Press.

Styles' day included an early morning flight from his Holly drive home and a wild automobile and foot dash to radio station KFWB in the afternoon to outdistance newspapermen. A policeman guarding the station gate was almost run down as Styles drove his machine into the station's walled enclosure. A studio representative later said Styles was not meeting the press today. The station is independent and is owned by Warner Bros. of the films.

Costello, who ran on both the Democratic and Republican tickets, won the G. O. P. nomination, but under the law could not accept it because of the loss of his own Democratic party nomination. Gordon McDonough, member of the county board of supervisors, has been designated as the Republican nominee to oppose Styles in November.

"I am surprised," said McDonough today, "that the Democratic party would present a candidate with the background of Mr. Styles."

DEWEY'S SPEECH.

Gov. Dewey assailed New Deal regimentation and "petty tyranny" in a campaign speech last night at San Francisco, Cal. Story and text of address are on page 10.

Mate Says Wife Signals Rival with His Pants

New York, Sept. 21 (AP).—A husband who said his estranged wife used his pants as a flag to signal another man was held without bail in Bronx Magistrate's court today on a charge of felonious assault. Arrested after Nicholas Manieri complained he poked a shotgun into his back and threatened to kill him, Anthony Dentini, 43, declared: "This man has been fooling with my wife. They have signals. When I'm home my wife hangs up my pants right side up and when I'm out she hangs them up wrong side up, by the cuffs."

WITH U. S. 3D ARMY ON MOSELLE RIVER, Sept. 21.—The following is of particular interest to Mrs. Adolph S. Phillips, 2930 Wellington st., Chicago: Yesterday shrapnel tore away the top of one of her husband's shoes and ripped his helmet, but he suffered only a slight headache. "Can you send my love to my wife? Can you mention something like that?" Pvt. Phillips asked. A Tribune correspondent said he would try.

AFL Manager Strike Closes Grocery Chain

BY GEORGE HARTMANN.

A strike of most of the store managers employed by the National Tea company, called to force a union shop agreement from the company, closed a large proportion of the company's 501 stores in five counties including Chicago and surrounding suburbs yesterday.

Tons of perishable foods stored in the company's warehouses and retail stores were in danger of spoiling as the managers remained out late yesterday.

Arthur G. Swanson, managers' union organizer, said at least 450 of the stores had closed and predicted many of the remaining managers would join the walkout today. The union plans to send pickets to any store which is kept open while the strike continues.

Union Newly Chartered.

The union shop clause would provide that every manager who remained in the employ of the company for more than 30 days would have to join local No. 1555 of the Retail Clerks' International Protective association [AFL], a newly chartered local, to which the strikers belong.

A company statement agreed that the union was the recognized bargaining agent for the managers but denied the union's right to the union shop because "the company does not feel it can voluntarily sign away the right of more than 25 per cen of the 501 store managers involved to join the union or not. Further the company cannot ignore or exclude the 248 store managers in the armed forces from the right of determining upon their return whether they wish to join this union or not."

Say Company Is Stalling.

S. G. Lippman, attorney for the AFL union, said the managers voted to walk out at a meeting Wednesday night in the Midland hotel. He said the company had agreed to grant the union shop to the managers last August "if the managers had more than 65 per cent of those employed in their union." The company admitted that 72 per cent of the managers were in favor of the union, but still refused to grant the union shop, Lippman averred.

Several thousand clerks, butchers, and other workers employed in the closed stores thruout Cook, Lake, Will, McHenry, and Du Page counties, as well as in Chicago and suburbs, were forced out of work by the strike of the managers.

Bombing Laid to Row Over Moving Pupils

(Pictures on back page.)

Supt. Johnson.

Dr. William H. Johnson, superintendent of Chicago schools, was injured slightly last evening when a dynamite bomb exploded at the rear of his home, 1228 Farwell av., causing damage estimated at $1,000 and jarring the neighborhood in a radius of two blocks. Windows were shattered in homes immediately east and west of the Johnson residence.

The bombing climaxed a two week city-wide wrangle over a ruling by which Dr. Johnson abolished the school transfer system, necessitating changes for several thousand pupils to new schools. Indignation meetings and tumultuous court scenes followed promulgation of the order and an injunction to prevent its enforcement is being sought.

Unwarranted Action: Johnson.

"There is no doubt whatsoever that I was the target of this bombing," Dr. Johnson said shortly afterward. "What I have done certainly does not warrant any action so drastic as this. I have had a policeman detailed to my office, but I did not deem it necessary to ask that one be placed at my home."

The bombing was no amateur job, said Lieutenants Andrew Aitken and Marshall Pidgeon of the police bomb squad. They said there were at least four sticks of dynamite in the bomb. The use of dynamite and the manner of placing it identified the blast as the work of experts, they said.

Damages Door and Stairway.

The explosion tore a 12 inch hole in a cement rear walk, blew a rear door off its hinges, and damaged a rear stairway. Eleven windows were shattered in the two story residence—in which the Johnsons and their daughter, Patricia Joyce 8, occupy the lower floor.

When the bomb exploded at 9:35 p. m., the superintendent and his wife were upstairs in the apartment of Mr. and Mrs. Bruno Tassone, looking at wedding gifts sent to Miss Angeline Tassone, who soon is to be married. Tassone is a news dealer. When the blast shook the house, Dr. Johnson ran down the stairs to Patricia Joyce's bedroom.

Johnson's Arm Slashed.

The bedroom and hall were filled with black smoke. The child's bed was covered by broken glass but she was uninjured. Dr. Johnson suffered a slash on the right arm, but he said he did not know whether it was caused by the explosion or whether he cut it when he lifted his daughter from her bed.

Shortly after the bombing Deputy Chief of Detectives John Warren dispatched a detail of detectives and uniformed men to guard the home of James B. McCahey, president of the school board, on the south side. Johnson's home also was guarded.

Police Question Grocer.

Emanuel Cohen, a grocer at 1343 Roosevelt rd., who staged a sitdown on Johnson's steps in protest against the school order, was questioned by Warren last night about threats he was reported to have made against school officials. Cohen denied making any threat and he was released when he satisfied police he was in his home at the time of the bombing.

Shock of the bombing caused Mrs. Tassone to suffer a heart attack.

Capt. Michael Ahern of the Rogers Park police was told by two women of the neighborhood that two automobiles had been parked just west of the Johnson home 20 minutes before the explosion.

YANK SKY ARMY SAVES BIG BRIDGE OVER RHINE

SKY ARMY FIGHTS ITS HEART OUT IN HOLLAND POCKET

BY STANLEY MAXTED.

[Representing the combined U. S. press.]

WITH THE ALLIED AIR BORNE FORCES IN THE ARNHEM AREA, Holland, Sept. 21 (AP).—On this fifth day of the air borne troops' battle in Holland our force is still being heavily attacked by mortars, snipers, machine guns and self-propelled 88s.

Our troops are being asked to do more than flesh and blood should have to endure, but they are in good heart.

Medium guns of the British 2d army have just come into communication with this force and have started shelling enemy targets. Maybe tanks will arrive today. Anyway, we will be holding on until they do.

These air borne soldiers are magnificent. They go in by themselves. They fight individually as well as in platoons and companies. When the 2d army arrives and relieves us then may be told one of the epics of the war. In the meantime these fellows just go on fighting their hearts out.

Rips British for Hindering Allies in China

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 21.—Charges that Great Britain's policy in Asia has cost the allies the support of millions of Indian and Chinese troops and delayed the defeat of Japan were made in the house today by Rep. Calvin Johnson [R., Ill.].

Johnson told the house British blundering and lack of coöperation with Gen. Stillwell's American army in Asia has placed the campaign in India almost two years behind schedule and brought the desperate Chinese armies to the brink of disaster. With full coöperation, he asserted, thousands of American lives would have been spared and the Pacific war would have been shortened by many months.

In support of this, Johnson cited a series of British refusals to cooperate with Gen. Stillwell and make use of potential allied troops in Asia.

Gen. Stilwell's Plan.

The congressman told the house that Gen. Stilwell submitted a detailed program for an allied overland campaign in Asia at the Roosevelt-Churchill conference at Cairo last December. The plan, he said, met with approval of American naval and military authorities, and the British-American combined chiefs of staff, but was blocked by Great Britain.

Johnson said he could not disclose the Stilwell plan in detail but explained that it called for a reasonable increase in the Indian army, to which, he added, we are lend-leasing material for 35 combat divisions.

"London raised an objection," Johnson continued, "first, because the plan would require a diversion of shipping from the European invasion; second, because it would put Chinese troops in occupation of British held territory in China.

Britain's Policy.

"Here, for the first time, British policy in Asia was clearly brought into focus. It proved that Britain will not willingly consent to reoccupation of her Asiatic territory by Chinese troops even tho the result would be to shorten the war and lessen the cost, both to Britain and the United States."

In spite of British opposition at Cairo, Johnson continued, Gen. Stilwell was successful in getting allied approval of a compromise plan for an offensive.

"He returned to India with the intention of carrying out his modi-

Dramatic Attack Opens Path for Drive on Ruhr.

(Map on page 2.)

SUPREME HDQ., ALLIED EXPEDITIONARY FORCE, Sept. 21 (AP).—American air borne troops in a dramatic coup seized the vital lower Rhine bridge at Nijmegen intact today and British tanks raced over it and deep into Holland thru enemy defenses guarding the Nazi Ruhr valley.

The Berlin radio said British troops fought on north to a junction with British air borne forces at Arnhem, and the German Transocean agency said the city was in flames.

As American parachute troops and glider borne infantry dashed out on the bridge and jerked loose the enemy's demolition charges, the British 2d army attacked from the south, pouring out of shell-torn Nijmegen.

Cross Rhine River.

How the Americans got across to the north bank of the Waal Rhine to accomplish this daring feat was not immediately learned at supreme headquarters, but their valor saved the allies from a time-consuming setback.

The crossing occurred some time yesterday, and when British guns on the other side signaled the attack the Yanks dashed from hiding screaming their battle cry of "Geronimo."

Now the battle has swung toward Arnhem, eight miles north, where the British 2d army hopes to come to the relief of hard pressed air borne units which are believed holding a bridge across the Neder Rhine, a second formidable water course in the Rhine delta.

If that crossing is secured they will have only the Ijssel river to ford before they are out on Germany's northern plains north of the reputed Siegfried line terminal at Kleve. Arnhem is 15 miles northwest of Kleve.

Polish Paratroopers Land.

Polish paratrooper reënforcements were landed during the day at an undisclosed point in Holland, presumably in the Arnhem area, to help the air borne forces who have been fighting against enemy tanks and heavy troop assaults for 72 hours.

Field Marshal Montgomery also was broadening his base of operations around Eindhoven.

One column struck 10 miles east of Eindhoven and reached Someren, only 19 miles from the German frontier, while another overran the Dutch towns of Heeze and Soerendonk, five and 10 miles to the southeast.

Fight Fierce Air Battles.

Fierce air battles were fought over Nijmegen, and Thunderbolts of the 8th air force knocked down 20 German fighters while losing four of their own number. Lt. Col. David Schilling of Traverse City, Mich., commanded one group of Thunderbolts which met German fighters around Lochen in Holland. Schilling shot down three of his group's 14 kills and now has to his credit 18 victories in the air and 7½ on the ground. Lt. Vernon Rafferty, Eau Claire, Wis., shared one kill with Lt. Robert Hedler of Jenkintown, Pa., in the Nijmegen battle.

As British tanks rolled over the mile and a half long span, the Germans to the south struck back savagely against the American 1st and 3d armies with counter-attacks in and before the Siegfried line. These cost them at least 134 tanks in 24 hours.

Mop Up in Stolberg.

Enemy counter-attacks in and before the Siegfried line along more than 150 miles of front were described in one front dispatch as the heaviest since D day, but they appeared to have slowed, not stopped, the American advance.

The 1st army was cleaning the last die hard Germans from the city of Stolberg, six miles east of the

German frontier industrial citadel of Aachen. One force was fighting four miles east of Stolberg.

Another crossing of the German frontier 12 miles north of Aachen struck five miles inside Germany to Gellenkirchen. In northern Luxemburg, the Germans threw in a sharp counter-attack at Diekirch, but forward elements were more than a mile inside Germany six miles east of there at Biesdorf.

The 3d army, throwing more tanks across the enemy's buckled Moselle and Meurth river lines, was herding the Germans into the foothills of the Vosges mountains en route to the upper Rhine and was in firm control of Luneville, 15 miles southeast of Nancy.

Only 15 miles farther to the southeast, French units of the United States 7th army threatened the road center of Baccarat after capturing Flin, only five miles away.

Tank Battles Rage.

The Germans held grimly to the railway city of Metz, north of Nancy, despite the threat of encirclement and engaged the doughboy attackers in one of the biggest tank and artillery duels of the war.

Planes blasted the German tanks between Nancy and Metz, despite a low ceiling due to fog.

"It's a knockdown-dragout affair," declared Lt. Col. Hal Pattison of Monmouth, Ill., one of the officers directing the fighting.

In one engagement, the German tanks overran an American watering point, and all of the G. I.'s jumped into a neck-deep creek to hide. Seeing the situation, Maj. Charles Carpenter of Moline, Ill., pilot of a puddle-jumping observation plane with bazookas tied to the wings, dove down and fired six shells. He became the first puddle-jumper pilot to knock out two tanks.

Lt. John Maher of Colfax, Ia., who returned with his plane full of holes, said he could see four German tanks afire at once. Maher landed on a field virtually in the middle of battle to tell a tank destroyer unit out of contact by radio that four German tanks were just over a near-by hill.

North of Metz around Thionville fighter bombers pounded the German forts, and infantry wiped out German forces who slipped back across the Moselle river to the west side of Thionville.

Advance North of Trier.

Limited advances also were reported north of Trier, the point where the Americans first crossed into Germany.

Canadians seized a total of 6,000 prisoners in the channel port of Boulogne, and still were fighting in Wimereux, just to the north, whose capture was reported prematurely several days ago.

The battle for the French channel port of Calais was on, with the port reported under violent air attack yesterday.

Between Boulogne and Calais, about 300 Germans still held out on Cap Gris Nez, the finger of French soil closest to England.

To the north, Canadians and Poles pressed on after the Germans retreating thru the bogs and canals along the Dutch-Belgian border.

The Poles captured Terneuzen, on the Schelde estuary 27 miles northwest of Antwerp in one of the most significant gains of the day in this sector.

To their west, the Canadians north of Eekloo were only two miles from the estuary.

7TH ARMY FORCE PUSHES THRU TO MOSELLE RIVER

BY SEYMOUR KORMAN.

[Chicago Tribune Press Service.]

WITH U. S. 7TH ARMY NEAR THE MOSELLE RIVER, France, Sept. 21.—American infantry and armor burst thru road blocks and across mine fields today to reach the Moselle river between Epinal and Remiremont. But from these two road center towns 15 miles apart and from the Vosges foothills beyond the Moselle the enemy poured in artillery and mortar fire.

The Germans have burned or dynamited every Moselle bridge in the Yank attacking zone, one of the last spans to go being near Epinal.

Their small arms, machine gun and mortar fire came at us from pillboxes and other fortifications on the eastern shore of the Moselle and from other entrenchments in and behind Epinal and Remiremont, while his 88 and 150 millimeter rifles cracked from the Vosges emplacements. German tanks used as mobile artillery joined in and American Sherman tanks replied in this struggle between armor separated by a river.

'IKE' CONFINED TO CAMP SEVERAL DAYS BY DOCTOR

PARIS, Sept. 21 (AP).—Gen. Eisenhower has been confined to his camp for several days on his doctor's orders. The general has been driving himself to the point where, tho his brilliant and tremendous mind could stand the pace, his exceedingly tough physique could not.

His health deteriorated so much that he was literally instructed not to leave his camp for several days. He is in tiptop form again today, however, and sparks are flying about getting this thing over with.

For the past two weeks the fullest concentration has been given to driving the supply echelons and servicing parts up to the line of present army operations which are said to be a month ahead of schedule.

FINLAND BEGINS INTERNING NAZIS AS REDS DEMAND

HELSINKI, Finland, Sept. 21 (AP).—Internment of Germans still in Finland began today in compliance with demands of Russian armistice terms.

Minister of Social Affairs K. A. Fagerholm told the Associated Press, "The foremost and biggest task of the Finnish government is fulfillment of the armistice treaty commitment." He said the terms were "hard, but once we have signed they also must be fulfilled. Finland keeps her promises."

STOCKHOLM, Sweden, Sept. 21 (AP).—Erhu Castren, former president of the supreme court, became premier of Finland today.

BRITISH TASK FORCE PLANES BLAST RAIL BASE IN SUMATRA

ABOARD A BRITISH AIRCRAFT CARRIER OFF SUMATRA, Sept. 18 [Delayed]—(AP).—Sumatra's main railway installations have just been worked over by planes of this swift carrier task force, and pilots who whipped over the Dutch East Indies possession unopposed declared it a "dead island."

Carrier bombers went up over the northern Sumatra mountains early today under fighter escort and by the time the last bomb had landed on the wreckage of the railway, repair and maintenance center of Sigli, the target was wrapped in a pall of black smoke.

Sigli, a pivotal point on the northern tip of Sumatra in the outer screen of the enemy's East Indies defenses, was left defenseless. The Japanese did not try to interfere by land, sea or air.

Nazis Dismantling Their Factories in Aachen Area

IN GERMANY, Sept. 21 (AP).—The Germans have begun dismantling factories west of the Rhine and are moving the machinery to prevent its falling in the hands of American troops. Forward observers in the Aachen area saw the Germans dismantling one of the factories and loading the machinery on a train and trucks. They immediately called for planes and artillery to blast the transport.

POLICE SEEK RAPIST.

Police sought a rapist who early yesterday broke into a north side flat and raped a young woman whose husband is a sailor stationed at Navy pier. The rapist fled with $6 he took from the woman's purse.

TEN NAZIS TAKE CAPTIVE MEDIC'S SURRENDER PILL

Plane Helps Fast Talker Make Foe Swallow.

BY ROBERT CROMIE.

[Chicago Tribune Press Service.]

WITH U. S. 3D ARMY ON MOSELLE RIVER, Sept. 21.—Some of our medical aidmen are a combination of the biblical Good Samaritan and a top-notch confidence man. It's a combination that pays off.

Pvt. Robert J. Parker, Route 2, Goodwater, Ala., was driving a first aid jeep, the Aspirin Mary, at 3 a. m. a few days ago when he made a wrong turn and suddenly found himself with American artillery shells falling ahead of him and German artillery behind. So he turned up a steep bank into a woods where he saw a foxhole with a man in it. He yelled: "Look out, Joe, here I come," then straddled the foxhole with the jeep.

A Narrow Escape.

"Some one yelled 'halt,' so I gave him the password," Parker said. "Then this guy grabbed my arm and said in good American, 'You are my prisoner.'

"Then he frisked me and said, 'You medics don't carry guns, do you?' He added that if my wheels had made another turn I would have had 30 slugs in my head.

"I found myself the prisoner of a German outfit. Just after I was caught one of their men was hit in the leg by one of our .50 caliber machine gun slugs.

"During the night they had been shelled and machine gunned almost constantly and must have had at least 15 killed and 10 wounded. I saw three German nurses wearing pistols serving as litter bearers. I must have tended the wounds of at least 20. When daylight came only 10 live Germans were left out of the bunch.

"About 9:30 a. m. a Piper Cub flew over and the Germans wondered whether he had seen my jeep, whose rear was just visible at the edge of the woods. Meanwhile, our artillery fire seemed to be coming closer.

Sure, He Saw Them.

"I told them the flyer must have seen the jeep or he wouldn't be circling.

"The German captain said something to one of the enlisted men who took off his white undershirt and began waving it at the Cub. Then all 10 Germans put their weapons in my jeep. I told them I was a noncombatant and could not take them prisoner but if they wanted to come along it would be all right.

"They were very surprised that the jeep could carry them all. It looked like a circus as we came down the hill—the captain, the lieutenant, eight German enlisted men, and I."

Parker turned the prisoners over to the first infantry man he saw.

BRITISH TROOPS TO GET RAISES IN WAR ON JAPS

LONDON, Sept. 21 (AP).—The British government, disclosing plans for the interim between Germany's defeat and the fall of Japan, announced tonight that it would give special campaign pay for Britons serving in the Asiatic theater.

The extra allowance for operations against Japan will range from $1.40 a week for privates to $15.40 weekly for top ranking officers.

Determining factors for discharges for men after Germany's fall will be age, length of service, and usefulness in industry. For women the same considerations will prevail, plus that of marriage.

Tired Kidneys Often Bring Sleepless Nights
Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.
When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness.
Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

MERRILL'S MEN USE JAP TACTICS TO SMASH ENEMY

Stilwell Proves Chinese Are Good Fighters.

This is chapter five in the story of Merrill's Marauders, a unit of tough American jungle fighters who volunteered to operate behind Jap lines in Burma last spring. Their story is told by a Chicagoan who fought with them thruout their hazardous campaign which ended in victory and a Presidential citation.

BY S/SGT. WM. J. ANDERSON.
Composite Unit 5307 [Merrill's Marauders]
United States Army,

as told to CHARLES LEAVELLE.

[Copyright: 1944: By The Chicago Tribune.]

When we turned off the new Ledo road on Feb. 17, 1944, and started thru the Burmese jungle, we were entering the Hukawng valley, which bulked large in Gen. Joseph W. Stilwell's strategy. His main force of Chinese infantry and artillery, under American officers, was driving southward into Burma, pushing back the Japs who had chased Stilwell out into India two years previously.

His first objective was said to be to drive toward a junction with the northern reaches of the old Burma road—the life line of supply to China. Behind Stilwell's force came the road builders, grading and pouring macadam as fast as the Japs fell back.

General Proves Theory.

Stilwell had a theory that Chinese could be the equal of American fighting men if they were properly fed, equipped, and led by Americans. And he was proving it to the satisfaction of our government, to the discomfiture of the British master minds, and to the confusion of the Japs.

Our outfit, Composite Unit 5307, also bulked large in Stilwell's strategy. It was our task to infiltrate the Jap lines and harass them from their rear while Stilwell pounded them from the front. These tactics had been conceived by Stilwell during the two years he was training his Chinese force and preparing to retake Burma. He chose as our leader Brig. Gen. Frank Merrill, who had been with him in the bitter retreat from Burma in 1942.

Gen. Merrill was only 40 years old and had had a brilliant rise from the ranks. As a buck private in Panama he was chosen to attend West Point. In 1938 as a lieutenant he was appointed to Japan as an assistant military attache and language student. He cultivated Jap army officers and marched with Jap troops on maneuvers.

Knows Chinese Dialects.

During this period he received his captaincy. Because of his experience and his knowledge of Japanese and of several Chinese dialects, he was a natural choice for duty in Burma. He went there as a major in the black days of 1942 and shortly was made a brigadier general, tho his permanent rank is still that of captain. Now, under his leadership, we were to turn the Japs' own tactics against them.

We began to realize on the day we left the Ledo road that our mission would be no picnic, tho at meal time we ate like picnickers. The inevitable uninvited picnic guests—ants, centipedes, and spiders—were there in abundance, just as they would have been on Pete Fuller's Clear Lake, near Buchanan, Mich. But in addition, there were scorpions, tarantulas, and jungle leeches, not forgetting a snake or two to lend zest.

We ate from cans and boxes bearing the unforgettable label: "U. S. Army Field Ration K." Since K rations played a major role in our lives for the next three months, I'll tell about them here. There was a K unit for each meal, contained in a pasteboard box about the size of a brick.

Menu for Breakfast.

For breakfast there were four hard biscuit, four graham crackers, a can of meat or meat and concentrated eggs combined, malted milk, and dextrose tablets, a packet of soluble coffee, three lumps of sugar, a stick of chewing gum, and four cigarets.

In the dinner [lunch] kit, a can of cheese replaced the meat, a fig bar replaced the dextrose tablets, and concentrated lemonade powder provided the beverage. The other things were the same. For supper there were canned meat, soluble bouillon as a soup beverage, and a 2 ounce block of chocolate in addition to the biscuit, graham crackers, chewing gum, and cigarets.

The food was at once appetizing and strengthening, but after a few days we began to get awfully tired of eating it cold. Later, some of the men lost their appetites entirely. We were not allowed to have fires, even in the daytime, to heat the meat and water for bouillon and coffee. The same rule had been enforced in New Guinea.

Fires Lighted by Others.

Orders were orders, altho later on in this campaign we were with the Chinese, who lighted fires all over the place, day or night.

Our food came to us fairly regularly, parachuted or free dropped into jungle clearings or rice paddies from the big C-47 transport planes of the troop carrier command. There were air liaison officers with us and they pre-arranged the drops by letting the TCC know about where we would be at a certain time.

In saying we were supplied fairly regularly I meant no reflection upon the air force. Those boys were 100 per cent. When we missed out, it was because the Japs prevented us from reaching our rendezvous spots or forced us to hurry on past them. We went hungry for another reason the two days just before the battle of Walawbum, now only a short time off.

Sometimes our supplies landed in trees or overshot the clearing or rice paddy in which we waited and fell into the swale. Then we had a rough time retrieving them. But the aim usually was good and satisfactory landings were made by the supplies in their colored parachutes, the colors designating types of supply. We all remembered a story they told at camp about one of the giant West African soldiers.

A Likelihood of Disgrace.

During an air drop of supplies one day, the big fellow had been discovered cowering behind a tree. When an officer brusquely admonished him, the African replied:

"O, sir! I no fear the machine gun. I no fear mortar. But O, sir! Think how disgraceful if wounded by sack of rice!"

Our daily march now usually was from early morning until about 4:30 p. m., for it was dangerous to proceed at night. Columns might become separated, pack animals slip off the muddy trail, or we might be ambushed. It was steaming hot in the day time and unpleasantly cold at night, but we had blankets and ponchos and sometimes found old Jap installations; slit trenches and foxholes. We always marched single file, with the scouts about 40 yards ahead and well apart. We always tried to keep the lead scout in sight. The worth of this precaution was proved for us on the last day of February.

RETURNED OFFICER PRAISES MARAUDERS STORIES IN TRIBUNE

Lt. Col. Beach.

From his room in Vaughan General hospital, near Maywood, Lt. Col. Charles E. Beach yesterday expressed approval of Staff Stg. William J. Anderson's day by day story of Merrill's Marauder's, appearing serially in THE TRIBUNE. Col. Beach, commander of C battalion of the Marauders in which Sgt. Anderson served, led the force which rescued B battalion from a Jap trap on Nhpum Ga hill, Burma, last April. Of the rescue, Gen. Joseph W. Stilwell said: "A damned good job—damned good all the way 'round!"

"Sgt. Anderson tells a fine and vivid story of what happened," Col. Beach said yesterday. "I live those days all over again as I read it. It is a treat to follow an account that is so accurate. I think it highly proper that stories such as these be told by the enlisted men. They were there in the thick of it all the time and they, above all others, know exactly what happened."

Of Sgt. Anderson, Col. Beach said: "He is a fine boy and a splendid soldier." The colonel fought thru the Guadalcanal campaign before joining Merrill's Marauders. He is recuperating at Vaughan from the rigors of the Burma campaign. Sgt. Anderson, after a visit with his parents, Mr. and Mrs. W. J. Anderson of Chicago and Buchanan, Mich., was sent to an army rest camp in Texas.

ITALY ASSURED OF $50,000,000 HELP BY UNRRA

BY WILLIAM MOORE.
[Chicago Tribune Press Service.]

MONTREAL, Que., Sept. 21.—Fifty million dollars in UNRRA aid for Italy was virtually assured today after bitter speeches against the Italians by representatives of war victim nations.

The United Nations Relief and Rehabilitation Administration policy committee unanimously recommended that the council of delegates vote to care for Italy's children and nursing mothers and treatment for her sick.

Strong support was given by the committee to a proposal that Jews driven from Germany be cared for even tho they be enemy nationals. Definite action, however, was deferred.

Favor Aid to India.

The committee also recommended that the delegates approve UNRRA aid to India, now barred from UNRRA benefits because it is not a country occupied by the enemy and then liberated.

All three proposals were presented by the American delegate, Dean Acheson, assistant secretary of state.

Stern censure of Italy came from Ethiopia, France, and other countries. The bitterest of the speakers, however, said there would be no benefit from punishing the sick, the children, and the mothers, and agreed in addition to restore Italians driven from the farms to the cities to their homes.

Denies Precedent.

Acheson insisted that extension of aid to Italy will not be a precedent for feeding other enemy countries, thus replying to fears that have been expressed that UNRRA will become a relief agency for all the world.

The aid to India measure, if finally adopted, will be a concession to congress, which asked—it cannot direct UNRRA on the spending of the $1,350,000,000 in American money voted UNRRA—that India be made a beneficiary nation.

Discussion of restoring "displaced" persons to their home occupied much of UNRRA's time today. These include those forced into Germany and all other allied nationals removed from their homes because of the war. It is estimated there are 20 millions in Europe.

Confirm Locomotive Plan.

Confirmation of UNRRA's locomotive buying program was given in a report by Director Herbert H. Lehman. It said arrangements are being undertaken for the purchase of 280 locomotives, not 300 as originally mentioned by an UNRRA delegate.

UNRRA reported progress in its campaign to get the 43 countries called in to help spend the American money make some contributions themselves. Venezuela, which has equal voting power to the United States, contributed $10,000 for administrative expenses. But so far, only five of the 43 countries have contributed to the capital fund.

Lehman said the non-paying nations will not be listed as delinquent until Dec. 31.

Hunger in Italy Puzzles Martin; Cites Funds Voted

Washington, D. C., Sept. 21 (AP).—Republican Leader Martin of Massachusetts said today reports of hunger in Italy are "difficult to understand or justify" in view of congressional appropriations to meet such conditions. Martin told the house congress had "provided liberally for the relief of the suffering" by appropriating 562 million dollars to the war department and another 800 million for American participation in UNRRA—the world relief setup.

CHINA EXECUTES GENERAL; FAILED TO DEFEND CITY

CHUNGKING, Sept. 22 [Friday]—(AP).—Gen. Chen Mu-nung, commander of the 93d Chinese army on the Kweilin front, was executed Sept. 20 for failing "to carry out instructions to defend Chuanhsien," the Chinese central news agency declared today.

Gen. Chen, put to death on orders of the Chinese high command, "fled at the approach of the enemy," the agency added. On Sept. 14, the Japanese broke thru what had been considered strong defenses protecting Kweilin at the Siang river near Chuanhsien, 70 miles northeast of Kweilin.

The Chinese high command claimed last night the Japanese drive from the northeast on Kweilin, where the Americans formerly had their principal eastern China air bases, was weakening somewhat in the face of stout resistance.

ARMY SALUTES AIRMAN LOST IN SUB-ARCTIC TEST

Colonel Tells Adventure of Alaskan Wilds.

BY FRANK STURDY.

[Chicago Tribune Press Service.]

EDMONTON, Alta., Sept. 21.—The war department announced today that the Legion of Merit had been awarded to Master Sgt. Richard L. Pompeo of Carlisle, Pa.

The citation said many nice things about Sgt. Pompeo and his work in cold weather flight testing at Ladd field, Fairbanks, Alaska. There were important things unsaid, the main thing being that Sgt. Pompeo has been missing since Dec. 21, 1943, when he made a flight as crew chief on a B-24 [Liberator] bomber to record what happened to propellers at high altitudes in the sub-arctic.

Only Co-Pilot Returns.

The five men in the crew were forced to bail out at 20,000 feet, somwhere northeast of Ladd field. Eighty-four days later, Lt. Leon Crane, co-pilot, came out of the bush alive. Bodies of two men have been recovered. No trace has been discovered of Pompeo and the fifth man. Until a year has elapsed, they will not be considered legally dead by the army, which is why the word "posthumous" did not accompany Pompeo's citation.

Pompeo's luck apparently ran out on that last trip, but the work he and others accomplished in the preceding three years is the foundation on which the Alaskan division of the air transport command has built.

Col. H. H. Carr, now stationed at division headquarters here, worked with Pompeo from the beginning of the air force's cold weather test project, established at Ladd field in the summer of 1940. Col. Carr recalled that in the winter of 1940-'41, there were no hangars on the field and that Pompeo and other crew men toiled often in high winds at temperatures 15 degrees below zero and colder.

Tells of Rescue Trip.

He recalled other things about Pompeo not mentioned in the merit citation.

Carr and Pompeo, then a corporal, started from Ladd field to White Horse Jan. 17, 1942, to fly back pilots injured in the crackups of B-26 bombers that had been forced to crash-land. The ceiling was only a few hundred feet off the ground, so Carr climbed thru the overcast to 8,000 feet to avoid mountain peaks. The plane's radio failed and they were lost, having been blown far north of their course by a 50 mile an hour wind. Finally, out of gasoline, they landed on a frozen river. A snow covered tree stump turned the plane on its back, but they were not hurt.

The next day they packed their sleeping bags with snowshoes, food, guns, and a parachute for shelter, and started walking down river. Within two miles they met Jonas E. Henry, a trapper, returned to the plane for more equipment, and went 14 miles to Henry's cabin on the Salmon river.

Carr had sprained his right knee. Natives treated it with liniment and hot water, and on the 21st Carr could walk. He and Pompeo made arrangements for guidance with Isaac Tritt, also a native Indian and Henry's partner, and the three started thru the snow with a dog team and sled.

Tritt went ahead to break trail, Pompeo followed him closely, and Carr was last, at the handles of the dog sled.

Thru Snow and Brush.

For five days they plowed thru snow and brush. They spent one night in sleeping bags in the open, the others in trappers' shacks. Every meal was moose meat, rice, and tea. The temperature averaged around 30 degrees below zero.

"You just can't chew bull moose meat," Carr said. "We thawed it out in boiling water, then cut it up in chunks small enough to swallow. At each meal Tritt would grin and say all we needed was more sugar. We didn't have any. This was rare humor for a native, but the big laugh broke one day when we stopped for lunch. Tritt walked to a tree and hauled a 100 pound sack of sugar down from a cache in the branches."

They arrived at Fort Yukon, a small settlement, the night of Jan. 26 and the next day radioed to Ladd field. Three days later a bush pilot picked them up in an airplane and they flew back to Fairbanks.

It was more than a year before Carr decided that he knew why Pompeo always walked just behind Tritt on the trail. Pompeo wore thick lensed spectacles, and altho he never mentioned it, Carr believes he could see only poorly when wearing them, and almost not at all without them. He thinks often of Pompeo, hitting the ground in his parachute, his spectacles lost in the jerk of the chute's opening, blindly stumbling thru the bitterly cold, trackless wilderness, not fortunate enough in the time of his greatest peril to chance upon an Indian or a trapper.

It was Carr who recommended Pompeo for the Legion of Merit.

AWARD SILVER STAR TO TWO CHICAGOANS FOR WORK IN ITALY

Washington, D. C., Sept. 21 (AP).—The war department today announced the award of the silver star to seven Illinois infantrymen. They included:

Staff Sgt. Edward M. Fondakowski, 2436 Sawyer av., Chicago, who on Jan. 21, 1944, in Italy left his rifle squad in a covered position and then with hand grenades helped destroy an enemy machine gun nest which was pinning down a whole company. He later was wounded in the same action and evacuated.

Pvt. 1st Class Joseph P. Schneider, 7703 S. Morgan st., Chicago, who on Jan. 3-4, 1944, when a patrol was organized to infiltrate thru enemy lines in Italy, accompanied his comrades because of his ability to speak the enemy language. In attempting a daring ruse, his identity was discovered and he was fatally wounded.

Col. Romulo Leaving Soon to Join Gen. MacArthur

Washington, D. C., Sept. 21 (AP).—Col. Carlos P. Romulo, Philippine resident commissioner, told the house today he is leaving soon to join Gen. MacArthur "on what I trust is my way back to the Philippines."

REDS DRIVE ON ESTONIA CAPITAL AND HUNGARY

45 Miles from Tallinn; Reach Magyar Plain.

LONDON, Sept. 22 [Friday].—(AP).—Russian troops racing across the top of Estonia at a mile an hour clip yesterday drove to within 45 miles of Tallinn, Estonian capital, as another powerful Red army swept down the western slopes of Romania's mountain chain and reached the Hungarian plain only 48 miles from Szeged, Hungary's second city.

Marshal Rodion Y. Malinovsky's 2d Ukraine army in western Romania was only 17 miles from Hungary's pre-war frontier and 138 miles from the bomb shattered Hungarian capital of Budapest.

His men were expected to cross the Hungarian border soon with the double aim of trapping from the rear all the German and Hungarian forces pinned down in northern Transylvania, and knocking out Hungary, last big satellite nation still in Germany's camp.

Hint Warsaw Bridgeheads.

Altho Moscow was silent on the impending decision at Warsaw, in the center of the long eastern front, Berlin indicated that the Russians had established bridgeheads on the western bank of the Vistula river just north and south of the ruined Polish capital.

On the Estonian front Marshal Leonid A. Govorov's Leningrad army had ripped to pieces the Nazi defenses, sweeping thru 300 more towns and villages yesterday for a five day total of 2,100. Soviet front reports described the Nazi retreat as a rout.

The northern and southern wings now have linked up, the Moscow bulletin disclosed, clearing the Germans from the 900 square mile isthmus between Lake Peipus and the Gulf of Finland. The junction was made in the Raadna-Kauksi sector on the northeastern shore of Lake Piepus.

Isthmus Help Up Russians.

The 30 mile wide isthmus had been one of the most heavily fortified Nazi lines in the north and had held up the Russians since last February when the Leningrad seige was lifted.

Riga, Latvian capital, was under soviet artillery fire and Red army infantrymen were fighting within six miles southeast of that city in an effort to reach the coast there and seal off the Nazis in Estonia and eastern Latvia.

In Romania the Red army, attacking on a 55 mile front, captured 100 towns and villages, and reached the Hungarian plain.

U. S. Planes Raid Base.

Debrecen, a Hungarian rail center thru which supplies flow to the Germans and Hungarians, was raided yesterday by United States bombers from the Mediterranean theater after soviet bombers attacked it Wednesday night.

Hungary was menaced from the north as well as the south. Moscow disclosed that Col. Gen. Ivan Petrov's 4th Ukraine army in southern Poland had hurled the Germans and Hungarians out of eight more localities near the Czechoslovakian frontier.

EX-POLICE CHIEF OF ROME TO DIE BY SHOT IN BACK

(Picture on back page.)

ROME, Italy, Sept. 21 (AP).—Pietro Caruso, police chief in Rome during four months' of German occupation, was sentenced today to die by being shot in the back for his collaboration with the Nazis. It was the first war criminal trial in Italy.

The high court of justice condemned Roberto Occhietto, Caruso's secretary and co-defendant, to 30 years' imprisonment on the same charge.

The eight-man high court of justice presided over by Judge Lorenzo Maroni heard Marie Berlinguer, prosecutor, characterize the two defendants as "wild beasts" and the verdicts were announced after a two hours' deliberation.

Caruso Pales at Verdict.

Caruso, convicted of turning over to the Germans 50 of 335 hostages executed by the Nazis at the Ardeatine caves last March, turned pale as Maroni pronounced the death sentence.

[Another Rome dispatch said Caruso would be executed this morning after being tied to a chair.]

Occhietto, who was accused of attending a German sabotage school in the Netherlands, chewed gum as the court found him guilty. He had testified he obtained information for the allies while working for the Germans and Caruso.

There was no demonstration by the spectators.

The judges convicted Caruso of turning over the hostages, entering the church of San Paolo Fuori le Mura last February in violation of the Vatican's extraterritorial rights, seizing Italian citizens for labor battalions, and authorizing Occhietto and others to attend the school for saboteurs.

Trial Under Guard.

Donato Carretta, government witness and former keeper of Regina Coeli prison, from which the hostages were turned over to the Germans, was dragged out of the palace of justice on Monday by a mob and beaten to death.

After a one day delay the trial was transferred secretly to the Palazzo Corsini and was opened yesterday with elaborate police guards.

GREEK FLAGS FLY OVER RIMINI, ANCHOR OF NAZI GOTHIC LINE

WITH THE 8TH ARMY IN RIMINI, Italy, Sept. 21 (AP). — Greek troops hoisted their flags on the main post office of Rimini today and the last German hope of holding the 8th army away from the Po valley lay crushed in the desolate ruins of this once beautiful resort and port city.

Gen. Heidrich's parachutists were pulling out of Rimini this morning after Canadian forces had moved up west of the city with such speed and determination that the port, once the Adriatic anchor of the Gothic line, no longer was tenable. The Greeks went quickly to work cleaning out the few snipers left behind.

Yanks on North Slope.

ROME, Sept. 21 (AP). — American 5th army troops today began driving down the northern slopes of the last mountain barrier guarding the Po valley after throwing the Germans off four heights. This placed the Yanks 25 miles north of Florence. In the western coastal sector a 5th army force was 18 miles up the coast from Pisa.

TRIBUNE MAN RETURNS FROM INVASION FIGHT

Lt. Carl Christopherson, U. S. N. R., an assistant financial editor of THE TRIBUNE on military leave, returned to Chicago yesterday from the European theater where the carrier to which he is attached participated in the invasion of southern France, which began Aug. 15. Lt. Christopherson, intelligence officer of a fighting squadron based on the carrier, stated that the airmen saw 13 days of action after the invasion started. He entered the navy in September, 1942, and for a year was stationed at Great Lakes Naval training center before being ordered to sea.

FIGHT ON WORLD SECURITY PLAN SEEN IN SENATE

Wheeler Urges U. S. Not to Be Afraid of Allies.

BY PHILIP DODD.

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 21.—Sen. Wheeler [D., Mont.] charged in an interview today that "super-internationalists" are demanding that congress set up a world organization to preserve the status quo of any peace treaty that may be written in the future.

"They want to set up this organization before the American people know the terms of the treaty," Wheeler said. "They want it because they are afraid the American people will be disillusioned after the treaty is written, as they were after the last war."

Wheeler predicted there would be "one hell of a fight" when the senate is asked to approve the plan for world security now being discussed at the Dumbarton Oaks conference in Washington.

Greatest Army in World.

"We have today the greatest army in the world," Wheeler said. "Our navy and air force are greater than the combined navies and air forces of the rest of the world. We have the natural resources, the skilled labor, the inventive genius, and the business management to outproduce all countries of the world combined.

"We are in a position to say what kind of a peace shall be written, and to say what shall be done about Poland, the Balkans, the Baltic nations, France, and Germany. We can demand a united states of Europe, the only thing in my mind that can prevent future war between England and Russia.

"Not only are we in a position to demand these things, but we can enforce our demands, not only on account of our armed might but because of our economic strength—provided our leaders, both Republican and Democratic, are unafraid to stand up for American rights and the kind of peace the American people will be proud of and that our children and grandchildren will be proud of."

No Reason to Cringe.

Wheeler said there was no reason for the United States to be afraid to tell its allies what this country wanted and that there was no reason to cringe before any government in the world.

"These super-internationalists," said Wheeler, "are talking about an international organization with a world police force to enforce world peace. There are only three countries in the world that will be able to start another World war after Germany and Japan are thoroly licked—the United States, England, and Russia.

"The only way you can enforce peace on those three countries is to have them disarmed and turn the planes, ships, and guns of the United States, Russia, and England over to the international police force.

International Staff.

"To direct this world peace force there must be an international staff, composed of officers from the countries represented, to work out plans for the invasion of various countries according to the plans of the world council.

"American officers would have to collaborate on how some other country, judged guilty of aggression, could be invaded. But how would they feel about collaborating with Russia and England on invading the United States in the event we sent marines to some Latin American country, as we have in the past?"

WALLACE SAYS U. S. MUST GO FORWARD IN 'LIGHT OF LIBERALISM'

New York, Sept. 21 (AP).—Vice President Wallace, defeated for renomination at the Democratic national convention, tonight said America must go forward "in the light of liberalism" and that he would vote for President Roosevelt's reelection. He made no reference to Sen. Truman [D., Mo.], his successor as Democratic Vice Presidential nominee.

Wallace's address, his first of the campaign, was delivered before a throng attending a Roosevelt rally in Madison Square Garden under auspices of the independent voters committee of the arts and sciences for Roosevelt. An admission fee of from 60 cents to $2.40 was charged.

Wallace said liberals striving to blueprint the future gave first place in their hearts to "jobs for all, in health and security," closely followed by "the problem of the returned soldier."

Wallace said he saw America "as a vigilant watcher and perpetual guardian of the ramparts of the future."

"This future has one essential—the continuous rebirth of liberalism," he said.

Wallace defined a liberal as "a person who in all his actions is continually asking, 'What is best for all the people—not merely what is best for me personally?'"

Gen. Wharton Killed by Nazi Sniper, Army Says

PARIS, Sept. 21 (AP).—Brig. Gen. James E. Wharton was killed by a German sniper at the front Aug. 12 while commanding an infantry division, the army disclosed today.

F.D.R. IS ACCUSED OF HIDING PEACE GOALS FROM U.S.

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 21.—Sen. Bridges [R., N. H.] today accused President Roosevelt of failing to let the American people know to what kind of peace his war leadership is bringing them. He said the terms of the Atlantic Charter were "scattered to the winds" thru harsh peace settlements now being reached in Europe.

"The American people have not altered their determination to see this struggle thru to an honorable and enduring peace," Bridges said in a senate speech. "Many are the political cynics who deride such a position as I am now taking. Yet I ask, is not this cynicism evidence of failure to be honest with the American people in this dark hour of tragedy and suffering?"

Guiding Principles.

Bridges said the provisions of the Atlantic Charter, signed by President Roosevelt and Prime Minister Churchill of Great Britain, in mid-Atlantic in August, 1941, were looked upon by the American people as the guiding principles for which the war is being fought. The charter guaranteed the sovereign rights of small nations.

Bridges said recent events in Europe, however, indicate the allies are not insisting on the charter's principles. He cited the treatment given Finland by Russia, Russia's treatment of the small Baltic nations, her refusal to recognize the Polish government in exile in London, the Russian declaration of war on Bulgaria, and American and British desertion of Gen. Mihailovitch in Yugoslavia in favor of Marshal Tito's communist led forces.

"What has become of these high American principles which President Roosevelt insisted again and again were at stake in this struggle?" Bridges asked.

Bridges said the size of America's contribution to winning the war was not being advertised properly to the American people or to the people of the world.

"Mr. Stalin and Mr. Churchill," he said, "have kept the interest of their peoples ever uppermost in their concern. They are not afraid to inspire the peoples they lead with the record of their achievements. They are not afraid to appeal constantly to the innate love of country in the hearts of their people. But who is speaking for America?

"We are told we must not embarrass our allies, that we must not speak of these matters, but I want the American people to know, and I want the world to know, that I am overwhelmed by what my America has done in this war."

Churchill Is on His Way to Moscow, Says Berlin

LONDON, Sept. 21 (AP).—A Berlin broadcast, quoting "a dispatch from Lisbon," asserted today that Prime Minister Churchill was en route to Moscow from his Quebec meeting with President Roosevelt. It was announced here that the prime minister would report to the house of commons on the Quebec conference. Parliament will reassemble Tuesday and it was expected he would appear shortly after that date.

CHARGES MOVIE STARS CODDLE WAR PRISONERS

Rep. Weichel Says They're 'Feted Like Heroes.'

Prisoners Strike

Baltimore, Md., Sept. 21 (AP).—A sit-down strike of about 200 German prisoners of war working in three grape juice packing plants has been met with prompt application of the "strictest disciplinary measures," 3d service command headquarters announced tonight. "Punishment includes a bread and water diet," the statement added. The strikers are being replaced by other prisoners of war.

BY WILLARD EDWARDS.

[Chicago Tribune Press Service.]

Rep. Weichel.

Washington, D. C., Sept. 21.—Italian prisoners of war "who refuse to carry a gun for their own country" are being feted like heroes at Hollywood parties with the approval of the war department, Rep. Weichel [R., O.], declared in the house today.

The Ohioan displayed photographs taken at a movie star's mansion which showed the prisoners lolling on cushions beside a swimming pool accepting cocktails from obsequious attendants and admiring glares from pretty girls.

Last July, Weichel started a campaign against "coddling and pampering" of the 36,000 Italian prisoners of war transported to the United States. The war department replied that the prisoners were "relieving acute military man power shortages" and that "planned excursions of entertainment" were necessary to their "morale and efficiency." It denied the prisoners were being "pampered."

'Incredible Pampering.'

"In the last two months," Weichel told members, "I have received hundreds of letters from 22 states containing evidence that the pampering has continued to proceed on an almost incredible scale thruout the nation.

"The prisoners have been permitted the free run of surrounding communities, visiting the taverns and shops. They have been arrested in houses of prostitution. They assaulted police in the city of Boston. According to complaints from Fort Knox, Ky., American soldiers are forced to salute Italian prisoner-officers.

"I am informed that more than $15,000 worth of beer was delivered to Camp Perry, O., for sale to the Italians at 9 cents a bottle."

Gracie Fields Hostess.

At this point Weichel hauled out photographs from a Los Angeles newspaper which showed prisoners of war being entertained at the Santa Monica canyon mansion of Gracie Fields, British radio and screen star, and her director-husband, Monty Banks. The accompanying story said the tennis courts, swimming pool, and bar were opened to the prisoners and "beauties from the local Italian colony" summoned for their amusement.

"The parents of those in the armed forces resent this method of making heroes of those who have killed their sons," said Weichel. "The war department has gone thru the country asking private citizens to entertain these men lavishly.

"Why should they be praised for doing noncombat service after they refuse to take a gun to liberate their own country? I see no reason for special honors and entertainment of prisoners who will not fight for their own country while our troops are still fighting to liberate Italy for them."

THE QUESTION.

If you were overseas on Christmas day what would you most want included in your Christmas package from home?

WHERE ASKED.

Chicago Service Center No. 2, Michigan av. and Congress st.

THE ANSWERS.

Tech. Sgt. Hugh Driscoll, Waynesboro, Pa.—It would depend on where I was. Last Christmas I was on one of the South Pacific islands. There isn't much you can use there in the way of clothing. Some one received a fruit cake last year and we all thought it was swell. Little pocket magazines and books would have suited me fine.

Bkr. 1/C Arnold Keller, Bronx, N. Y.—For three Christmases I've been at sea . . . and it looks like I'll be there this year. This year I'd like a picture of my wife and baby—one nice big picture that I can put in my locker. Other things wear out or get broken, but a picture always stays the same.

Cpl. Bruno Leugoud, 11321 Forest av.—My brother has been on an island in the South Pacific and they don't get much out there. If I were in such a position I'd like something for Christmas that I wouldn't have to carry around with me wherever I went. A box of good cigars that I could smoke in my leisure and a good mystery magazine would hit the spot.

Pvt. Mildred Roth, Fond du Lac, Wis.—A pair of nice soft bedroom slippers for my barking dogs would be just the thing. Some of my mother's creamy homemade fudge would taste good, too. It probably would be too much to ask mother to have her picture taken but that would be the nicest thing she could do for me.

Pvt. Myron H. Francis, 1541 Fargo av.—When I left Europe on Aug. 17 some of the boys were still receiving Christmas packages from last year. So I wouldn't want anything too expensive sent to me because it might not reach me. Some good looking pictures of my friends or a delicacy like olives or cherries would be ideal.

Pvt. Merlin Dhaene, Fond du Lac, Wis.—I couldn't drag my mother to a photographer to have her picture taken but that's what I'd like for Christmas more than anything else. I'd like a picture of her now but maybe if I went overseas she'd send me one. A second choice would be some of her delicious peanut butter cookies.

CAFFERY NAMED AS U. S. ENVOY TO GEN. DE GAULLE

Washington, D. C., Sept. 21 (AP).—President Roosevelt today appointed Jefferson Caffery, just returned from the post of ambassador to Brazil, as United States representative to Gen. De Gaulle's French committee.

He will have the personal rank of ambassador but not the actual post, since this country has not recognized the committee formally as a government.

This move rounds out the list of diplomatic appointments to Europe with the exception of Czecho-Slovakia.

Step to Recognition.

The designation of Caffery sends a top ranking American diplomat to deal with the French for the first time since Edwin C. Wilson returned from Algiers several months ago.

It is taken as indication that this government is moving closer to recognition of De Gaulle's committee as the provisional government of France. It also is a concrete sign of the American policy for a strong France, recently proclaimed by Secretary of State Hull.

The state department announcement of Caffery's appointment said he was being sent to "the de facto French authority now established at Paris."

Leading the list of those discussed for the Brazilian post is R. Henry Norweb, American ambassador to Portugal.

Career Diplomat.

Caffery is a long time career man in American foreign service hot spots. Officials here rate his work in Brazil, during the time when that country was taking the lead among Latin American nations backing the allied war effort, as among his best jobs.

Born in Lafayette, La., Dec. 1, 1886, Caffery has had as varied a career as any man in American diplomatic service. He entered the field as secretary of legation in Venezuela in 1911, did diplomatic work in the middle east in the first World war, serving subsequently in Madrid, Athens, Tokyo, and Berlin, with incidental tours in other capitals and in international relief and rehabilitation work.

He became minister to Salvador in 1926, later moving to Colombia with the same rank. He served briefly as assistant secretary of state in 1933, then went to Cuba as ambassador. He has been ambassador in Rio de Janeiro since 1937.

FIRE DESTROYS GARAGE.

RID U.S. COURTS OF 'DOMINATION,' BRICKER URGES

Calls Supreme Tribunal a New Deal Bench.

Baltimore, Md., Sept. 21 (AP).—The United States Supreme court was labeled a "New Deal court" by Gov. Bricker tonight in a speech declaring that the judiciary "must be absolutely free of political bias."

The Republican candidate for Vice President, warning that "a very grave danger" lay in "domination of the courts by one man appointment," said that President Roosevelt had appointed 88 per cent of the Supreme court judges, 67 per cent of the federal Appeals court judges, and 56 per cent of the federal District judges.

"These judicial appointments," he told a Republican rally, "have too often been made not because of the legal ability of the appointee or his experience as a judge, but because of his adherence and conformance to the New Deal philosophy of government.

Warns of Danger.

"A very grave danger to our system of government lies not alone in the domination of the courts by one man appointment, but also in their use by the New Dealers for the narrow purposes of their political program."

The Ohio governor asserted that the preponderence of Roosevelt appointees in the federal judiciary was alone a reason for changing national administrations.

He mentioned the federal courts in accusing the "New Dealers" of searching "the centuries of history for the implements of power by which they could build the President's position to one of virtual dictatorship."

Part of Program.

"Part of the program," Bricker remarked, "was to weaken state and local governments in the federal structure."

Citing examples of what he called adherence to "the New Deal philosophy of government," the former Ohio attorney general said:

"Minority judges have conclusively shown the country that the majority had based its judgment in cases on personal opinion instead of interpreting the laws by constitutional standards.

"Finally a minority of the court has pointed out that the majority opinions have broken so many precedents, upset so many decisions that the law is in utter confusion and the lower courts are not given guidance for their judgments.

"At one time this New Deal court even spoke of the President as a ruler rather than the servant of our people."

Bricker addressed an appeal to the Democrats to "take back their party" from the "New Dealers" by voting the Republican ticket.

EX-CHAMP ROSS OPENS OFFICES TO HELP F. D. R.

Barney Ross, former ring champion, decorated for action with the marines on Guadalcanal, announced yesterday the opening of headquarters for the movement he is promoting under the title American Youth for Roosevelt. He said an organizing committee of 10 had been formed and an office set up in the Morrison hotel.

NEBRASKA AGAIN IS EXPECTED TO GO REPUBLICAN

Anti-New Deal Tide at Its Crest There.

BY ARTHUR EVANS.

[Chicago Tribune Press Service.]

Lincoln, Neb., Sept. 21.—Anti-New Dealism is at its crest in Nebraska, and from present indications the state is going Republican in November as in 1940. So far campaign activities have not struck a real stride. Republicans say this is because Nebraska's trend is so one-sided toward the Republican party.

The Democrats do not appear to be very hopeful, except in public statements.

Signs of Gov. Dewey's popularity are manifest. His speeches are clicking—the inquirer gathers this from comments in barber shops, trains, soft drink places.

60 Per Cent of Vote Cast.

Dewey was a favorite here before his nomination. Four years ago he beat Sen. Vandenberg of Michigan, two to one, in the presidential primaries and had the votes of Nebraska's delegation at the Philadelphia convention.

State officials in general figure the Republican ticket will get about 60 per cent of the total vote cast.

Sidney Hillman's CIO political action committee is reported to have some strength in Omaha, largely among packinghouse workers, but in the state outside its effect on the vote is deemed negligible by G. O. P. chiefs.

First District Fight.

Hillman is making a fight against Rep. Howard Buffett [R.], in the first district [Omaha]. Buffett is opposed by Mabel Gillespie, a former member of the legislature. Secretary of State Marsh and others at the statehouse say reports have been afloat that the PAC is spending $50,000 to defeat Buffett.

Democrats had difficulty in getting candidates to run. Gov. Dwight Griswold, up for this third term, is opposed by George W. Olsen, who won in the Democratic primaries. Olsen is an unknown in politics, and his name is theorized to have turned the trick. A Scandinavian name runs well in Nebraska.

Griswold is expected by many Republicans to lead in the voting. Four years ago, he won by 130,471 as against a majority of 88,524 for Wendell Willkie for President. Two years ago Griswold won by a majority of 188,140.

No County Elections.

This year there are no elections of county officers to help bring out the vote. County officials have four year terms; state officers, two years.

What is rousing interest in local affairs, however, is a struggle over liquor. On the ballot is a measure, proposed by initiative petition, which goes even farther than the old sumptuary laws of some bone dry states in the era of national prohibition.

It even proposes to prohibit any one from taking a drink of intoxicating liquor. Its title is "An Act to Prohibit the Manufacture, Sale, Transportation, Importation, Possession, or Use of Intoxicating Liquors."

This has the state stirred up. Harold D. [Three-gun] Wilson, who so styles himself in a book he has written, is organizing the allied dry forces.

McKEOUGH CIO GROUP BEGINS 3 STATE CANVASS

Former Congressman Raymond S. McKeough, who is regional director of the CIO political action committee, said yesterday he has started committee workers on a door to door canvass to see that war workers who have moved into Illinois, Wisconsin, and Indiana since the last election are registered before Oct. 10.

Before taking charge of the Hillman group's campaign in this area, McKeough was administrator for the office of price administration in the middle west. He said he became aware of an important shift in population thru analyzing ration book registrations. From those records, he estimated that a million eligible voters have come into the three states and likely have overlooked registering to vote.

"These out-of-state workers comprise a big X, one that conceivably might play a balance of power role in the forthcoming Presidential election," he said. "The job at hand is to get them on the registration rolls."

DEWEY OUTLOOK IN WEST AIDED BY LABOR SPLIT

AFL Support Indicated in Seattle Area.

BY ARTHUR SEARS HENNING

[Chicago Tribune Press Service.]

Seattle, Wash., Sept. 21.—Evidence that Gov. Dewey has split the labor vote has considerably upset political calculations in this state.

While neutral observers think President Roosevelt probably will carry Washington, they predict it will be by only a small fraction of the 140,000 plurality he had in 1940. Democratic leaders themselves are prepared for a close result—so close, in fact, they have little hope of saving their candidate for governor clinging to the Roosevelt coattails. Republican leaders think Dewey can win the state's electoral votes by a nose.

The schism in the ranks of labor has been developing since Sidney Hillman's Communist dominated CIO achieved ascendancy in the New Deal and became the principal driving force for the fourth term. Members of the American Federation of Labor which has complained bitterly of the favoritism enjoyed by the CIO in the New Deal's administration of labor laws, were alienated still further by the prospect of complete CIO control at Washington, D. C., probably with Hillman as secretary of labor, if the President wins a fourth term.

Want Gains Protected.

Distrusting Mr. Roosevelt, the AFL leaders were waiting to see whether Dewey would give assurance that the gains made by organized labor in the last decade will be preserved if he is elected, and the administration of the law reformed to eliminate the abuse of political power from which the CIO has profited.

Dewey came to Seattle and gave such assurance not only in his public speech but in a preceding conference with 50 AFL leaders.

The AFL leaders came away satisfied with Dewey's position, according to one of those present.

In this state, as elsewhere, the farmers are more strongly Republican than ever. The great agricultural section east of the mountains will go probably 75 per cent for Dewey. But how the state goes Nov. 7 will be determined in Seattle, which casts a third of the vote.

The vast majority of the workers in these plants are affiliated with the AFL. In Seattle labor is 90 per cent AFL. Republican Gov. Langlie is a candidate for reëlection and probably will win. His Democratic opponent is Sen. Wallgren.

Bone Clings to Job.

Democratic Sen. Bone's term expires Jan. 3 next. Several months ago the President appointed Bone to the federal bench. Bone, however, has not resigned from the senate and taken the judicial post yet in order to prevent Gov. Langlie from naming a Republican successor to serve till Jan. 3.

The Republican candidate to succeed Bone is Lt. Col. Harry P. Cain, former mayor of Tacoma and more recently an officer with the allied military government in Africa and Italy. For this service he was granted leave of absence by the city of Tacoma where he had been elected and reëlected mayor in nonpartisan elections. He used to be a Democrat, having been president of the Young Democratic clubs in 1934. Col. Cain is an exceedingly able citizen but he has an exceedingly shrewd Democratic opponent, Rep. Magnuson, who will have the support of the CIO and other radical elements. This will be a hot battle. If Col. Cain wins the Republicans will gain a senate seat.

Hot Battle in Seattle.

Another hot contest is in the Seattle congressional district to elect the successor of Magnuson in the house. The Democratic candidate is Hugh De Lacy, a shipyard machinist who is president of the Commonwealth Federation, exponent of public ownership and socialist doctrines. He has the backing of the CIO. The Republican candidate is Robert H. Harlin, director of the state department of labor and industry, who has the support of conservative labor.

With one of the strongest candidates in many years, Thor C. Tollefson, the Republicans are waging a campaign that threatens the defeat of Rep. Coffee in the Tacoma district. In the eastern and southwestern districts, Representatives Horan, Holmes, and Norman, Republicans, are virtually certain of reëlection as is Democratic Rep. Jackson in the Everett district.

REPORT ROOSEVELT MAY MAKE ELECTION TALKS IN 4 STATES

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 21.—The Democratic national committee is plotting campaign tours for President Roosevelt in Pennsylvania, New York, Massachusetts, and Ohio, it was learned on high authority tonight.

New Deal party leaders would have Mr. Roosevelt follow the trail he blazed in the 1940 third term campaign and speak at Philadelphia, Boston, New York City, Buffalo, Cleveland, and possibly Dayton.

The major question before the New Deal strategists is whether the President is physically fit for such a campaign.

Mr. Roosevelt's health has been a major concern of New Dealers for almost a year. The President became ill last December and has been ailing ever since.

On the President's return from his visit to the Pacific, it was reported without denial that he is to undergo a major operation. It is now reported that the operation has been put off until after the election.

In 1940 Mr. Roosevelt opened his campaign in September with an address before the teamsters' union in Washington. He will open the fourth term campaign before the same group Saturday night.

G. O. P. VICTORY ASSURES FARM FREEDOM: LYONS

[Chicago Tribune Press Service.]

Princeton, Ill., Sept. 21.—Election of a Republican President and Republican congress will free farmers from New Deal bungling and dictation and restore independence and enterprise to rural America, three Illinois audiences were told today by Richard J. Lyons, Republican candidate for United States senator.

"We are for 100 per cent free enterprise on the Amercian farm and we are for letting the farmer produce all that he can raise at a profitable price, the just reward of his labor and of his knowledge," Lyons said.

He spoke at mass meetings in Aledo, Toulon, and Princeton.

Traveling with Lyons are Arnold P. Benson, president pro tem of the state senate and candidate for secretary of state, and Conrad F. Becker, nominee for state treasurer.

My wife says the darndest things!

Imagine calling me "a goon" *Me*—with a private office and a neat blonde to take dictation. Anyway, I listened. When Mary has something on her mind, *you listen!*... Seems she bought herself a suit at Bond's. Did she rave about the way it fits. And the needlework. And what she calls "luscious woolens". And then, with a twinkle, she wants to know why *I'm* still paying fancy prices for *my* clothes. *Yes, why!*... Did I know a big percentage of Bond suits for men are tailored in Rochester? Did I know how much *that* means in quality and long wear? Did I know all Bond woolens have blue-blood pedigrees? Did I know Bond's have 81 different sizes and models to insure perfect fit, even for my executive figure? A bit of sarcasm—that crack about "executive figure". But what could I say? I never knew custom quality in ready-for-service suits came so easy. *I do—now!* But she still says I'm "a goon"—should have worn Bond clothes long ago. *And she's right!*

DEWEY BLASTS PETTY TYRANNY UNDER NEW DEAL

Pledges Security Without Loss of Freedom.

BY HAL FOUST.

[Chicago Tribune Press Service.]

San Francisco, Cal., Sept. 21.—New Deal regimentation and old guard reactionism were renounced equally by Gov. Dewey, Republican Presidential nominee, in the fifth address of his campaign before a capacity crowd of 15,000 here tonight. He told of plans for economic security without loss of individual freedom and promised to keep faith in individual enterprise.

The candidate announced he will retain some aspects of federal regulation which have been growing in the last quarter of a century. On the radio tomorrow night from Los Angeles, he said he will detail proposals to broaden unemployment insurance, old age pensions, and minimum wage laws.

What He Proposes.

He advocated these three principles, opposed by the New Deal, to promote the best interests of individuals and individual enterprise:

1. Government action must be of a character consistent with the American system of opportunity for all.

2. Government action must be administered by men and women who believe in and understand American workers, businessmen, and farmers.

3. A new point of view toward the relationship between government and the people. Government must be the means by which people, working together, seek to meet problems too big for any one or any group.

Protection for All.

Under a Republican administration, Dewey said, labor, industry and agriculture will receive protective governmental benefits, but without suppressive dictation, "the petty tyranny," from the New Deal type of burocracy. In accepting the philosophy that considerable federal control is here to stay, the candidate urged that the welfare of the country is all the more dependent upon the character of the men who compose the national government.

Dewey said that the intervention of government in our economic system is now accepted, and that the acceptance involves obvious danger to "our fundamental freedoms," personal and political. He charged the New Deal for 12 years has failed to face this danger frankly and courageously.

Text of Speech.

After introductory remarks in which he said he was happy to share the platform with Gov. Warren and Frederick F. Houser, lieutenant governor and G. O. P. candidate for United States senator, Dewey said:

"As I have traveled here, across this magnificent country of ours, I find that men and women everywhere are looking eagerly toward the peace which will follow our total victory over Germany and Japan. I find that as they look ahead beyond the final victory, two great desires are paramount. We want political freedom and we also want economic security. The great question of the years ahead will be this: Can we have both political freedom and economic security?

"The present administration has failed utterly to find a solution for that problem. Saturated as it is with the defeatist theory that America is past its prime, the New Deal can see only two possibilities for America—ever increasing regimentation as one alternative, and reaction as the other. It believes that economic security can only be purchased at the price of freedom.

"That argument is false. Our people do not want to see this country dragged further and further toward complete government control over every aspect of our lives. Neither do we want to go back to the reactionary philosophy of dog-eat-dog.

"Neither of these alternatives is necessary. There is a better way. There is an American way to meet the modern needs for greater economic stability and individual security within the framework of a free society.

Heart of the Problem.

"Let's consider a moment where we are today. We speak of freedom, but the farmer asks, 'Does that mean freedom to go broke when there are peacetime surpluses and the prices of our crops fall ruinously?' Labor asks, 'Does that mean freedom to walk the streets in bad years, looking for work at any price?'

"These are questions which go to the heart of our problem. No man can be free when he stands in constant danger of hunger. By the same token, no man can be either free or secure under a government which seeks to regulate his whole life.

"So what is the solution? Must we accept the New Deal way of ever increasing regimentation as the only escape from reaction? I think not.

"Whether we like it or not, and regardless of the party in power, government is committed to some degree of economic direction. Certain government measures to influence broad economic conditions are both desirable and inevitable.

Gives Three Examples.

"Let me give you just three examples:

"First, money and credit. Before we have finished financing the war, our national debt may be over 300 billion dollars. The annual interest on that debt at current rates will be 6 billion dollars. That is more than the total annual cost of our national government in any peace time year before the New Deal. That 6 billion dollars a year must be raised by taxes before we begin to meet the current costs of government. We cannot afford a substantial rise in interest rates which would still further increase the cost of carrying our national debt.

"So one result of this unprecedented government debt which now faces us is this: In order to keep down taxes and prevent the price of government bonds from falling as they did after the last war, the federal government is going to have to keep interest rates stable.

"Now, let's take up another vital aspect of our life—wages. In by-gone days, working men and women worked for whatever they could get. When a lot of people were looking for work, wages went down. In hard times people had to work for literally starvation pay. That was one of the brutal ways our society adjusted itself to depressions under the old time dog-eat-dog economy. Those days are never coming back again.

Days Won't Come Back.

"They are not coming back because we are never again going to submit to mass unemployment. Government's first job in the peace time years ahead will be to see that conditions exist which promote widespread job opportunities in private enterprise. There are many means to that end, including the creation of foreign markets and the promotion of foreign trade. If at any time there are not sufficient jobs in private employment to go around, then government can and must create additional job opportunities. There must be jobs for all.

"We have unemployment insurance, old age pensions, and minimum wage laws. They are here to stay and we are going to broaden them. Tomorrow night on the radio from Los Angeles I shall discuss some of the things we need to do to advance our social progress. We have strong labor unions, protected by law in their rights to collective bargaining. Moreover, we have developed over the years a social viewpoint which will not tolerate any solution to the economic cycle which rests upon the grinding down of the wages of working men and women.

"So here again we recognize that our economy has become more subject to government action. The savage old cut-throat adjustments are gone for good. We simply will not tolerate them.

Problem of Agriculture.

"Now, consider agriculture. The farmer, too, has lived under the iron law of supply and demand. In war time or when crops were normal and demand was good, the farmer prospered. When crops were big and demand was small, the farmer watched his produce go begging while his children were in need.

"But the farmer had no control over either supply or demand. He might work his head off all summer long and then lose everything. He had no protection from the inexorable swings of the economic cycle, which swept him alternately from good times to distress.

"All that is also in the past. As a nation, we are committed to the proposition that the farmer must be protected against extreme fluctuations of prices. We are committed to the proposition that the prices of major farm crops must be supported against the menace of disastrous collapse.

"We have undertaken that commitment for the sake of the entire nation. We know that the depression on the farm leads to depression in the nation, just as unemployment and misery in the city leads to misery on the farm.

Committed to Intervention.

"In agriculture, in labor, and in money, we are committed to some degree of government intervention in the free workings of our economic system. In many directions the free market which old time economists talked about is gone.

"Now, in all this there exists an obvious danger to our fundamental freedoms. The danger is that in accepting the support of government in certain broad aspects of our economy we may slip by stages into complete government control of our lives. In other words, in our search for economic security we may lose forever, our personal and political freedoms.

"Not once in all the past 12 years has the New Deal faced this situation frankly and courageously. Instead, it has sought to buy the favor of one group and then of another. It has pretended to be the generous uncle for each group, meanwhile playing one against the other for political profit. It has built up a towering burocracy which today reaches into the smallest village in the country and directly affects the lives of all our citizens. Not content to deal with major economic factors, or possibly because it was not competent to deal with them, it has sought to fasten upon the individual citizen, the deadening hand of burocratic control.

2 Dangerous Alternatives.

"The result is that today we confront two dangerous alternatives. Under one, we may slip by gradual stages into complete government regulation of every aspect of our lives. Under the other, we may become so intolerant of the restraints and interferences in our lives as to take refuge in complete reaction. Either of these courses would be tragic. Neither is necessary.

"We have reached a point where we must make a crucial decision. We must decide this year whether we shall reject both of these courses and choose a new leadership pledged to attain maximum of security without loss of our essential freedoms, and with neither malice nor favor toward any group or class.

"For myself, I am utterly confident that America can achieve stability and lasting prosperity without the loss of any part of its political freedom.

"Facing the world ahead and recognizing the necessity of a government active in promoting the best interests of individuals and of individual enterprise, we should establish three principles at the base of such action. All three of these principles are the exact opposite of the New Deal.

"The first is that government action must be of a character consistent with the American system of opportunity for all. Its objective must be not to restrict individual economic opportunity but to widen it. Government must do this without any reservations as to its faith in individual enterprise. It must promote fair trade and not consider trade as something just to be tolerated.

"The second principle is, that government action must be administered by men and women who believe in and understand American workers, American businessmen, and American farmers. There has perhaps never been a time in our history when the character of the men who compose our government was so important as it is now.

"The temptation to be burocratic, to usurp power, to puff themselves up has proved irresistible to those who have swarmed to Washington under the New Deal. We must have men in government who have the strength of character to resist the inevitable temptation toward petty tyranny. We must have men in office who believe that the preservation of individual rights and freedoms is more important than the exaggeration of their own power.

"Finally, we must have a new point of view toward the relationship between government and the people. The role of government cannot be the purely negative one of correcting abuse, of telling people what they may or may not do. Government must be the means by which our people, working together, seek to meet the problems that are too big for any one of us or any group of us to solve individually.

"The industrial worker, however capable and energetic he may be, cannot in our modern society, assure himself by his own unaided efforts, continuity of employment. Even the largest industrial corporation cannot maintain employment, if the country as a whole is undergoing a depression.

"Yet, if there is one thing we are all agreed upon, it is that in the coming peace time years we in this country must have jobs and opportunity for all. That is everybody's business. Therefore it is the business of government. But how?

No Shortcuts to Goal.

"Where are we going to find these jobs for every one who wants to work? Certainly they will not be found in government itself. If all of us should go to work for the government, then our system would be no different from Communism or Fascism.

"There can be jobs for all only if business, industry and agriculture are able to provide those jobs. There are no clever short-cuts to this goal. It cannot be achieved by some ingenious scheme concocted by a social dreamer in a government bureau. The New Deal pulled rabbits out of hats for seven years and ended up in 1940 with ten million still unemployed. We will achieve our objective only if we create an economic climate in which business, industry and agriculture can grow and flourish.

"Our small businessmen, our farmers, the men who run our offices and factories and stores and mines must know that government wants each of them to succeed, that government stands ready, not to hinder, but to help. I am concerned only that our people shall have jobs, and people cannot have jobs if businessmen are afraid to go to work, if management is afraid to manage, if farmers are afraid to produce. We want the enterprising men and women of America to make a success of their endeavors because that is the only way we can have a going American economy in which all our people can find work at decent pay.

Sees Miracles in Peace.

"We have seen in the war what can be done when American technical and management skill is given a chance to do a job. All that was necessary was to give American enterprises the green lights in order to bring forth miracles of production. In the same spirit, American business and American industry can be given the green light for peace time production. Then we shall see peace time miracles as we have seen war time miracles.

"There is much that government can do. Our repressive tax laws, which now operate to penalize incentive and to put a brake upon the kind of enterprise that makes job opportunities, must be drastically revised. We must have the kind of taxes that do not discourage, but encourage men to start new businesses and to expand old businesses. At another time, I shall discuss this question of taxes in detail.

"Government regulations which discourage and wear down producers in every field must be revised. The whole atmosphere of studied hostility toward our job producing machinery must be replaced.

"More than this, we must have laws that are sufficiently simple and clear so that men can know what they are allowed to do. Most of the laws passed by the New Deal and the regulations under them are so involved and complicated that it is impossible for even the ablest lawyer to advise what they mean. The judges, when called upon to apply them, are violently divided among themselves. There can be neither freedom nor a healthy economy under laws and decrees which are so multitudinous that business men, labor leaders, and, indeed, citizens generally, cannot be law abiding except by doing nothing.

"The man who has an idea that could lead to greater job opportunities must feel that government is as anxious for him to succeed as he is himself. That means also that government must cease to pursue policies which foster antagonism and mutual distrust between workers and employers.

"For too long we have been a nation divided and government has been the great divider. Now, under the stress of war, we have drawn closer together. We have come to appreciate a little better the part that each of us must play. Labor, industry, and agriculture, each in its place, has made a mighty contribution to the winning of the war. We must learn to work together in peace as we have worked together in war. We must seek mutual understandings.

"The worker, the farmer, and the business man are equals and are equally important.

"The government must be equally concerned with the welfare of all elements in our society. Government is not the property of any section of the country or any segment of our society. It should be the servant of all. We are not going back to the days of unregulated business and finance. We are not going back to the days of unprotected farm prices. We are not going back to leaf raking and the dole. We are not going down the New Deal road to total control of our daily lives. We are going forward on the better road. We are going forward to achieve in peace what the New Deal could only achieve at the cost of war—jobs and opportunity for all.

"And we shall recover and preserve our individual freedom, which has once again been made sacred by the blood of American men."

No Discrimination

A delegation of five leading women lawyers was assured yesterday by John T. Dempsey, Republican nominee for state's attorney, that if he is elected there will be no discrimination in favor of male lawyers in the prosecutor's office. If the need presents itself, Dempsey said, a woman lawyer will be appointed as assistant on the state's attorney's staff. The delegation meeting with Dempsey in his offices at 29 S. La Salle st., included Helen W. Munsert, president of the Women's Bar association; B. Fain Tucker, former president of the association; Jeanne Brown, Kathryn Barasa Rinella, and Mary Louise Ramsey, member of the board of directors of the Women's City club.

Thinking Americans Today... ARE NOT TOO FREE WITH FREE SPEECH

Since our republic was founded, no privilege has been guarded more jealously than the right to talk things over—a right for which men had fought in vain for centuries. The more viewpoints discussed, the clearer our national vision and the stronger our national unity.

Today, public opinion in America asks us all to protect our privilege. It warns us against spreading rumors thoughtlessly or circulating information helpful to the enemy. It urges us to challenge the person with "inside information on the war" by asking him, "Where did you get your facts?" It reminds us that the enemy lays important plans by piecing together little scraps of offhand information. *There is no such thing as unimportant gossip.*

In addition to supplying the armed forces with glider and bomber fuselage frames, wing parts, gun turret parts and foodstuffs, Anheuser-Busch produces materials which go into the manufacture of: Rubber • Aluminum • Munitions • Medicines • B Complex Vitamins • Hospital Diets • Baby Foods • Bread and other Bakery products Vitamin-fortified cattle feeds • Batteries • Paper • Soap and Textiles—to name a few.

When a product maintains the character that people respect, they are quick to demand it. Generations ago, the makers of Budweiser set a standard—distinctive in taste, pure, good and distinguished for its uniform quality. That's why people everywhere have agreed that Budweiser is "something more than beer". No wonder it is the most popular beer in history.

CANADIANS FREE CHICAGO FLYER FROM THE NAZIS

Lt. Jack A. White, bombardier on a Flying Fortress, who was shot down over Germany July 1 while on his 13th mission, has been freed from a German prison by Canadian forces, he said in a cablegram received yesterday by his wife, Mrs. Belle White, 6954 Clyde av. The message said he was on his way home, but gave no details of his rescue.

Lt. Edward M. Nelson of the army air forces, a fighter pilot, was killed Aug. 31 in action in Corsica, his parents, Mr. and Mrs. Joseph E. Nelson, 1350 E. 68th st., were informed yesterday by the war department. Lt. Nelson, 20, had been in service for 19 months and had been overseas since Aug. 12. He was a graduate of Hyde Park High school, where he was co-captain of the school golf team and a member of the football team. He was well known as a bowler, having bowled a 300 game. He had been employed by Armour & Co., as a test clerk.

Lt. E. M. Nelson.

Sgt. Channing Miller, 23, marine veteran of Guadalcanal, Saipan, Tarawa, and Tinian, has been killed in action in the South Pacific, his mother, Mrs. Bessie Miller of Liberty rd., Aurora, was notified yesterday by the war department. Sgt. Miller, twice wounded in action, had been in service since 1942 and had served most of the time overseas.

Staff Sgt. Henry C. Hoffmeyer, 29, son of Mr. and Mrs. Albert H. Hoffmeyer of 1418 Wilmette av., Wilmette, was killed in action Sept. 8 in India, his wife, Judith, Lake Villa, learned yesterday from the war department. Hoffmeyer had been in service for three and a half years and had been overseas 27 months. He was graduated from New Trier township High school. He has three brothers in service.

Tech. Sgt. James D. Smith, 20, radio gunner on a Liberator bomber, was killed in action in China Aug. 7, his parents, Mr. and Mrs. William G. Smith of 6706 Sioux av., were informed yesterday. Sgt. Smith enlisted in the air force two years ago and had been overseas since May.

Sgt. Bertram Glickman, 23, a gunner on a bomber, was killed in action over Germany July 21, according to word received here by friends from his father, Mortimer Glickman of Los Angeles. Glickman was a graduate of Senn High school. His father, musical director for many years at the Glickman Palace theater, Blue Island av. and Roosevelt rd., went to California two years ago.

Memorial services for Lt. Rudy A. Ardelean, 6902 St. Lawrence av., who was killed in action in France Aug. 10, will be held at 3 p. m. Sunday in the Park Manor Methodist church, 70th st. and South Park av. He was the son of Mr. and Mrs. George Ardelean.

Award Posthumous Medal to Brig. Gen. Roosevelt Jr.

Washington, D. C., Sept. 21 (AP).—Brig. Gen. Theodore Roosevelt Jr. was awarded the congressional medal of honor posthumously today "for gallantry and intrepidity at the risk of his life above and beyond the call of duty" on D-day. The medal was presented to his widow by Secretary of War Stimson. Roosevelt died in Normandy of a heart attack July 12.

CONGRESS ENDS SESSION UNTIL AFTER ELECTION

Plea for World News Freedom Adopted.

Washington, D. C., Sept. 21 (AP).—Congress began its second extended vacation of the year today, adjourning for an electioneering holiday after an eight week session in which it passed a program designed to cushion the impact of the war's end on the nation's economy.

The principal legislative business of the closing day was unanimous passage in both houses of a resolution calling on all nations to adopt a policy of press freedom and free exchange of news, as a measure to bolster peace. The resolution read:

"Resolved, that the congress of the United States expresses its belief in the world-wide right of interchange of news by news gathering and distributing agencies, whether individual or associate, by any means without discrimination as to sources, distribution, rates, or charges; and that this right should be protected by international compact."

A Bar to Dictatorship.

The resolution was drawn up by a subcommittee of the senate foreign relations committee. It was based on drafts offered in the house by Rep. Fulbright [D., Ark.] and in the senate by Senators Taft [R., Ohio] and Connally [D., Tex.].

Fulbright asserted that the dictators established their iron grip and thus made their prosecution of the war possible by first muzzling the press and radio, then completely controling it.

"Lame Duck" List Grows.

The lawmakers will return to the capitol Nov. 14, unless recalled sooner, to face a docket that may include such controversial matters as peace time compulsory military training legislation.

More than a score of incumbent house members already have lost their fights for reëlection or have failed to seek new terms, and the "lame duck" list may be longer when the lawmakers return. Many face stiff contests in the Nov. 7 balloting.

FALL PROVES FATAL.

Mrs. Minnie Sweet, 74, died yesterday in County hospital of injuries suffered Sept. 5 in a fall in her home at 3537 W. 37th st.

SEN. O'DANIEL, NEW DEAL FOE, SPEAKS TODAY

Sen. O'Daniel [D., Tex.], opponent of the New Deal, will speak before the Executives club in Hotel Sherman today on "What Next?"

Besides the attention he has won fighting the administration on the senate floor, O'Daniel is also a potential "stand in" candidate for President. Presidential electors named by the American Democratic party in Alabama have announced that if they win they will vote for him despite his insistence that he does not wish to be considered a candidate. By voting for O'Daniel, the Alabama insurgents hope to deprive President Roosevelt of an electoral majority.

O'Daniel spoke at a recent meeting of American Democrats in Birmingham, Ala., and charged that Sidney Hillman, head of the CIO political action committee, "and his gang of labor leaders have bought out the Democratic party of our fathers lock, stock, and barrel."

SPEEDY BUILDING OF FIELD SAVES TRIBUNE PILOT

Lt. Howard Danks, 23, a fighter pilot who had been employed in The Tribune pressroom until he went on military leave, probably owes his life to the speed with which an aviation engineers battalion constructed an air field in southern France.

Work on the field was begun on the day after the invasion of southern France. Two days later Danks' fighter plane made an emergency landing at the field, according to the story related by Frank Gervasi in today's issue of Collier's magazine.

"He [Danks] was in trouble," Gervasi wrote. "There wasn't a friendly airport in all southern France, and there were many miles of sea between him and his base. So he came down, and we all felt that perhaps the 809th aviation engineers had already saved a life."

New Infantile Paralysis Case Reported in Chicago

One new case of infantile paralysis in Chicago, reported yesterday to Dr. Herman N. Bundesen, president of the board of health, brought the total this year to 107. There have been six deaths. There had been 738 cases and 70 deaths last year at this time. No new cases were reported yesterday in the county outside the city.

Army Private to Share in Million Dollar Estate

Muskogee, Okla., Sept. 21 (AP).—Pvt. SIT DOWN FOR A MOMENT
IN Our Park

In a town this size, it's *the* park. There's a bench near the bandstand. Look East—a tree-shaded street, well-kept houses set back of green lawns. West—a similar street in filtering sunlight. Now look North—it's Main Street—wide, store-lined business section of the town, alive with the energy of progressive people who know where they're going and how to get there.

This town is typical of many thousands in which live and work those for whom PATHFINDER is published—the self-dependent, forward-looking citizens of America's small and medium-sized towns and cities.

PATHFINDER has been their magazine choice for 50 years because its viewpoint is so particularly their own. And now—this national news weekly, vigorously and keenly edited, well-illustrated and brightly printed, is even more popular, still growing in both readership and influence.

National advertisers wishing to reach the Main Streeters who spend so large a portion of the national income in their retail stores are using PATHFINDER pages—successfully.

SEDITION TRIAL IS DENOUNCED AS FARCE IN SENATE

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 21.—The mass sedition trial in Washington, in which the federal government has been trying for four months to convict 26 men and women on charges of conspiracy to undermine the morale of American fighting men, was denounced on the floor of the Senate today as a "public scandal" which is making a laughing stock of the federal courts.

The charges were made by Senators Wheeler [D., Mont.] and Langer [R., N. D.]. Langer led off with a speech in which he stated that if the four months of evidence thus far produced by the government is the best it has to offer, the trial should end in the acquittal of the defendants. He said the trial would cost the tax payers a million dollars.

Call Disgraceful.

Sen. Wheeler interrupted Langer during his speech to say he considered the trial "one of the most disgraceful proceedings in American judicial history. It makes laughing stock of the federal courts and I have written Atty. Gen. Biddle protesting the continuance of this spectacle," he told the senate.

Langer said that if the type of evidence introduced by the government to prove conspiracy were to become a part of American court procedure. President Roosevelt could be tried for conspiracy to violate the election laws because of illegal acts committed by local election officials.

"No one can be held responsible for all the acts of all the people supporting a candidate for public office," Langer said. "President Roosevelt cannot be tried for conspiring to flout the election laws if Mayor Kelly's and Mayor Hague's machines break the laws."

Calls Charges Weak.

If the defendants in the sedition case are convicted, the verdict should be reversed on the first appeal, Langer said. He said the conspiracy charge was weak because no proof has been offered that all of the defendants conspired in their acts. Many did not even know each other before the trial, he said.

"I don't espouse the philosophies of those on trial," Langer said, "But I do espouse the principles of freedom of speech and political freedom which are being endangered in this trial. The way to combat the propaganda of these people is by education, not by a farcical legal proceeding like this."

WOUNDED IN ARGUMENT.

Herbie Abrams, 24, was shot and wounded yesterday in a fight in his home at 3108 Calumet av., with Gertrude Blades, 35. Both are Negroes.

BRITISH POLITICS IS BLAMED FOR LOSSES IN CHINA

Lack of Co-Operation Assailed in House.

[Continued from first page.]

fied plans," Johnson said. "Immediately he encountered difficulties because of deliberate disregarding of the agreed program and lack of coöperation by British and Indian forces.

One Incident in Series.

"History will show to generations in the future that had the program of Gen. Stilwell been carried out, as agreed, and full coöperation been given by our allies, American and allied forces would be in Hong Kong today. Supplies would be rolling into China over both land and sea routes, and the war in the Pacific would have been shortened many months."

The Cairo fiasco, Johnson continued, is only one in a series of British refusals to coöperate to the end of putting a maximum of allied forces in the field against Japan in Asia.

In December, 1941, at a conference in Chungking, the congressman said, Generalissimo Chiang Kai-shek offered to put two Chinese armies under Gen. Stilwell's command and suggested to the British general, Archibald Wavell, then allied commander in southeast Asia, that he accept them for use in defense of Burma.

"Chinese Not Wanted."

Johnson quoted Gen. Wavell as replying that "Chinese troops are not wanted. We can handle the situation."

Wavell then belatedly agreed to accept the Chinese troops, Johnson added, but they arrived too late to save Burma.

"I contend that, as a result of Wavell's refusal to accept the two Chinese armies offered by Generalissimo Chiang Kai-shek, Burma fell, conquered by the Japs with only three regiments, thus completing the land blockade of China," the Illinoisan said.

After the retreat from Burma, Johnson related, Wavell refused a request by Gen. Stilwell to establish a training center for Chinese troops at Ramgargh, India. The congressman said Wavell argued the Chinese would throw cow bones around and offend the Hindus.

Two Divisions Allowed.

The dispute resulted in a compromise whereby Stilwell was allowed to "train only two divisions where he could have trained hundreds of thousands of Chinese in the two years that were wasted," Johnson declared.

The Indian government, the congressman continued, has hampered Stilwell's training of Chinese troops at Ramgargh. He said that government sought to prevent a private Indian contractor from cutting down rifle stocks to a size suitable for the Chinese, and that on another occasion the government refused to allocate thread for making sacks for Chinese troops to carry their rice rations.

Asks British Policy.

"If coöperation had been extended Gen. Stilwell by our allies," Johnson said, "China would not now be in danger of being divided and knocked out of the war. The war in Asia would have been shortened by many months and thousands of American lives would have been spared."

The congressman reiterated his demand of last week for a definite declaration of policy by Great Britain on the question of India's independence.

"A definite promise by Britain concerning Indian independence at some future date, programed so that it is possible of fulfilment, will place 3 to 4 million Indian volunteer troops in allied armies—troops that will have something to fight for," he said.

FIGHTING SPIRIT ENLIVENS G. O. P. COUNTY MEETING

All-Out Campaign Drive Pledged by Workers.

BY GEORGE TAGGE.

Fighting spirit blazed in members of the Republican Cook county central committee yesterday at the conclusion of a two-hour session with Gov. Green in which the committee vowed all-out efforts for every candidate on the G. O. P. national, state, and county tickets.

As they left the session committeemen reported that the meeting was akin to the "between halves" huddle of a football team in which coaches spur the players to hit their winning stride. They agreed that this political equivalent of a locker room scene cleared the air for concerted G. O. P. action in the county campaign.

Gov. Green came from his downstate speaking engagements for the meeting. The stage was set for his speech by Edward F. Moore, 30th ward committeeman, who said the county team has not been playing "winning ball."

Moore Calls for Action.

Disdaining customary pleasantries, Moore spoke frankly of the lassitude shown by some ward leaders. The main chance of county candidates to be elected Nov. 7 depends upon their enthusiastic campaign for Dewey and Bricker on the national ticket and Green and Richard J. Lyons for United States senator on the state ticket, Moore told his colleagues.

Moore said that factionalism had wrecked the county Republican party in campaigns in the past.

He called for assurance that no clique within the G. O. P. in Cook county shall control the organization or reap the benefits of united efforts. Moore assailed solicitations of funds by "individuals, some of whom are in this room," as a hindrance to a central party fund.

Gov. Green described the downstate G. O. P. campaign and declared its success should be used as a model for the Cook county party officials. No faction will be permitted to control the party, he said.

Cites Downstate Campaign.

"The Republican downstate campaign is rolling up a greater majority than in many, many years," Green told the ward and township committeemen. "This same trend can be converted into Republican victory in Cook county if all of us work earnestly and are united."

Gov. Green acknowledged the danger of individual county nominees working for themselves to the exclusion of other candidates. He urged every ward leader to give full support to the Dewey-Bricker pledge card project, and to show more vigor in getting citizens to register.

John T. Dempsey, candidate for state's attorney, received an ovation when he pledged a vigorous drive as head of the county ticket. He said he will carry on in behalf of every Republican candidate.

Dempsey Receives Pledges.

Showing emotion, Dempsey offered to quit the race if the organization does not like his campaign. When he repeated the offer, his words were drowned in shouts of "We're for you, Jack!" and "You stay in there." The incident spiced the enthusiasm evident when the meeting broke up.

Two massmeetings to spark the Republican offensive were announced. Clair Boothe Luce, playwright and congresswoman whose speech was a feature of the national convention, will speak in Orchestra hall Oct. 13 under sponsorship of the women's division of the county central committee. Gov. Dewey will address an estimated 20,000 persons in the Chicago Stadium Oct. 25.

Committeemen were enthusiastic about the meeting.

Edward F. Moore, 30th ward: "The meeting did good by getting problems into the open."

Busse Sees Improvement.

William Busse, Elk Grove township: "Sentiment and organization out my way are better than ever, and this meeting sends us on our way to reap the votes."

Paul C. Ross, 42d ward: "This meeting was the best we ever held. The committeemen are fighting mad and are out to show they know how to win."

Frank R. Leonard, 47th ward: "This meeting has stirred everybody to give the best he's got. Republicans are going to town in my ward."

County Chairman George M. Fisher was back on the job after an illness. He was given a vote of confidence.

BARRETT WARNS HILLMAN PERILS GAINS OF LABOR

Atty. Gen. Barrett last night warned "the rank and file of American labor" that if they do not oppose "Hillman, Browder, and their communistic PAC fellow travelers" they risk the loss of all that organized labor has won in many years of struggle.

Barrett spoke at a reception in Kankakee given by the county Republican committee for him and his campaign tour companions, Lt. Gov. Cross and Auditor Lueder. The attorney general said:

"Hillman, Browder and the communistic PAC are prostituting the labor movement to follow the Red party line. This little group of self seeking, arrogant and unprincipled men have conveniently forgotten that American labor has worked for many years to build its unions to improve working conditions and obtain wages commensurate with the contribution of the working man.

"The course of conduct upon which these men have embarked will inevitably destroy the labor movement. But this does not bother them in the slightest. Their devotion is not to labor and the interests of labor, but to their own radical doctrines and ideologies."

GREEN APPOINTS REALTY MAN TO ADVISORY BODY

Ward Farnsworth of Ward Farnsworth & Co., realtors, yesterday was appointed by Gov. Green head of a nonpartisan group of real estate men to act for the governor as an independent advisory committee on real estate and housing problems which may confront the worker, small business man, and home owner in Cook county during the post-war period.

Green instructed Farnsworth to appoint the best qualified men from all sections of Cook county. The governor said that the Farnsworth committee will be restricted to the industrial and outside the loop communities in the county.

Similar supervision of other parts of the state will be done by the Illinois state housing board, headed by Temple McFayden.

ACCUSES GUFFEY OF 'SMUDGY' PLAN TO SMEAR DEWEY

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 21.—A senate attack today by Sen. Guffey [D., Pa.] on the "good faith" of John Foster Dulles, Gov. Dewey's foreign relations adviser, because Dulles is a lawyer with a Wall st. office, was denounced by Sen. Vandenberg [R., Mich.] as a "smudgy effort to smear" Dewey.

"The senator from Pennsylvania," said Vandenberg, "seems ready to castigate Mr. Dulles simply because he has an office in Wall st. Well, Franklin D. Roosevelt had an office in Wall st. at one time."

Guffey had been telling the senate that Secretary of State Hull had met recently with Dulles, who is regarded as Dewey's choice for Hull's job, to discuss peace plans on a non-partisan basis. He charged the administration had "placed a high trust where it is not deserved."

THE LEGION'S WORK.

The American Legion's 26th annual convention has adjourned after adopting a series of resolutions, almost all of which are distinguished for good sense.

It became the fashion in the years between the wars for bright, young people of the left to denounce and deplore the Legion. It was called narrowly and selfishly nationalistic. It was damned as militaristic. In truth, the great offense of the Legion in the minds of these critics was that it insisted, year in and year out, on adequate military preparation. Its members had suffered from the lack of it and they were determined that if another war came their sons would not be similarly victimized.

We were far from ready for this war when it came, but we should have been in a much worse fix save for the persistent campaigns of the Legion thru the years. It is not the Legion which has had to change its tune. The Legion is still found advocating adequate military preparation and, as usual, it is dotting the i's and crossing the t's to leave no possible doubt in any mind about what is needed.

The members of the Legion have better reason than any others of their generation to dislike war and hope for perpetual peace. These men know about the horror and waste of war not from reading about them but from experiencing them; but these men also know that war cannot be wished out of existence. They knew that in the years before Pearl Harbor and they still know it.

Accordingly, they are insisting again that the youth of this country be trained for the conflict that may come. They want the country to have a navy strong enough to meet any combination of navies that may be brought against us. Another resolution calls for retention of bases overseas that may be needed for the defense of the United States. In recognition of the growing importance of leadership in the air, the Legion calls for international arrangements which will permit Americans to operate commercial air lines everywhere, in free and open competition. The Legion, as always, is unashamed in its determination to make this country strong and keep it strong.

One sentence in the Legion's resolutions can be regarded as the keynote of all the rest: "Our own national interest must ever be our first concern." That has always been the Legion's position. A lot of people who, in the years between the wars, condemned the organization for "narrow nationalism" and "militarism" must, if they are honest, admit that the Legion was right all the time and they were wrong. It is still right.

A resolution of the American Legion auxiliary also deserves mention. The women declared in favor of halting immigration for three years after the war. The left wingers will condemn this proposal as an evidence of indifference to the suffering of peoples abroad, but surely it is not. The period of reconversion and reconstruction in this country after the war is likely to be a troubled one. There will be millions of our own who will have to find new jobs. A certain amount of unrest and dissatisfaction will be inevitable. To those who recognize that "our own national interest must ever be our first concern" there can be no doubt that our first duty is to set our own house in order. A flood of immigration after the war will complicate the problem and could very easily promote hatreds and violence. All of that can be avoided by an immigration policy intended not to injure others but to serve America's best interests.

GREAT MYTHS OF THE WAR.

China as a great power is one of the myths of the war. Russia as a land of free people is another. The British monarchy and empire as a democracy is a third. War must need myths. It creates enough of them.

The Russians are said to like what they have. That privilege is their own. Lack of free political opinion, of free communications and intelligence, and free choice does not make a free people. What we are to gain by false labeling is not apparent. The English think they have the best form of government. It's their government. Except as they come in under false pretenses they have a right to think that a duke should be contemplated and not criticized.

China has more than enough land and more than enough people to be a great power. It is not, however, a great power, and calling it so will not make it one. It is a land of patient people and bad customs. Its soldiers would fight well if they had weapons and leadership. These long years of war have not brought honesty to the privileged class, self-denial to the politicians, or unity to the nation, if it is one. Its allies have talked loudly and long and have done little for it. Possibly they couldn't do any more. Anyway, they haven't.

Naturally, after so long a war, with increasing losses and decreasing resources, China's position grows worse every month. The self-sacrifice of the Chinese, who are fighting against odds, wins admiration. They have resisted to exhaustion. They haven't succeeded in forming an acceptable government and are not given the opportunity to do so if they could. Chiang Kai-shek, whether he wants to be or not, is a war lord and dictator and his rules infringe political freedom in every quarter. The prospect of national unity is darkened, not only by the old traditional differences, but by the communist diversion. The communist elements appear unassimilable.

The conquest of Japan will drive the Japanese out of China. Freedom in that respect seems assured, regardless of the unfortunate turn of war in China itself. Whether and when China could become a great power are future uncertainties. A great power is one which can take what it wants. The definition is not wholly complimentary. China may not be able to take even Hong Kong. The British ally makes the point that when the spot was occupied a hundred years ago it was a desert waste and is now a great city, built by British capital investments.

False labeling prevails when the "four great liberal powers" go into conferences, two at a time or three at a time, to map the future of the world. Russia does not recognize China as being on its side of the fence, for reasons which are not too encouraging for the peace of Asia. Sometimes it must appear that myths are not the best foundation for pretentious arrangements. When national interest appears the myth explodes.

WHAT OUR BILLIONS BUY ABROAD.

Herbert H. Lehman, the former New Deal governor of New York and director of the united nations relief and rehabilitation administration which is meeting in Montreal, has disclosed that America's financial load in this enterprise will be even greater than was expected. The original plan was to set up a fund of 2½ billion dollars, of which the United States would furnish $1,350,000,000. Mr. Lehman reported that plans now call for a $1,800,000,000 fund, with the share of the other 43 contributing nations cut down to half a billion dollars or less. In dispensing relief and rehabilitation, the United States, which furnishes most of the money, is outvoted 43 to 1, with Great Britain alone controling six votes by virtue of its empire status.

UNRRA's start has not been auspicious. It has succeeded in creating a hoard of burocratic jobs at salaries of $8,000 to $15,000 a year, and so far as is known has not yet begun to distribute any relief. The Germans have been driven out of great areas of Europe, and the civilian populations of those sections are being fed, clothed, and cared for not by UNRRA but by Gen. Eisenhower's men.

Americans who recalled our experiences in the years after the last war fully expected that we would be called upon to supply most of the food and clothing to relieve Europe this time. It also appeared inevitable that the direction of the project would be placed in the hands of an international commission. America has no selfish interest in UNRRA, because while some of the administration's funds may be spent here for food and other articles, none of those things is going to be used to relieve Americans. Our interest lies only in seeing that UNRRA's funds, most of which we furnish, go to feeding the starving and clothing the naked in Europe, and not to purchasing political advantage for the people who are administrating them.

The billion and a third dollars America is contributing to UNRRA is a token of our good will toward the cold and hungry people of Europe and an evidence of our desire to establish and to keep peace there. It is not unreasonable to expect that the recipients of this charity and the other 43 nations who are minority shareholders in the project should bear us some good will in return for our generosity.

Instead, the news dispatches from Europe disclose that the "Hate America" campaign is just getting off to a good start there. The London Daily Mail has charged that allied supreme headquarters in Paris is showing favoritism to American business men, allowing them to come into the city to establish contacts and conduct affairs that the Daily Mail predicts will ruin Britain's business.

Everybody remembers how Uncle Sam wound up as "Uncle Shylock" because of our loans to Europe after the World war, made for the same purposes of relief and rehabilitation. President Roosevelt said he was going to change all that and bring about an era of good will by removing "the silly old dollar sign." He took the dollar sign off when he instituted lend-lease, and since then many, many billions of dollars' worth of our food, weapons, clothing, medicines, and other articles have been distributed free all over the world. Great Britain has received the bulk of these things, yet the "Hate America" dispatches which are coming to this country are datelined London. They are a sorry commentary on Mr. Roosevelt's prescience as a statesman and diplomat.

Editorial of the Day

INCOME—REAL AND FALSE.

[Kansas City Star.]

The chief fact to be noted about an unprecedented national income is that it's an inflated war time income made possible by huge expenditures for war purposes and in good part thru the use of borrowed money. The production rate is at a new peak also, but again it is production in large part for purposes of destruction and not for the needs of people in consumption of useful goods.

An economically sound post-war income could be determined only by the volume of production and services for useful purposes rather than the destructive purposes of war. President Roosevelt once referred to prosperity created by spending for war as "fool's gold." He had in mind the military expenditures and preparations for war in the axis nations, devices also used by the axis leaders to pull those nations out of depression and create full employment.

As we move out of the war it will be extremely necessary to keep this distinction in mind. While it will be essential for us to maintain larger peace time preparedness than usual it cannot be expected that this would be any factor in real prosperity. Nor could it be expected that spending for made work, another WPA or anything equivalent to it and other relief agencies, would contribute to real prosperity. That device failed in the years leading up to the war and the failure was covered up only by the war itself.

Real prosperity and genuine national income can be had only to the extent that the great mass of the nation's workers and its industries are kept busy producing the things needed by America and the rest of the world. It is encouragement to that end that is needed and not vote getting promises to start up again the spending of borrowed money. By no sort of hocus-pocus can that be termed national income and an aid to national well-being.

BAD NEWS FOR AIX.

The ancient city of Aachen on the German frontier, reported in ruins, is better known in history as Aix-la-Chapelle, and its description fills almost a page in the Britannica, to which we will refer curious readers of the war news. Unmentioned in this account, however, are the Four Great Relics in the cathedral, which are displayed every seven years.

• • •

These relics, housed in a magnificent shrine, are called the robe of the Virgin, the swaddling clothes of the infant Christ, the cloth in which the body of John the Baptist was buried, and the linen cloth with which the Saviour was girded on the cross. When exhibited, they attract large pilgrimages. The seven-year cycle called for such a festival last July, but it may be assumed that war conditions caused a postponement.

• • •

Aix-la-Chapelle was the place toward which the three horsemen galloped at a killing pace in Robert Browning's poem, "How They Brought the Good News from Ghent to Aix." This news has always been a mystery to casual readers. No doubt the problem was solved by the Browning societies that filled the land with learned ladies in the 1890s, but they have not handed down the information. Browning dated the story as of 16—, which provides a full century for guessers to work over. Our first guess is that the good news dealt with some minor event of the Thirty Years war. Our second is that Browning himself didn't know what it was, but merely wanted to write a poem in galloping meters and Flemish atmosphere.

• • •

O, well, nobody knits his forehead over Browning any more, and it's bad news for Aix now.

THEY ASK US.

We used our lives, tho we had not so planned it,
The youth we hardly knew and the years ahead
That were to be our seasons of fulfilment,
To save the things we loved, and now we are dead.

You who are living still because we are not,
What will you do with the years we did not keep?
Now in your hands lie all the dreams we died for;
What will you make of them, the while we sleep?

Piano Moving as a Science.

An old fashioned upright piano, World War I. period, was being delivered to the family in the third floor apartment across the way. The piano movers, two enormous Swedes and a wizened little Irishman, were profanely discussing their common problem when I joined the throng of curious onlookers.

I learned that the front stairway was too narrow and the third floor windows too small. This left only the back stairway, with precipitous steps and cramped turns.

It was finally determined that the up-ended obstacle course could be surmounted. Then the two men mountains barked out in unison, "Okay, Mike, le's go!" The little Irishman got down on his hands and knees and the piano was lifted to his back. I expected him to be flattened out like a sheet of music. But with the aid of steadying fingers [the sole contribution of the two big fellows] Mike and the piano inched their way up to the third floor.

Then the piano movers came bounding down the steps as tho their accomplishment was all in a day's work. While the little Irishman gathered up block and tackle, dollies, boards, pads, and other equipment, the two hunks of muscle postured for the admiring crowd. With the equipment stored away in the truck, they once more barked out in unison, "Okay, Mike, how about a beer?"

The last I saw of the strange trio the two enormous Swedes were striding masterfully down the street and the little Irishman was following at a dogtrot 10 paces behind. My guess is that Mike bought the beer.

An allowance may be granted to an illegitimate child if the father acknowledges parenthood in writing and under oath. If you believe the soldier would be willing to give such acknowledgment, a statement may be obtained from him thru official channels. I suggest the mother of the child correspond with the office of the provost marshal general, war department, Washington, D. BE ALERT TO THE CARBON MONOXIDE HAZARD.

COLDER weather will soon merge into freezing days and nights. It behooves us to keep in mind the hazard of carbon monoxide poisoning. This noxious element is generated whenever and wherever combustion takes place. When pure, it is colorless and odorless and we may have no warning of its presence. The closed garage, which houses a car with the motor running, is a booby trap. Despite numerous admonitions many lives are lost each year in this manner.

How is this lethal material formed? When carbon burns [from wood, coal, etc.], it combines with oxygen to produce carbon dioxide. If there is too little oxygen, the reaction proceeds only half-way. Carbon monoxide is the result. The same effect is brought about if heat is inadequate. The open fireplace, with an ample chimney and a good draft is innocuous. All of the pernicious gas will either be converted into carbon dioxide, or swept up the flue.

But with inside heaters, where the draft is incomplete or where leaky vents allow coal gas to escape, we may look for trouble. The old fashioned oil stove, which is still used in some communities to heat the bathroom, is a menace. It exhausts the oxygen of the air all too quickly and there comes an interval when monoxide will be thrown off in generous quantities.

Ordinarily, our streets and highways are safe, despite the fact that every automobile discharges about two cubic feet of carbon monoxide per minute. But allow an engine to operate within a sealed space and only a few minutes will be required to pollute the air. The one who breathes such an atmosphere may collapse quickly. Because the senses are dulled there may not be enough time to call for help. Furthermore, the individual may not be able to coördinate sufficiently to escape, once he has become aware of his peril.

Even within the car body, driven on the open road, caution will need to be employed. We must be on the alert always for leaks about the engine, the exhaust pipe, or the muffler. The risk is increased if the auto is standing, with the motor idling. The best rule is not to close every window. Not long ago, in one of our eastern states, tests disclosed that in nearly fifty per cent of the vehicles examined, substantial amounts of carbon monoxide were found inside. In seven per cent, the concentration approached an ominous level.

The relationship of this gas to traffic accidents is of interest. We can understand that a mounting percentage in the blood of the driver will lead to stupor and loss of acuity. Without question, this situation accounts for a fair number of our highway catastrophes.

How does this substance behave when inhaled? At first, there is no sensation whatsoever. The circulation can hold approximately twenty per cent without symptoms. As the volume rises, there is a feeling of flushing, tightness about the forehead, and headache. As the saturation approaches forty per cent, discomfort increases with blurring of vision, muscular weakness, and nausea. A still higher ratio will bring unconsciousness and depressed heart action.

Treatment is fresh air. In emergencies, carbon dioxide mixed with oxygen, and artificial respiration may be relied upon. But it is far easier to prevent the inspiration of this injurious by-product than it is to depend upon heroic methods for resuscitation.

Progress.

"This here progress," said Mr. Tom Smallways, "it keeps on. You'd hardly think it *could* keep on."

This was the opening paragraph of H. G. Wells' "The War in the Air" in 1906. The book was gobbled up by escapists. It was sheer fantasy, incredible, Jules Verne out-Verned. It was the book you could laugh yourself sick over, for the airplane was a new toy, a thing of matchsticks and string, and the book was about airplanes and the world they destroyed.

We managed to get hold of an old copy the other day. We read its 395 pages with popping eyes, for the story was how Germany built up a giant, secret herd of airplanes, ranging from great carriers to drachenfliegen [dragonflies], or dive bombers. With these they set out to attack America and en route swooped down to annihilate the American fleet. Immediately all the major powers brought out their secret planes. The largest aerial fleet was that of Japan. The world was left in ashes and desolation.

But when the book opens, long before the war in the air began, Mr. Tom Smallways and his brother, Bert, were watching three balloons being inflated for southern England's Saturday afternoon ascent. The age of science already was under way. The British channel had been bridged with a series of great Eiffel towers carrying monorails on which cars were sailing 150 feet above the water. If you heard a man say, "It's bound to come," you knew he was talking about flying, but Bert was skeptical. He said: "It keeps on coming, but I'll believe it when I see it." A soldier friend told him all the big powers had secret planes up their sleeves, but Bert didn't believe him. Of course, there was Mr. Alfred Butteridge's invention, a small machine that flew like a pigeon and looked like a wasp, but it was an elaborate secret.

We'll skip a hundred or so pages and tell you that Bert was accidentally catapulted into a dirigible from which Mr. Butteridge had just fallen. Germany had denounced the Monroe Doctrine, and Japan was acting up, but Bert had a fine time soaring above the clouds and was surprised only when he found Butteridge's secret plans in the dirigible. He buckled them into his long underwear. Then he landed in the midst of Germany's giant secret air fleet.

The Germans thought him Butteridge and tossed him into their flagship, the Vaterland, just in time for the flight to America. On the way they attacked the American battle fleet. That is how Bert saw the first fight of the airship and the last fight of the ironclad battleship. The Germans flew on to New York and laid her waste, and America's secret air fleet came out of hiding and attacked the Germans. And that is how Bert happened to be in the first air battle of the world. In it the Vaterland was disabled and landed on Labrador.

After several days the stranded Germans repaired their wireless and tuned in on the world. "All the vorlt is at vor!" an astonished linguist told Bert. The minute the German fleet had started across the Atlantic the fantastic web of credit and finance holding the world together had strained and snapped. Famine raged. The Germans had set fire to London and Paris, and the English and French had set fire to Hamburg and Berlin. The Japs were burning San Francisco and had set up headquarters outside Cleveland. The war was as indecisive as it was destructive, for both sides could demolish civilians and all the apparatus of social life by bombing, but they could not demolish each other.

It doesn't matter about Bert, really. He couldn't understand any of it. Eventually he managed to get back to England and his Edna, but England, as all the world, was a scene of festering desolation. First came famine, then chaos, then the purple death, and soon the age of science was only a faded memory. But 30 years later the war in the air was still going on, people said, and as old Tom Smallways grumbled to Bert's youngest, "You can say what you like. It didn't ought ever to 'ave begun. But people was proud. Give in—not them! And after a bit nobody arst 'em to."

SIDEWALK ROUGHHOUSE

Chicago, Sept. 18.—I have just met the American Legion in front of the Sherman hotel. I work at a war job just out of the loop and my hours are from 4 p. m. to 12:30 a. m. I am in my 40s and neither the solid motherly type, nor a glamorous girl. Every evening after work I walk east on the north side of Randolph st. to Clark st. and board a car for home. Tonight on my way home I saw the crowd in front of the hotel, but at first thought little of it.

When I came to the edge of the crowd and saw that the old business of throwing water on people had been going on, I was going to turn and cross the street, but a tall, bald headed fellow rushed forward and grabbed my arm and pulled me in, exclaiming, "I'll escort you. I'll take you thru. These fellows will throw water on you if you don't have an escort."

There was a narrow lane thru the crowd which closed in after us. A big, fat fellow in brown jumped in front of us and waved his hands, shouting, "Let the lady thru," meanwhile sticking out his elbows and rear so as to make it impossible to pass him. In this manner we proceeded very slowly while some noble ex-hero squirted water on my shoes and stockings, another blew a bellows under my skirt, two more slapped oversized noise makers against my back, and one or two others attempted to flip up the hem of my skirt with sticks or paddles.

About this time, I got hold of the fat man's shoulder and said in a manner more determined than ladylike, "Will you get over so I can pass?" Either my voice or the shove I gave him caused him to stand aside and my self appointed protector and I went thru the rest of that crowd in nothing flat.

Now, I'll admit I'm all burned up, and fun, of course, is fun, but what I and a great many others went thru last night was not fun. It was a series of low, vile, vulgar indignities, which no woman ought to have to stand for at the hands of any American man or group of men. The "boys" of 1918 are middle aged men today, and it is about time they began to act their age.

SHE WANTS A BUTTER PRIORITY.

Chicago, Sept. 16.—I think there ought to be special priorities on butter for war workers. When I had to make my husband's sandwiches today without butter, I couldn't help feeling a little resentful. Any man who stands over a hot furnace or does heavy work for eight hours or more, six days a week and over, and sits down with parched lips to a dry sandwich and a poor cup of coffee, just doesn't have any picnic. I know there's a war going on [the usual gag], but that's all the more reason for giving the man who has to turn out the goods a break.

"THESE ISSUES ARE SETTLED."

Hillsdale, Mich., Sept. 18.—If your editorial of Sept. 17, "These Issues Are Settled," is questioned, then reason has left this country. But why not reduce the issues to the simplest form. Come November you either vote red, or you vote red, white, and blue.

Harold F. Stock.

WHERE DOES HE GET HIS MAILING LIST?

Chicago, Sept. 19.—Not many days ago you published a letter signed by a number of sergeants from a camp on the Pacific coast, wherein they protested the receipt of a letter from Mayor Kelly seeking their support for Mr. Roosevelt's fourth term. Endeavoring to keep my son posted about the political situation, this along with other interesting facts was clipped and sent to him in Iran, where he has been stationed for more than a year. Imagine my surprise when I received his letter dated Sept. 7 reading in part: "I received the clipping which had the letter from the sergeants to the Voice of the People about the letters they received from Mayor Kelly. It so happens, I, too, received one [of those letters from the Mayor]."

Thus you can see that the mayor must have obtained from selective service or some other source a full record of all Chicago service men, their present whereabouts, etc. My son has applied for a ballot and if he is fortunate enough to receive it I shall not have to worry about how he will vote.

R. M. Martin.

READY TO GIVE UP.

Chicago, Sept. 19.—They only give me a tankful of gas a week for my work of servicing and distribution of a type of high priority machinery, basic to all industry. Other engineers in my line of work get up to five or six times that amount. Many of them have many years' less experience than I, and some are even questionably qualified. Nearly all get more gas than I do. My appeal for more gas was denied; they said, "Tell us who the others are and we'll get them cut down." I can't afford taxicabs to cart my equipment around in. Is this a New Deal scheme to get competent men to quit so they can get more of their crackpots into responsible positions? I am very discouraged. I think I will get a job driving a beer truck until this devastating gas famine is over.

Former New Dealer.

WHERE THE RESENTMENT LIES.

Keesler Field, Miss., Sept. 17.—I noticed in this morning's paper where Robert E. Hannegan, Democratic National chairman, said service men would resent Gov. Dewey's speech on demobilization. When service men's votes are counted Mr. Hannegan will find they are very resentful toward Gen. Hershey and the administration for talking of holding them in the army after the war is over. We need a change at Washington, D. C.

TAXES.

Chicago, Sept. 19.—A lot was sold in 1943 on which several payments are still due. Please tell me whether the buyer or seller should pay the 1943 taxes on the property.

H. C.

Ordinarily on a purchase during the year 1943 the 1943 taxes would be pro-rated, the buyer paying for the period before the settlement date and the seller paying for the subsequent period, but it could be agreed either way. If the seller gave an unqualified deed without any agreement as to the taxes, then he would presumably be liable to clear off the existing tax lien.

BARES WARNING TO WHITE HOUSE ON HAWAII PERIL

Church Reads Affidavit Quoting Envoy.

[Continued from first page.]

and real estate man in Washington. His father, the late Maj. Gen. William Graves, commanded American forces in Siberia in 1918-'20.

Graves said that on Dec. 7, 1943, he attended a dinner in Washington, at which the guests included Dixon, then Australian minister to the United States; Sen. Ferguson [R., Mich.] and a Frank C. Hanighen.

Graves' affidavit then continued:

"After the dinner the Australian minister stated to myself and the others mentioned above in substance as follows:

"Shortly after the outbreak of the war, in 1939, I [Dixon] left my judgeship to assume control of coastal shipping in Australian waters. About 72 hours before Pearl Harbor, I received a flash warning from my naval intelligence that a Japanese task force was at sea and Australia should prepare for an attack; 24 hours later this was further confirmed with a later opinion of intelligence that the task force was apparently not aimed at Australian waters and perhaps was directed against some American possessions. Finally, on Dec. 7, 1941, my intelligence stated: 'We are saved, America is in the war, Pearl Harbor has been bombed.'

Ferguson Gets Information.

"The Australian minister was questioned by one of the guests as to whether this information was available to American authority and he stated in substance that it was if requested.

"I certify that the above is a substance of the statement made by Sir Owen Dixon on the aforesaid date."

Dixon, when questioned tonight, denied having had any pre-Pearl Harbor information that any Japanese task force was about to attack any territory of the United States.

Sen. Ferguson told reporters he attended the dinner in question, but that he was not seated in a position to hear Dixon. Ferguson added, however, that Graves since has given him personally the same information contained in the affidavit.

Ferguson told reporters:

"I'm not going to comment at the present time on any of the facts concerning Pearl Harbor. I have from time to time collected what facts I could in relation to Pearl Harbor. I believe the facts should be disclosed and I will disclose them when I think it advisable."

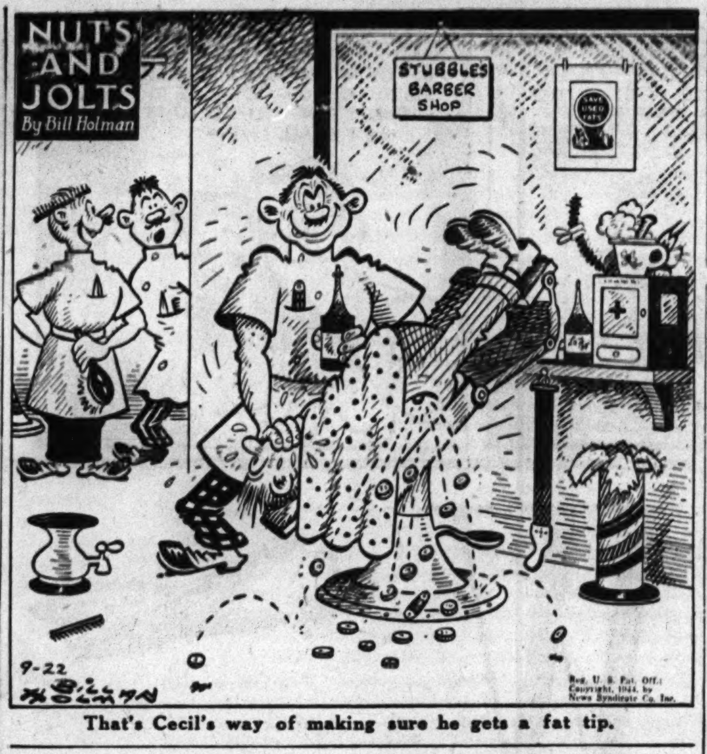
Church identified the naval officer who allegedly took the warnings to the White House as Lt. Comdr. A. D. Kramer. Kramer now is on duty with the navy department here, but could not be reached tonight.

The congressman told the house that these new facts make mandatory a congressional investigation of the Pearl Harbor catastrophe as well as the immediate holding of the long delayed courts-martial of Adm. Husband E. Kimmel and Maj. Gen. Walter C. Short, the Pacific commanders on Dec. 7, 1941. Declaring that both actions have been blocked by the New Deal, Church said:

"Can it be that the administration is afraid of the truth? Is this a democracy, or have we come to the point where the leaders of our government permit the people to know only what the government wants them to know?"

Constitution to Be Put Back on Public Display

Washington, D. C., Sept. 21 (AP).—From their war time hiding place, the Declaration of Independence and the Constitution will be returned to public view in the Library of Congress Oct. 1, it was announced today. The papers have been kept in a secret place since Dec. 26, 1941.



That's Cecil's way of making sure he gets a fat tip.

GERALD SMITH RAPS 2 PARTIES; POLICE ON GUARD

With a large police guard maintaining order, 600 people last night crowded a 12th floor auditorium at 32 W. Randolph st. to hear Gerald L. K. Smith, America First candidate for the Presidency, speak at a rally sponsored by the Constitutional Americans in a belated Constitution day observance. Smith denounced both the Republican and Democratic Presidential candidates and accused them of international alliances, declaring that only his party stood for nationalism and America first. Elizabeth Dilling, one of several now on trial in Washington for sedition, also spoke. A police guard, under Lt. Frank Casey of Central station, attended the meeting after reports were received yesterday afternoon that there would be trouble at the rally.

Woman Critically Burned in Water Heater Blast

Miss Mary Vrazo, 26, of 524 W. 143d st., East Chicago, was critically burned last night when a gas water heater she was lighting exploded in the basement of her home and ignited her clothes and hair. Her landlady, Mrs. Theresa Beres, and Miss Vrazo's sister, Julia, 14, extinguished the flames. The victim was taken to St. Catherine's hospital.

EX-FOLLIES GIRL SENDS MATE TO JAIL 6 MONTHS

Norval C. Douglas [illegible], a cosmetics manufacturer, was sentenced yesterday by Judge John A. Sbarbaro in Superior court to six months in county jail for willful contempt of court on complaint of Mrs. Mary Campbell Robbins Douglas Weiss Douglas, former Follies beauty. For 20 years she has been his pal and sometimes his wife.

Norval C. Douglas.

It was the most severe jail sentence ever imposed in a Cook county court for violation of a restraining order in a divorce case. Mrs. Douglas, who charged Douglas with cruelty and threats on her life in a pending bill for divorce, obtained an injunction Sept. 14 to prevent him from molesting her.

She appeared in court yesterday with Atty. Leonard W. Stearns and charged that Douglas went to her home at 1502 E. Elmwood av., Wilmette, struck her, and damaged valuable rugs by spilling whisky and cigaret ashes on them.

Douglas said he had to return to the home to get some of his belongings. He said he is the owner of the Miracle Products company.

The couple was often in the news two decades ago. Each had been married twice when they first were married to each other in 1924. They were divorced, she was married to Norman Weiss and later divorced him, then she and Douglas were remarried July 9, 1943.

REFUGEE BOARD WORK OUTLINED BY MORGENTHAU

Secretary of the Treasury Morgenthau, speaking as a member of the war refugee board, last night explained to 2,000 persons at the Stevens hotel why that federal agency had been unable to handle the whole refugee job without the aid of such private agencies as the Jewish joint distribution committee. Federal operation, he said, would not be fast enough.

The meeting, under auspices of the Jewish Welfare fund of Chicago, member of the Community and War fund which begins a drive for $12,980,000 on Oct. 2, also was addressed by Joseph C. Hyman, executive vice chairman of the joint distribution committee.

Morgenthau said the war refugee board since its organization eight months ago, had worked in closest coöperation with private agencies.

FALSE TEETH
That Loosen
Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wabbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the *alkaline* [non-acid] powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" [denture breath]. Get FASTEETH at any drug store.

HOLDUP KILLER PLEADS GUILTY; GETS 14 YEARS

Thru an agreement with the state's attorney's office, Richard Knickerbocker, 21, confessed holdup slayer, pleaded guilty yesterday before Judge John Prystalski in Criminal court to a charge of murder, a charge of burglary and three charges of robbery.

Knickerbocker, who has a long record as a delinquent, then was sentenced to 14 years in prison for the murder and terms of 10 to 14 years each on the burglary and robbery charges. The court ruled that all the sentences run concurrently.

Knickerbocker, who was represented by Atty. Thaddeus Toudor, confessed he was one of three men who took part Dec. 23 in the holdup slaying of James Heidenreich, 76, in his son's grocery at 1321 Roosevelt rd. William Pierce, accused of being the trigger man, was acquitted of the slaying in a previous jury trial.

'OKLAHOMA' CAST GETS TIPOFF ON WEDDING PLANS

(Picture on back page.)

Members of the "Oklahoma!" cast were surprised last night to learn that Laurey and one of the singing cow hands were about to be married.

The news leaked out when Miss Betty Jane Watson and Jerry Austin wrote the New York office requesting a few days off in November. Later they admitted the few days off were for a honeymoon and the wedding would take place November 5.

Miss Watson, who was with the New York cast, first as Gertie Cummings and then as Laurey, came to Chicago in May. She lives with her mother at 76 E. Walton st. Her first Chicago appearance was with Griff Williams' band at the Palmer House. Austin is a former Battle Creek, Mich., resident.

TUOHY PLEDGES HIS AIM WILL BE SWIFT JUSTICE

BY GEORGE WRIGHT.

William Joseph Tuohy, the Democratic nominee for state's attorney, told yesterday how he would run the state's attorney's office if elected in November. Tuohy, who has 11 years' experience in the office as a trial lawyer and executive, is campaigning vigorously for the job and expects to succeed his present boss, Thomas J. Courtney, the Democratic nominee for governor.

Tuohy said he will have one aim as prosecutor—to keep on top of the crime problem. Speedy justice and an insistence that his staff be competent to cope with defense lawyers will be his chief aims, he said. He will insist, he said, on the complete and sincere coöperation of all law enforcement officers in the prosecution and prevention of crime.

"Made No Pledges."

"I have made no pledges to any person or organization," he said. "I will use my every energy to stop organized crime and to drive the so-called syndicate out of this community and state."

Tuohy said he realizes that all enforcement agencies expect a postwar crime wave, with resultant work for the prosecutor's office. He said he has given the subject much thought and that he believes he is qualified by experience and training to cope with such a problem if it comes.

"Juvenile delinquency is another problem which will require considerable work and study," continued Tuohy. "I appreciate the magnitude of this problem and I hope to map out a course of action both as to the prosecution of young criminals and for the prevention of such crime as will be in the best interests of society as a whole. Crime prevention is just as important as prosecution."

Was a Soldier.

Tuohy was educated in the grade and high school of St. Mary's Catholic parish in Bloomington. Between working periods he attended Dubuque [Ia.] college, Illinois Wesleyan, and the University of Chicago, where he took his law course. He was admitted to the legal profession in 1922 and practiced law in Bloomington for a few years with the firm of the former Gov. Joseph W. Fifer. He was a private in World War I.

After coming to Chicago in 1925 Tuohy became active in Democratic politics. After leaving the corporation counsel's office he practiced law with the firm headed by P. J. Lucey. He entered the state's attorney's office in 1933.

ALL YOU NEEDED...

This year there has been a shortage of SKOL and SKAT for the civilian market for which we are sorry—especially since the demand has been greater than ever before.

Malaria is the number one medical problem of our Army in tropical and sub-tropical areas. In some campaigns casualties from malaria exceeded those of enemy bullets. The proper use of insect repellents reduces the incidence of this dread disease by preventing the bite of the malaria-carrying mosquito.

The tremendous need of our armed forces for this vital protection has necessarily limited the supply of Skat Insect Repellent for the civilian market.

When, however, the new efficient insect repellent compounds are available to the American public after the war they should be widely used to insure that malaria does not spread.

Painful sunburn is also a severe hazard to the health and well-being of our armed forces in these same tropical areas. Here again the protection of our boys came first. As a result all of the Skol Suntan Lotion needed was not available.

Family Fun

Whenever you hear **Cass Daley** refer to anyone called "Swaggie", you will know she's saying hello to a certain person back home in Philadelphia—her mother.

And when **Ed "Archie" Gardner**, of Duffy's Tavern, takes the name of "Mr. Hegeman" in vain, you can be sure he's poking good natured fun at his father-in-law.

Post-War Buying Guide

There's a great day coming when you'll be able to buy that new radio or radio-phonograph.

And when that great day comes, there'll be many new and wonderful features that you'll want to have. Great developments are coming from the war—better tubes for clearer reception, electronic devices that improve the "listenability" of your loudspeaker and the reproduction of your favorite records, better FM (Frequency Modulation) receivers, and more and better FM broadcasts — to name only a few of the improvements you can expect.

WAR

And a greater radio is coming out of the war . . . Majestic, the radio made by skilled engineers whose prominence in the development of radio and electronics for war marks them as capable builders of the best in radio and electronics for peace. Into your Majestic they will build all you will prize as the peak in listening pleasure.

Jose Iturbi, famous radio and concert pianist, is now a major in the Civil Air Patrol. He used to fly his own plane cross-country to conduct the Rochester Philharmonic Orchestra.

Your Favorites Return

Plenty of good listening for all of us is in the offing as many of radio's great stars begin their fall season.

Duffy's Tavern began Sept. 15 on a new network and at a new time. Also appearing on a new spot is **Kate Smith**, heard Sunday, Sept. 17 in her first program. **Amos and Andy** start Sept. 22. **The Shadow** begins his ninth radio year Sept. 24; **Fibber McGee and Molly** open Wistful Vista Sept. 26; **Eddie Cantor** returns from the Purple Heart circuit Sept. 27.

GOOD NEWS FOR COFFEE DRINKERS

U. S. A. has ample supplies of fine coffee

Hills Bros. Coffee, Inc. states that, according to government figures, there is a larger inventory of coffee in this country than at any time since a few months before the beginning of the war. Present stocks are sufficient to meet national requirements for at least four months, and new shipments of coffee are continuing to arrive in this country almost daily from Central and South America.

Of equal importance to coffee drinkers is the fact that the quality of present coffee supplies is of prewar standards. And, maintenance of coffee freshness has been secured through the adoption of glass jars for vacuum packing.

Throughout this war Hills Bros. Coffee, Inc. has maintained the distinctive quality of its coffee. It is still a blend of the finest coffees obtainable. By means of Hills Bros. exclusive process — "Controlled Roasting"— every pound has the same uniform goodness. This process eliminates all flavor variation because it roasts every berry evenly. In any type of coffee-maker, Hills Bros. Coffee produces delicious flavor in the cup that satisfies the most critical taste.

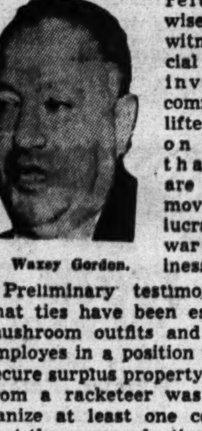
SENATORS LEARN OF SURPLUS WAR GOODS RACKETS

Question Waxey Gordon on Business Deals.

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 21.—With Waxey Gordon, the old line New York gangster, a reluctant but wise cracking witness, the special senate war investigation committee today lifted the curtain on the efforts that racketeers are making to move in on the lucrative surplus war property business.



Waxey Gordon.

Preliminary testimony disclosed that ties have been established by mushroom outfits and government employes in a position to help them secure surplus property; that money from a racketeer was used to organize at least one company, and that the war production board's best advice on where to obtain heavy tires is to dicker with the Tire Mart at Mount Vernon, Ill., where the price is nearly double that ordinarily paid by city governments.

Mayor La Guardia of New York told the committee that racketeers in his city have moved in on the surplus property program with the same gusto with which they organized the black market. He termed them a "disreputable gentry which found supplies available to them thru most unusual sources."

Denounces Waxey Gordon.

"One of these outfits formed to buy up and control surpluses has in the firm a notorious New York gangster recently released from prison for an OPA sugar violation," La Guardia said. "His name is Irving Wexley, alias Waxey Gordon, and he's associated with Frank Costello and the other tinhorn gamblers."

La Guardia said that New York City is unable to buy heavy tires needed for its garbage trucks thru regular business channels.

"Instead, I'm given addresses where I can buy," he said. "Now, when I get an address, instead of checking the company with Dun & Bradstreet's I check with the police department and the FBI."

He said one address given him was the Tire Mart at Mount Vernon, Ill., where heavy tires were available, but he said, the price was $158 apiece instead of the $89 the city has been paying.

"Where did you get that address?" asked Sen. Ferguson [R., Mich.] La Guardia said he got it from the WPB.

Planned Beer Case Business.

Alfred Terry Fahye, who identified himself as president of Consolidated Industries and treasurer of Worldwide Mercantile corporation, both in the same office in New York City, preceded Gordon on the stand and told the committee he didn't know "that Mr. Wexler was Waxey Gordon" until after they became associated in Consolidated Industries, a company for which Fahye foresaw a flourishing post-war business in beer cases. He denied Gordon ever had been associated with his Worldwide enterprise, which deals in surplus goods.

Fahye admitted that in setting up Worldwide last July he borrowed $10,000 from Sam Lazar of Philadelphia and $25,000 from J. Arthur Kennedy of New York. Lazar was identified by the committee as a "well known Philadelphia racketeer, formerly associated with Boo-Boo Hoff."

Kennedy, who wired the committee he could not attend today's session because of the damage done by the recent hurricane to transportation, was revealed to have given Fahye the $25,000 in cash instead of by check.

"Isn't it a fact that you got the money from Waxey Gordon and not from Kennedy, and that is why it was in cash?" demanded Rudolph Halley, committee counsel. Fahye said that was not true.

Names "Inside" Friends.

Fahye, asked to name his "friends in government employe," said he purchased some small boxes for $400 thru Ralph Hallenbeck of the Washington treasury procurement office. They were purchased in Seattle and sold to Sears, Roebuck & Co. for $1,300, he said. He also disclosed he was acquainted with P. T. Connell of the New York treasury office branch.

Connell testified that when he visited the Worldwide office a man there with Fahye remarked that "they had to send a carload of beer" to one place to keep control of the local market.

Halley read into the record a letter written by Miss Betty Sell, for two weeks a stenographer at Worldwide, to her former employer in Washington saying Worldwide reminded her of "Ali Baba and the 40 Thieves."

The sales manager of Worldwide, Fahye said, is C. W. Gessler, formerly with Sears.

Clash Over Address.

Fahye still was trying to explain to the satisfaction of the committee the reason for the $25,000 cash transaction when Sen. Mead [D., N. Y.], chairman of the committee, called Gordon to the stand.

Gordon, with his long experience before questioning bodies, eased his bulk into the chair and immediately clashed with the committee over his home address.

"Do you want my family to suffer?" he demanded. "Think what I'm up against. I'll have police knocking at my door all the time if it gets out."

Gordon, who admonished Sen. Hatch [D., N. M.] that "the name is Wexler, not Gordon, please," also clashed with Hatch over his job with Fahye.

"Just where would you have Waxey Gordon get a job?" he demanded. "Waxey, who can't hold a telephone conversation without the FBI going around to question the fellow he talked with."

Hatch told him there were plenty of honest jobs where he wouldn't have to conceal the names of the men he dealt with.

When Gordon finished his testimony denying that Worldwide was a "front" for his activities, Mead said that the committee was going to make sure that racketeers and chiselers are kept out of the surplus property business.

"I agree with every word you say, senator," replied Gordon.

TIRE MART MANAGER SAYS QUOTED PRICES WERE UNDER CEILING

Mt. Vernon, Ill., Sept. 21 [Special].—Ben Glassman, manager of the Tire Mart referred to by Mayor La Guardia of New York in testimony before the special senate war investigating committee, said today the prices he quoted the New York City purchasing department on 500 heavy duty truck tires were "within OPA ceiling prices."

Glassman said the prices ranged from $141 to $191. He said the city of New York had been accustomed to buying its tires at huge reductions on large lots, but now is forced to pay the full list price because of the shortage.

The prices quoted New York City, Glassman explained, resulted from a phone call Sept. 6 from John Steele of the war production board in Washington, D. C., asking if he could furnish tires. It was followed by a request for price quotations Sept. 15 from W. T. Roessler of the New York City purchasing department, Glassman added.

TAKE RUBBER SOLED, NON-LEATHER SHOES OFF RATIONED LIST

Non-leather shoes with rubber soles will be freed from rationing next Monday, the office of price administration said yesterday. Marion W. Isbell, area director, said, however, that shoes containing leather will remain on the ration list, even if they have rubber soles. The order, Isbell said, will not release any great quantities of shoes now in dealers' hands, but is intended to stimulate production of non-rationed types.

The office of price administration will invalidate B-3 and C-3, as well as T gasoline ration coupons Sept. 30, Marion W. Isbell, area director, said yesterday. Filling station operators will have until Oct. 10 to turn them in for gasoline or to exchange them at local boards for ration checks. Distributors must deposit them by Oct. 20. Motorists with B-3 and C-3 coupons which have an expiration date beyond Sept. 30 may exchange them for valid coupons at local boards, Isbell said.

But he goes daffy in a delicatessen...

On Sunday afternoon, Mrs. Ponsonby asks Mr. Ponsonby to dash over to the delicatessen and pick up a half-pint of cream . . . An hour later, Mr. Ponsonby comes back, bearing eight dollars' worth of anchovy paste, caviar, cottage cheese, dill pickles, pigs' feet, smoked herring, pretzels, other assorted indigestibles—and a half-pint of cream!

Some people go haywire in five-and-tens, hardware stores, millinery shops or cosmetics departments. Mr. Ponsonby is just a soft touch in a delicatessen.

Most human beings are susceptible to the display of merchandise. And assorted stocks accelerate suggestion and sales.

Did you ever stop to think the sheer volume of advertising in a newspaper is another reason why newspaper advertising sells?

The successive stimuli of spring fashions on page after page stirs even the hard-budget housewife, makes shopping irresistible.

Should a half-dozen stores simultaneously advertise coal shovels, the average citizen becomes suddenly aware of how bent, worn, rusty and inefficient is his own furnace feeder.

After a series of new car announcements, the man who just said his old bus was good for a decade, the engine barely broken in... dallies with the idea of getting a demonstration. (In other seasons, the present excepted!)

Newspaper advertising always discovers new needs, wakes up new wants, pushes prospects to the purchase point. Newspaper advertising encourages buying rather than brooding... has a "now" note, a "don't delay" delivery, a clear call to come and get it.

When your merchandise is grouped with other desirable, available merchandise, placed and priced specifically, tuned in on today's demand . . . your advertising accumulates by association more urgency, more oomph!

Good company never hurt a good product! Newspaper advertising speeds it to a sooner sale, earlier enjoyment, quicker consumption. Make newspaper advertising part of your sales program to get the final, decisive sales stimulus that only newspaper advertising affords.

FELON DIRECTS BULLET HUNT IN DRAKE SLAYING

Enlarges Plot to Be Dug by Detectives.

[Chicago Tribune Press Service.]

Bloomington, Ill., Sept. 21.—Walter Brown, life term murderer from Stateville penitentiary, today pointed out to Chicago detectives the plot of ground into which 11 years ago he fired five bullets from a pistol which police believe was used last Jan. 19 to kill Mrs. Adele Born Williams in the Drake hotel in Chicago.

Walter Brown.

Reclamation of the bullets will make possible ballistics tests which will determine whether or not the gun Brown fired in January, 1933, was the one used to murder Mrs. Williams. Brown's gun—identical in caliber and make with the Drake death pistol—was left by the convict, he says, in the home of a friend, Adolph Valanis, now a Chicago policeman.

Tells of Leaving Two Guns.

Valanis denies having received the gun. Police are interested, however, because Valanis' sister, Mrs. Ellen Bennett, a former gun girl, was key clerk at the Drake the night Mrs. Williams was shot by a mysterious woman in black.

Accompanying the convict were two prison guards, Lieutenants H. W. McKnight and E. J. Donnell, and two squads of state police under Capt. Joseph Terrell.

Brown was held in McLean county jail tonight for appearance at a habeas corpus hearing before Circuit Judge W. C. Radliff tomorrow. At that time he will ask a new trial for the murder for which he is in prison.

Enlarges Area to Be Dug.

Brown told Charles M. Wilson of the Chicago crime detection laboratory, in charge of the search for the bullets, that the area to be spaded and sifted should be extended four feet. This extension will make the space to be dug 350 square feet. The detectives are digging to a depth of 12 inches.

The search for the bullets was back-breaking, tedious work. The soil is filled with rusty cans, glass fragments, and decaying animal and vegetable matter, which caused fear of tetanus germs.

Policeman Thomas Ladd, one of four diggers who cut their hands at work, was given anti-tetanus serum. Three others, Policeman Oliver Johnson, John Blyth, and Cornelius Carr, may receive similar treatment tomorrow.

Wilson said he expected to complete the search tomorrow.

Suspend Cop for Figuring in Crash Mile Off His Beat

Policeman Michael McInerney, 50, of the Woodlawn station, was suspended by Commissioner Allman yesterday on the recommendation of Capt. Edward Kelly, who said McInerney was a mile off his beat when his automobile collided with a street car at 69th st. and Calumet av. Mrs. Tessie Fitzsimmons, 1500 E. 67th st., who was driving the policeman's automobile, was unhurt. McInerney, who lives at 7259 Vernon av., was not hurt.

DAY by DAY on the FARM

By BOB BECKER

Sept. 21, 1944

EVERY September is convention time for the grackles, which have been observed on the farm in one flock of thousands of these gregarious birds. One of the men on the farm who saw this flight of grackles said it was the largest he ever had seen.

Where this annual fall convention of these birds was to be held is anybody's guess, but we'll wager they were heading for some corn field, because blackbirds and grackles never overlook a good bet such as a corn field at this season. There's one thing about these dark bronze colored birds you have to admire. They rank high in intelligence. They are good judges of the danger zone surrounding a farmer with a gun.

Believe They Can Sing.

Before the end of August grackles send out the call for their annual get-together. Their flocks may increase to such size that several thousand birds are banded together. If they decide to roost in some town or village, they really are a nuisance because of the noise they make. Evidently grackles believe they can sing, but the result hardly can be called a success in harmony. Get a bunch of these birds together and the noise they make sounds like a few hundred un-oiled, creaky iron gates swinging on rusty hinges.

The number of grackles observed moving over the farm is in one respect typical of the wildlife situation this year all over the middle west. This is a year of abundance in bird and animal life.

Game Animals Increase.

The increase in squirrels and rabbits on the farm is quite noticeable. In the northwest states one of the most striking increases of wild game on farm and ranch is being observed as hundreds of thousands of wild ducks fly into the grain fields to help themselves to the grain crop. These "air borne" attackers of field crops are not welcomed by the farmers.

Not only in Illinois are there many pounds of excellent wild game meat on farms, but in most of the midwest states wild game populations are way above normal.

Most of us enjoy an occasional meal which includes pheasant, duck, or other wild game as the main course, but it's evident that the black bass in one of the farm pools don't share our tastes. The bass seem to be living mainly on insects. One of the farm residents found a small dead bird on the lawn the other day, and tossed it into the pool with the thought that the bass would enjoy a change of diet. The bass didn't touch the new introduction.

The GARDEN by Ben Markland

GARDENERS who have more cabbages than they can consume are reporting that some of the heads are splitting from overmaturity. After a large head splits across the top it should be used as soon as possible, otherwise it will be ruined by insects or birds, or may rot as a result of autumn rainfall entering between the leaves. Split heads, if harvested quickly, can be used on the table or for making sauerkraut, but should not be stored.

There are two ways to help prevent splitting of cabbage heads, altho neither method provides certain protection.

One way is to hold the largest heads beneath the basal leaves and jerk the root upward a fraction of an inch. This disrupts the root hairs sufficiently to stop plant growth. Another way is to cut off the largest of the plant leaves to slow the development of the heads.

ASKS JURY QUIZ TODAY IN PUPIL TRANSFER ROW

BY JOSEPH GREEN.

Atty. Charles Liebman, who failed yesterday to win a temporary injunction against enforcement of the Chicago schools' no-transfer order, declared last night that he will attempt today to get grand jury consideration for possible criminal charges against school administrators.

Liebman, who represents a group of parents, said he would present evidence before Chief Justice Harold G. Ward in Criminal court this morning and seek Judge Ward's permission to put the facts before the grand jury. Liebman refused to amplify his statement, but a few days ago he publicly charged that school administrators might be guilty of malfeasance in office for failing to make free public education easily available to all pupils, as required by state law.

Promises to Call Johnson.

In a riotous session yesterday, Judge John C. Lewe, in Superior court, denied Liebman's plea for an immediate injunction to rescind the no-transfer order and continued the hearing until 10 a. m. Monday, at which time he promised he would require attendance of Supt. William H. Johnson. The superintendent was absent yesterday, despite efforts of sheriff's men to serve on him a subpena to appear. Deputies continued the search unsuccessfully yesterday.

The courtroom was jammed with parents, mostly mothers, and children, hoping to hear Judge Lewe grant an injunction against the transfer ban. The audience booed three times during the brief hearing.

When Atty. Frank Schneberger, representing the board of education, started to leave by the front courtroom entrance after the hearing, a poorly dressed mother attempted to grab him by his coat lapels. He eluded her grasp and fled toward the rear of the room as the spectators began closing in on him.

Atty. Liebman, representing, he said, 10,000 children who are remaining out of classes and 10,000 others adversely affected by the order, asked Judge Lewe to "invoke the general powers of the court to protect infants and their education." He called the transfer ban a horizontal and inflexible order, invoked suddenly as schools opened this fall.

Repeated attempts to get explanations for it from school officials have failed, he said. Supt. Johnson treated him in a "summary, contemptuous" manner when he sought an explanation that might have averted the court action, Liebman added.

When Schneberger mentioned politics in presenting a motion to strike the suit, the audience booed.

"Examination," he said, "will show this is the usual type of complaint filed during election time. It is an attempt to try a case before it is filed by use of the press."

Declares Charges False.

He said his superior, Frank S. Righeimer, board attorney, was in Springfield and could not appear until next week. He pleaded for continuance until then. He declared the suit was based on false charges.

His formal motion denied almost every count in the parents' suit.

Liebman attempted in the courtroom to set a date for a conference with Schneberger, but was interrupted when E. M. Cohen, 1343 Roosevelt rd., stepped forward to ask for a hearing from the judge A bailiff shoved Cohen back an Judge Lewe remarked, "This can be a town meeting. Set him down."

The judge said he would examine the briefs filed by both sides and give attorneys all the time they wished for a hearing Monday.

In the area surrounding 68th st. and Damen av., indignant parents prepared to start their own school in Marlboro Presbyterian church this morning. More than 75 pupils are expected to enroll, said Mrs. Nathan Spence, 6917 S. Damen, who will be one of the teachers and who has two children who will attend. Other mothers will make up the faculty. Courses covering the first to seventh grades are to be offered.

SELF-RULE LOSS THREATENS U. S., CANDIDATE SAYS

Loss of self-rule threatens America if President Roosevelt wins a fourth term to continue secret conferences with leaders of Russia and the British empire, Charles J. Anderson, Republican candidate for congress in the 6th district, said last night. He spoke before the Constitutional Americans at 32 W. Randolph st.

"Today we must decide who are for us and who are against us," Anderson said. "This is not only a right but it is the duty of every American to give thought and render his own decision before election; vote for those who place the principles of America first and retire those who think of America last.

"The wealth of America is being stripped from her. It is being sent all over the face of the earth by the New Dealers so that when the smoke of battle disappears communist governments will be found where the people never wanted Stalin, Roosevelt, or any one else."

ELEVATED SWITCHMAN KILLED.

August Snyder, 27, of 7708 N. Ashland av., an elevated lines switchman, was killed yesterday when he slipped and fell under the wheels of a car he was uncoupling in the Wilson av. yards.

J. E. FERGUSON, FORMER TEXAS GOVERNOR, DIES

Impeached in '17; Aided Wife's Campaigns.

Austin, Tex., Sept. 21 (AP).—Former Gov. James E. Ferguson, 73, died at his home here today. He had been ill eight months, having suffered a stroke in February.

James E. Ferguson.

He was twice elected governor. During his second term he was impeached and removed from office. Later he was defeated as a Presidential nominee of a party he organized.

His wife—"Ma" Ferguson—was elected governor of Texas twice and defeated three times, the last time in 1940.

Appealed to Farmers.

Farmer Jim, as the colorful Democrat was known in Bell county where he was born on Aug. 31, 1871, won the gubernatorial election in 1914 as a comparatively unknown lawyer and banker. Using ridicule on his opponent, Ferguson appealed to tenant farmers and rural laborers and vowed to veto all bills dealing with regulation of the liquor traffic.

He carried out his veto threat and the Anti-Saloon league and the W. C. T. U. were active in filing impeachment charges against him soon after he was reëlected for the 1917-'18 term.

The Texas senate, sitting as a high court of impeachment, found him guilty on Sept. 25, 1917, of misconduct in office, removed him from the governor's chair and barred him from holding public office.

Aided Wife's Campaigns.

Among other things, he was charged with depositing state funds in the Temple State bank, which he organized in 1907.

After failing to win the Democratic gubernatorial nomination in 1918, the Presidential election of the American party in 1920, and the Democratic senatorial nomination in 1922, Ferguson devoted all his energies to his wife's campaigns.

In 1942, Ma was named governor after campaigning for "vindication" of the family name and against the Ku Klux Klan. During her two terms as governor—she was reëlected in 1932 after being defeated in 1926 by Dan Moody and in 1930 by R. S. Sterling — Ma was always frank in stating her reliance on Jim for guidance in office. He did much of the talking for the executive office while she was governor and frequently used "we" in his announcements.

After Ferguson was barred in 1924 by the state Supreme court from holding public office, his wife helped to get the state legislature to pass a bill on March 13, 1925, restoring his civil rights. This amnesty, however, was withdrawn by the subsequent legislature.

BARES HILLMAN SCHEME TO HEAD SOVIET INDUSTRY

Labor Paper Tells of Deal with Lenin.

Dayton, O., Sept. 21 [Special].—A frustrated plan by Sidney Hillman to make himself director of the soviet textile industry is bared by The Labor Union, official organ of the Dayton Central Labor council, in a page one editorial scheduled for publication tomorrow.

Under the heading "When Mr. Hillman Worked with Lenin," the editorial describes three trips made by Hillman to Russia, when he "allowed his enthusiasm to run away with him, the extent of open identification with the party Communists."

In 1921, the newspaper will relate, Hillman went to Moscow. "By strange coincidence, both William Z. Foster and Earl Browder [Communist leaders in the United States] happened to be in Moscow at the same time [and] all conferred with Lenin on a program which needed to be followed to radicalize the American trade union movement."

Sells Lenin Second Idea.

The editorial declares that nothing came of the program, but in a second conference "Hillman succeeded in selling Lenin another idea for helping the then struggling Russian economy. The project was the establishment of a corporation, financed by American trade union contributions, which would send American machinery and technicians to Russia to rehabilitate the Russian textile industry." This plan, it states, would have provided the opening wedge to make Hillman the head of the soviet textile industry.

Hillman, the AFL organ will allege, hurried home and formed the Russian American Industrial corporation, capitalized at 1 million dollars. He conducted a stock selling campaign, principally among members of his own Amalgamated Clothing Workers' union, and succeeded in selling $300,000 worth of securities.

Ships Machinery.

Considerable machinery was bought with the money from the sale of the stock and shipped to Russia. Hillman took the remainder of the money to Moscow and banked it.

But with Lenin dying and Russia in political confusion, Hillman's plans for soviet power were stymied. The union newspaper will add that there is no record showing that the stockholders received back their full investment. "In a desperate effort to salvage something out of the situation, Hillman made a third trip to Russia in 1925. He returned to America in a strange silence. From this point on, a deep mystery envelops the whole enterprise," the editorial says.

Red Sympathy Emerges.

Concluding, the editorial says: "Doubtless this finger-burning which Hillman received in his first overt alliance with soviet Russia chilled his enthusiasm over sovietland for a few years. Later, the elevation of Mr. Roosevelt to the Presidency, and the new career which Roosevelt friendship opened up for him in Washington turned Mr. Hillman's ambitions away from the Russian and toward the American political theater.

"But apparently his soviet sympathies, while slumbering, have never completely dimmed. They have burst into flame again with the emergence of Russia as a military conqueror under Stalin.

Aids Browder Group.

"In his direction of the PAC, Mr. Hillman has returned to his old Communist loyalties by aiding the Browder group to win control of the New York state American Labor party. He has accepted the public support of the reorganized Communist party, in the form of the Communist Political association. He has permitted party-controled CIO factionalists to saturate the official staffs of the PAC offices.

"Such being the present slant of the Hillman mind, it is difficult to escape the conclusion that the victory of the PAC would constitute the greatest single political triumph ever achieved by the Communists in America. It would also be a black day for the future of democratic American organized labor."

COUNCIL GROUP URGES ORDERING BUSES, 'L' CARS

Recommendations that the city council immediately put in orders for 500 gasoline buses and 130 elevated railroad cars, to cost about 11 million dollars, were adopted yesterday by the council committee on local transportation.

Just what would be done with the vehicles, if and when they are acquired, was left undetermined. Philip Harrington, commissioner of subways and superhighways, said the only objective was to make sure that Chicago would have improved service at the earliest possible date after the war.

Ald Quinn [50th], chairman of the committee, said that the order could be canceled or the vehicles could be sold to the present operating companies. Another suggestion was that the city still had a municipal ownership scheme and might get into operation with it by the time priorities on the vehicles could be obtained. Municipal operation can be had only after approval by referendum.

NO VETS TO SELL APPLES, LEGION HEAD PROMISES

The American Legion will see to it that there will be no veterans on the streets selling apples at the close of World War II., Edward N. Scheiberling, newly elected national commander, asserted during a press conference in the Palmer House yesterday.

Moreover, Scheiberling said, if the so-called "G. I. bill of rights" as recently passed by unanimous action of congress and the senate fails to work, the Legion will take necessary steps to "implement the bill at a later date" to insure its smooth functioning.

On the subject of full employment for World War II. veterans, "including youngsters" who never worked before they entered service, Scheiberling said the Legion had no intention "of having men over 50 thrown out of their jobs, either," to make room for returning soldiers and sailors. Returning veterans, Scheiberling predicted, are going to "dominate the political thinking of this country for the next 25 or 30 years," just as veterans of the Civil war ruled the politics of their generation.

Scheiberling reaffirmed the Legion's stand that America should retain strategic bases in the Pacific after the war. The reason we lost the Philippines was because we lacked such Pacific strongholds, he declared.

F. McCORMICK'S DEPOSITION ON ADOPTION TAKEN

Fowler McCormick, Chicago industrialist, appeared yesterday in the office of his attorney, Austin Wyman, 1 N. La Salle st., where he gave a deposition in connection with litigation in Middletown, Conn., involving the adoption of two children by his sister, Mrs. Muriel McCormick Hubbard. McCormick's appeal in Superior court in Middletown from a Probate court decision naming Dr. Frances Clarke of Durham, Conn., as the adopting parent of the children given up last May 12, has been resisted by her attorneys, who asked for the deposition. Mrs. Hubbard turned the children over to Dr. Clarke three days before a scheduled Probate court hearing on McCormick's petition seeink to have his sister declared an unfit person to care for them. Contents of the deposition were not disclosed, but Atty. Wyman said they were merely routine.

God called you and you went away;
She bade no one a last farewell,
She said good-by to none;
Her loving heart had ceased to beat,
Before we knew it, she was gone;
She did not fail to do her best,
Her heart was true and tender,
She worked hard for those she left
And ever will be rememberer.

Several More Names Added to Debut List

BY JUDITH CASS.

THE addition of several names to the debutante list brings news of a number of parties planned for the Christmas holidays. One of the nicest teas then is certain to be that which Mr. and Mrs. Allan M. Clement and their son and daughter-in-law, Mr. and Mrs. Franklin G. Clement, will give Dec. 28 at the Woman's Athletic club to introduce to society the Franklin Clements' elder daughter, Joan.

Miss Clement, who was graduated from Dobbs Ferry in June, had considered waiting another year before bowing to society but changed her mind because so many of her contemporaries are having similar simple parties this year. She has left for Bennett Junior college to continue her studies. Her younger sister, Nancy, is in her last year at Farmington.

The names of two other young women, Miss Helen Burch and Miss Idamae Schulze, who are cousins, are added to the debutante list with the news that they are to share a tea Dec. 27 in the Commonwealth av. apartment of Miss Burch's parents, Mr. and Mrs. Edgar F. Burch. Receiving with Mr. and Mrs. Burch and the debutantes will be Miss Schulze's father, Paul Schulze Jr., and Mrs. Schulze.

Also present will be the debutantes' grandparents, the senior Mr. and Mrs. Schulze. Mr. Schulze celebrated his 80th birthday in June. Miss Burch will leave Oct. 20 to resume her studies at the University of Colorado. Miss Schulze, whose mother is Mrs. Cook Schulze of the Plaza hotel, is a student at Bradford college. She has two brothers at the Shattuck school, Paul III. and Walter Schulze II., named for his uncle who was killed in the last war and in whose memory the senior Mr. Schulze gave a room to the Chicago Art institute in 1924.

Other Debut Parties.

Miss Ann Wilcox, who earlier had decided against a party this season, and her sister, Miss Lee Wilcox, are to share a debut tea with Miss Nancy Brock on one of the choicest of the holiday dates, Saturday, Dec. 23. The party will be given at the Indian Hill club by their parents, Mr. and Mrs. Donald C. Brock and Mr. and Mrs. Byers Wilcox, all of Winnetka. Miss Brock is a sophomore at Vassar, at which Miss Lee Wilcox is a freshman. Miss Ann Wilcox is a sophomore at Smith.

Also scheduled for the 23d at the Indian Hill club is a luncheon which Mr. and Mrs. Theodore Sheldon will give for their daughter, Miss Polly Sheldon, a Vassar student. Miss Helen Rodger, daughter of the John H. Rodgers of Winnetka, is to bow at a luncheon at the Woman's Athletic club Dec. 22, and Miss Katrina Wolcott, daughter of Mrs. Ryland A. Wolcott, will be introduced at a similar party Dec. 27 at the Indian Hill.

Here and There.

The Ernest P. Waud household is in a flurry of excitement in anticipation of its first complete family reunion in several years, occasioned by the sudden arrival from India of Lt. Col. Sydney P. Waud. Mr. Waud went to New York to welcome his son, who arrived Tuesday on a 30 day leave after 2½ years in India, having made the return trip by plane in three days. This week-end Col. Waud and his wife, who has been living in Rumson, N. J., with their three children, will be cele-

Thru the Looking Glass

Not long ago we were amazed to find one of Chicago's cosmetic buyers making a mild spectacle of herself. Completely under the spell of elation, she was almost hysterical because, after all these months and years of certain shortages, she had right in her hand [and with more on the shelves] some castile soap.

Remember castile soap? It was what thousands and thousands of women thought the best in the world for the hair, the face, the bath.

This lathering castile that is newly returned to the beauty marts has that same nice smell, that same undistinguished appearance of the old pre-war product. It has the same charms of blandness, too. And it comes in a wonderful old fashioned slab that weighs somewhere between four and four and a quarter pounds! You cut it up as you need it for bath soap or for the homemade shampoo.

It's in the latter capacity that most women of this generation know castile best. It makes a superb shampoo, but must first be reduced to a liquid or a jelly. This is done by shaving a bit of it in thin slivers, popping them into a small amount of water, and simmering gently until the soap is dissolved.

But don't overlook this as a bath aid. Because of its blandness, it is perfect for this climate and for the kind of water he have. Men love it, too, because it lathers luxuriously and isn't heavy with perfume.

Women in War Work

—By Dorothy Johnson—

Fifty women and men not now engaged in essential work are needed immediately for a new type of war job at the Chicago army signal depot, 1903 Pershing rd. Because tropical fungi impair the operation of radar-radio equipment used in the Pacific theaters, the depot will set up a laboratory, as soon as staffing is completed, to coat radionic devices with fungusite to protect them.

The job is not one requiring exceptional skill, and laboratory officials will train workers on the job. Women with previous assembly line experience, or who have had instruction as radio technicians, are especially eligible for these civil service positions, which bring compensation commensurate with skill.

Only persons not now in essential work will be considered. Capt. Walter Viergever, director of personnel at the depot, is available between 8 a. m. and 4:30 p. m. daily to interview applicants.

When Priscilla Pratt, 546 Swain st., Elmhurst, left Chicago yesterday with a new contingent of SPAR recruits entering boot training in Palm Beach, Fla., she became the fourth member of her immediate family in service and the only representative of the family circle in the Coast Guard. Her three brothers are in the army, navy, and marine corps. One is a prisoner of war. SPAR Pratt was graduated from Wheaton High school.

Headquarters of the Coast Guard said yesterday that the group which left for Palm Beach represented a higher than average educational level. Twenty-three per cent of the new SPARS are college graduates, and 47 per cent have had at least two years of advanced technical training in colleges and universities.

Many of the group will follow boot training with instruction in specialists' schools in aviation, communications, medicine, commissary work, and accounting, which will prepare them for assignments at shore stations in order to release men for sea duty.

Anabel Marcussen, 7939 Eberhart av., another in the contingent which left yesterday, was valedictorian of her Calumet High school class in 1937. She has two brothers in the army air corps and one in the navy. Two-thirds of the group are following husbands and brothers into uniform.

[This department reports on women's war activities and answers questions regarding such activities.]

Regarding your beauty appointments—

It still takes time to properly style hair. And not even your favorite hair dresser can do you justice if he has to rush you out so he can get to work rushing through his or her next appointment.

Exceptional beauty is often only the result of extra time and extra care. Our fine hair stylists never rush. Our entire staff has been trained to take plenty of time to please you. Our clientele seems to appreciate this very personal consideration even though it necessarily costs a little more.

Museum Exhibit Depicts Life in Midwest Lakes

A scene such as a diver might see at the bottom of the small lakes of northern Illinois or southern Michigan is on view at the Chicago Natural History [Field] museum beginning today.

Bass, pickerel, perch, and other fish seem to be swimming naturally among the reeds. A submerged log adds realism to the scene. There is a pebble nest such as the black bass favors, with a male bass guarding it from harm. The whole is seen thru a golden green haze which duplicates the conditions under which a diver would see it.

Museum authorities explain that the exhibit is an attempt to show life as it is actually lived at the bottom of these small lakes. The fish are shown doing what they are known to do, so the display has scientific as well as pictorial interest.

It is the result of expeditions sponsored by the museum to Fox lake, Ill., and Magician and La Grange lakes, Mich. The scene finally reproduced for this exhibit is based principally on Lake La Grange, as conditions there were most favorable for the scientists, artists, and technicians working on the project.

The exhibit was conceived by Loren P. Woods, assistant curator of fishes, now on military leave. Staff Taxidermist Leon L. Pray was largely responsible for the preparation of the display, for it was his duty to reproduce the various types of fish depresented.

Staff Artist Arthur G. Rueckert worked out the concealed lighting, special glass techniques, and the other devices which give the exhibit much of its trueness to life.

Supper Tonight to Open Theta Sigma Phi Season

Theta Sigma Phi, honorary professional sorority for women in journalism, will open the current season with a picnic supper tonight at the home of Mrs. Elmo Scott Watson, 824 Prospect av., Winnetka. Plans will be outlined for the coming year, and Mrs. Milford S. Zimmerman of Evanston will report on activities of midwest writers' groups which participate in the annual writers' conference held at Northwestern university.

Miss Ortlund Will Become Bride Tonight

BY HARRIETT PRIBBLE.

Maj. Roy L. Peck of Cleveland, O., has flown here to give his niece, Miss Barbara Ortlund, in marriage when she and Charles E. Compton are married at 8:30 o'clock tonight in the First Presbyterian church. Later the bride's mother, Mrs. Arthur Gilbert Ortlund of Kenwood av., will give a reception in the South Shore Country club.

The bride will have her new sister-in-law, Mrs. Gail W. Compton, as matron of honor, and Miss Genevra Lorish, Miss Rosemary Peacock, Miss Betsy Wallace, and Miss Helen Wieselberg of Boston, Mass., as bridesmaids. Lt. John Mahony of the army air forces will be best man for Mr. Compton, who is a son of Don M. Compton of South Shore dr. Ushering will be the bridegroom's brothers, Gail and Richard; Elwyn B. Manly, and Harry Rush. After a wedding trip to Colorado Springs, Colo., Mr. Compton and his bride will live on the south side.

In a traditional Russian orthodox ceremony in SS. Peter and Paul church, Miss Anna Semkoff, whose father, the Very Rev. Peter N. Semkoff, is pastor of the church, and Lt. [j. g.] Andrew H. Fash of the navy dental corps will be married at 5 p. m. tomorrow. Bishop Leonty will officiate at the ceremony, assisted by eight or ten clergy of the diocese wearing their colorful robes. Later Father and Mrs. Semkoff will give a reception in the church hall.

The bride, who will wear her mother's crown of orange blossoms, will be attended by her sister-in-law, Mrs. Nicholas P. Semkoff. Father Semkoff's cousin, Lt. John Prusky of the navy, will serve as best man. Immediately after the wedding Lt. Fash and his bride will leave for San Diego, Cal., where he is stationed. He is the son of Mr. and Mrs. Frank Fash of Valier, Ill., and was graduated from Loyola university.

Of Chicago interest, as well as international, is the marriage of Countess Guy de Baillet-Latour to Capt. Maximilian Edward Gevers, which took place at 5 p. m. Wednesday in the Washington, D. C., home of the bride's parents, Mr. and Mrs. James Clement Dunn. Attending the bride, the former Marianna Armour Dunn, was her sister, Mrs. Alexander Lynde Cochrane, as matron of honor, and her two young daughters, Ann and Elisalex, whose father, the late Count Guy de Baillet-Latour, was killed in a plane accident in 1941.

Capt. Gevers, who serves with the United States army, is the son of the late Baron Willem Gevers, former Netherlands minister to Washington, and of the Dowager Baroness Gevers of New York City. He and his bride will live in Washington. Mrs. Dunn, the former Mary Armour of Chicago, is the sister of Laurance H. Armour and A. Watson Armour.

The marriage of Miss Shirley Jane Gillick, daughter of Mrs. James S. Gillick of Lake Shore dr., to Petty Officer Joseph A. Maginot of the navy will take place at 11 a. m. tomorrow in St. Jerome's church, with a wedding breakfast following in the Lake Shore club. The bride will be given in marriage by her grandfather, James T. Gillick.

Miss Gillick will have her sister, Pat, as maid of honor, and Mrs. William Burkhardt as matron of honor. Another sister, Betty, and Mr. Maginot's sister, Patricia, will share the duties of bridesmaid. James Maginot will be his brother's best man. Mr. Maginot, a son of Mr. and Mrs. Joseph Maginot of Farwell av., just returned from 18 months' active duty in the South Pacific. After a short wedding trip he will take his bride to his new post in Bethesda, Md.

Mr. and Mrs. Raymond G. DeSwarte of Yates av. announce the marriage Sept. 1 of their daughter, Dorothy, to Herick Donald Johnson, son of Mr. and Mrs. Herrick Johnson of Chenoa, Ill. The ceremony in the South Shore Community church was followed by a buffet supper in the home of the bride's parents. Mr. Johnson, who received a medical discharge from the army, and his wife are living on the south side.

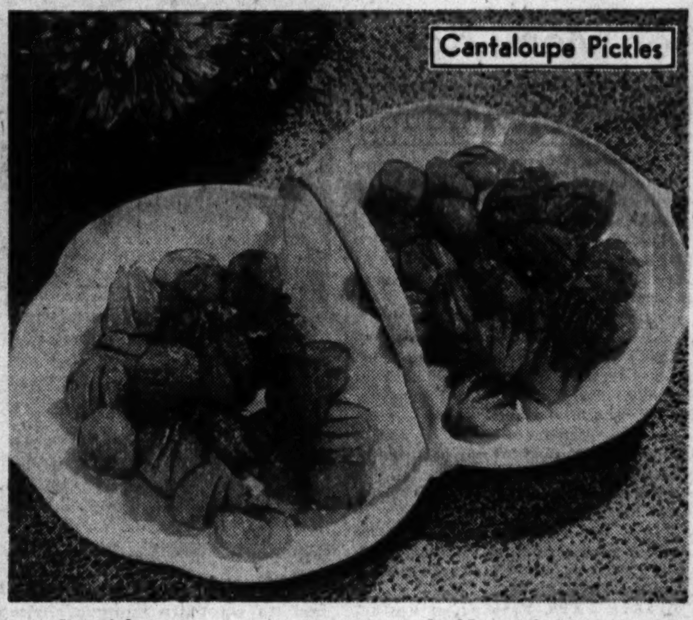
Today's $5 Prize Winning Recipe

(Other recipes, menus, and food news are on page 24.)



2 cantaloupes
2 tablespoons salt
1½ cups vinegar
½ cup water
3 cups sugar
2 sticks cinnamon, broken
1 teaspoon whole cloves

Peel cantaloupe and cut in small pieces. Cover with cold water to which 2 tablespoons of salt has been added. Let stand overnight. Drain. Combine vinegar, water, and sugar and bring to boil. Simmer 5 minutes and add cantaloupe and spices tied in a bag. Cook until cantaloupe is clear, about 20 minutes, and pack into hot sterilized jars and seal. This should be enough sirup for two melons but the amount may be increased, if necessary, using the same proportions.

Friday Night Opera.

Gladys Swarthout.

The Chicago Opera company has chosen these operas for its Friday night board of education series at special prices, all to be staged at the Civic Opera house: Oct. 20, Puccini's "La Boheme," with Marjory Hess, Christina Carroll, Nino Martini, Richard Bonelli, Virgilio Lazzari; Oct. 27, Verdi's "Il Trovatore," with Zinka Milanov, Kerstin Thorborg, Kurt Baum, Richard Bonelli, Virgilio Lazzari; Nov. 3, Bizet's "Carmen," with Gladys Swarthout, Christina Carroll, Kurt Baum, Alexander Sved; Nov. 10, Gounod's "Faust," with Vivian Della Chiesa, Kurt Baum, Ezio Pinza, Francesco Valentino; Nov. 17, Verdi's "Rigoletto," with Josephine Antoine, Jan Peerce, Leonard Warren.

The prices are not as special as they used to be—$1.20 to $4.50, including tax, compared to 50 cents to $2.50, plus tax, in 1942—but the casts are on a level with those listed for the regular performances, tilted to a $6 top this season from the $4.40 of two years ago. Tickets in the lower price groups are being held for Chicago high school students until Oct. 9 and are available on school order only. For further information about these tickets telephone the music bureau, Dearborn 7801, Extension 255, or the Chicago Opera at Randolph 9229. Tickets at higher prices are available at the opera box office, now in Room 460, Civic Opera house.

Balletomania.

Keeping track of ballet dancers is a complicated business now that temperament is fanned by three competing troupes and the desire of Broadway producers to tuck a pirouette into every show. The Ballet Russe is flourishing in New York in advance of our own engagement, and Frederic Franklin missed a few shows with an injured knee. Lichine and Riabouchinska will dance "Graduation Ball" to open Ballet Theater's Broadway engagement starting Oct. 8 [in between "Swan Lake" and "Pillar of Fire"] and Ballet International opens its career Oct. 20 at the International theater, formerly the Park, on Columbus Circle. Massine's name is now missing from its roster of 16 ballets, 9 of them world premières. Nijinska will do "Mad Tristan" with Dali—Massine planned it long ago with Dali and Harpo Marx—and Dali also will work with Eglevsky and Paul Bowles on "Evocation." After six weeks in New York the company will make a "western" tour. You can't tell, they might mean us.

Notes.

"The Voice of the Turtle," now in Detroit despite my post-vacation confusion on dates, has been called so far, "The Call of the Turtle," "The Croak of the Turtle," "The Mock of the Turtle," and "The Song of the Turtle." Croak is probably the one Alfred de Liagre, the producer, likes best just now. He has until Dec. 16 to replace Margaret Sullavan in the New York troupe. He is pursuing Olivia de Havilland and Jean Arthur as possible substitutes. . . . Mike Todd is pleased with the material discovered at yesterday's Blackstone tryouts, where more than 300 persons appeared to audition for his musical shows. Auditions continue today for chorus and show girls from 1 to 3 p. m., for principals from 3 to 5 p. m.

Big Universities Look to Their Post-War Role

[This is the third of a series of articles on what war has done to colleges and universities. Will they be prepared to meet the expected post-war rush of veterans to the campus?]

BY THE REV. JOHN EVANS.

Besides filling necessary quotas of specially trained men and women for various branches of military service, the great universities of the country are giving prime attention to plans for meeting education or training needs of returning war veterans, as well as keeping present civilian educational facilities intact.

Those institutions which are members of the Association of American Universities report excellent financial condition to meet forthcoming teaching loads, which will be relatively heavier than mere enrollment statistics may show, because of increased individual attention required by each returning veteran.

Leading the entire list in increased assets since 1941 is Northwestern university, with its Walter P. Murphy and other bequests and gifts which bring the total net worth in buildings, equipment, and endowment to 80 million dollars, with more than 7 millions spent for new buildings and equipment in the three year period. Endowments leaped from nearly 29 millions to nearly 31 millions. This puts Northwestern high in the dozen top flight universities of America.

The University of Chicago did not report additions to its 70 million dollar endowment of 1941 but said its budget this fiscal year stands at 31 millions, as against a peace time peak of 14 millions. Yale university's endowment presses the 114 million dollar mark, as against 101 millions reported in 1941. The new figure is about the cost of a modern battleship.

The University of Chicago has substituted aptitude and placement tests for high school credits as requirements for entering students. This week saw the second of such tests applied. President Robert Maynard Hutchins said the change, announced early this year, "is another step in the university's program to abolish educational bookkeeping." Three days are required to complete the tests for each applicant.

The University of Illinois reports a present value of physical equipment at more than 43 million dollars, and the universities of Minnesota, Michigan, and others point to extensive building to meet government war time needs for army and navy personnel training and for a number of confidential war enterprises.

The University of Illinois was first to announce its war veterans' program to this writer. Consideration of the plan began even before the war actually started, and it is possible that its early announced completion may have had effect in establishing the fact that 1,000 honorably discharged veterans now are resident students at the university. This compares with tens or scores at other universities, or with 175 such students at the University of Minnesota.

Considerable controversial education experimentation is taking place on the campuses of greater universities, particularly at the University of Chicago. In a broad sense, much of this experimentation centers on what some call "general education," which also is often called "liberal education." One question deals with the preparation of teachers for colleges where a liberal or general

Roommates.

A woman who has shared an apartment with another business woman for more than 20 years, adds some of their precepts to the rules for roommates:

"We never go into each other's purses, but have a household purse. If I asked my roommate to get something out of my handbag she would bring it to me to open. Similarly, one never disturbs personal papers or opens drawers or cabinets in which the other's belongings are kept.

"Each has her own personal articles. I could move out tomorrow fully equipped with my own things, and so could she.

"One never accepts an invitation for the other. If some one telephoned to ask us to the country for the week-end, she might say, "Yes, I'd like to come and I'll ask Ellen."

"We maintain a friendship basis when we go to the movies or the theater. Sometimes one invites the other as a guest and sometimes we share Dutch treat.

"Each respects the other's opinions, tho, if we have a disagreement we don't carry it over to the following day.

"We try to keep—and I think have succeeded in keeping—a certain reserve that is a matter of good breeding more than anything else."

An egg a day need not show its face always as a breakfast egg. The daily inclusion of this important food, so helpful in supplying necessary amounts of vitamins, minerals, and protein, may be offered in many other pleasant ways—as a luncheon omelet or other noonday main dish, as a dinner vegetable souffle, or as a custard sauce or pie for the sweet touch in either meal.

Now that bean sprouts are again stocked on grocery shelves, chop suey and other Chinese dishes may be made once more pre-war style. Here's a meatless egg foo young that's easily prepared for luncheon.

Egg Foo Young.
[Five to six cakes.]

6 eggs, beaten slightly
1 jar bean sprouts [about 2 cups]
2½ tablespoons chopped green pepper
⅓ cup finely chopped onions
1 teaspoon salt
⅛ teaspoon pepper

Add salt and pepper to eggs and beat well. Add bean sprouts, well drained, and remaining ingredients. Add more seasonings if desired. Melt fat in a skillet [about 1 tablespoon for each cake]. When hot, pour out vegetable batter, about ⅓ cup for each cake. Level vegetables evenly over entire surface. Brown on one side, then turn and brown other side. Serve with soy sauce.

An omelet with "never fall" tendencies is this one which includes bread crumbs.

Bread Crumb Omelet.

4 eggs, separated
½ teaspoon salt
⅛ teaspoon pepper
⅓ cup milk
½ cup soft bread crumbs, firmly packed
1 tablespoon margarine

Add pepper to egg yolks and beat slightly with fork. Add crumbs and milk. Add salt to whites and beat until stiff but not dry. Fold crumbs and yolk mixture into whites. Heat fat until fairly hot in a deep skillet, pour in omelet mixture, and smooth surface gently. Place cover on skillet and cook over quite low heat for 20 to 25 minutes until surface is dry and an inserted knife comes out clean. Fold and serve with hot tomato, mushroom, or vegetable sauce.

Spinach Custard Squares.

3 eggs, slightly beaten
3 tablespoons fat
3 tablespoons flour
1 cup milk or vegetable stock
1 cup chopped cooked spinach
½ teaspoon salt
¼ teaspoon pepper
1 tablespoon minced onion
1 teaspoon lemon rind

Make a white sauce of fat, flour, and liquid. Add remaining ingredients to beaten eggs. Pour hot sauce into egg mixture slowly, stirring constantly. Taste and add extra salt and pepper if desired. Pour into a well greased baking pan [5 to 6 cup size about 2 inches deep]. Set in pan of hot water and bake in a moderate oven [350 degrees] 45 to 50 minutes or until inserted knife comes out clean.

This pecan pie is an elegant dessert with a moist and somewhat chewy filling.

Southern Pecan Pie.

1 cup light or dark corn sirup
1 teaspoon vanilla
3 eggs, beaten
½ cup sugar
2 tablespoons butter, melted
¼ teaspoon salt
1 cup chopped pecans

Combine all ingredients and pour into 9 inch unbaked pie shell. Bake at 425 degrees for 10 minutes, then lower heat to 350 degrees and bake for 45 to 50 minutes longer or until filling is firm.

TURN IN WASTE FATS FOR POINTS AND PENNIES.

Canned Foods Should Be Used Within Year

It's a good idea to use canned foods within a year. They do not necessarily spoil if kept longer but may be inferior in quality—losing color and flavor and changing in texture. Bulgy cans are to be suspected, as the contents often are spoiled.

Zippy Sauce for Shrimp Cocktail

Homemade chili sauce now being made in such quantities will find its way into many a shrimp cocktail as the basis of a zippy sauce. For 1 pound of shrimp, which makes four generous cocktails, use ½ cup chili sauce, 2 tablespoons horseradish, and 2 tablespoons lemon juice. Bright green spinach leaves make an attractive bed for shrimp and lime wedges give an extra color note and additional tang.

Mary Meade's Booklet Helps Fruit Canners

If canned fruits are as prohibitively high in points in the months to come as they promise to be, a shelf full of home canned fruit will be welcome. Peach supplies are waning, so get them into canning kettles promptly. Pears also should be canned now while prices are at their lowest levels. Apples likewise are ready and waiting for their turn in the canning session.

Do your canning scientifically! Mary Meade's "War Time Canning Guide" gives hot water bath canning directions for pears, peaches, and other seasonal fruits. Also included are instructions for canning vegetables, meats, and poultry [pressure cooker method only]. For reliable advice on canning order this booklet by sending 7 cents in stamps to Mary Meade, CHICAGO TRIBUNE. Or pick up a copy at a Tribune Public Service office, 1 S. Survey of Markets Reveals Week-End Food Price Outlook

A survey of food markets in Chicago reveals the following price situation for the coming week-end:

Low Priced.

Fish—Yellow perch, carp, sheepshead.
Fruits—None.
Vegetables—Cabbage, celery, egg-plant, green peppers, rutabagas, squash.

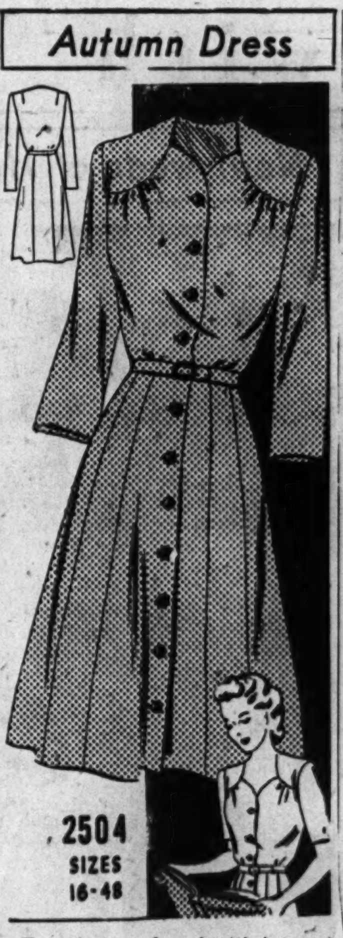
Moderately Priced.

Fish—Yellow pike, halibut, rosefish fillets.
Fruits—Apples, grapes, lemons, peaches, plums, prunes. Moderate to high: Cantaloupe, pears.
Vegetables—Green beans, bunch beets, cauliflower, carrots, green corn, cucumbers, green onions, dry onions, radishes, sweet potatoes, white potatoes, tomatoes.

High Priced.

Fish—Lake trout, whitefish, shrimp.
Fruits—Honeydew melons, oranges.
Vegetables—Broccoli, celery cabbage, lettuce, green peas.

Autumn Dress



Front-buttoned, and with interesting shoulder detail, this dress is lovely in either crepe or woolen. Deft plaiting assures skirt gracefulness. Style No. 2504 is designed for sizes 16 to 48. Size 36 requires 3½ yards of 39 inch material.

Order Clotilde patterns from Chicago Tribune, P. O. Box 537, Grand Central Annex, NEW YORK CITY. Print name and address; state size. Each pattern is 10 cents, plus 2 cents for mailing.

Canning Advice.

In using coffee jars for canning, do not attempt to use rubber rings with the metal caps. Purchase metal disks made with self-sealing composition. Ask for 63 millimeter lids.

Today's Guide Lecture.

CALCIUM
—and your child's future

THE MINIMUM governmental daily requirement of calcium is ¾ gram, but scientists recognize that for strong, straight bones and sound teeth, children need EXTRA calcium...*more* than this minimum.

BABIES are born calcium-poor. Their bones are soft and pliable and need calcium to strengthen them. MILK is our best food source of calcium. Doctors urge a quart of milk a day until children are grown.

UNFORTUNATELY many children refuse to drink enough milk. And then they are quite likely to get even LESS than the minimum calcium requirement!

HERE'S what to do about it! Give them Cocomalt with their meals every day. Cocomalt* is so rich in calcium it makes three glasses of milk equal *a whole quart* in calcium value...gives them that important "extra" (also gives them extra iron, phosphorus, and Vitamin B_1 and their day's need of Vitamin D!) And Cocomalt's delicious, chocolatey flavor makes children *love* their milk!

SO DON'T GUESS about a matter so vital to your child's health. Be *sure* he gets plenty of calcium. Get Cocomalt today!

**2 heaping teaspoons to an 8-oz. glass of milk*

Wise Parents Do Not Make Over Children

BY GLADYS HUNTINGTON BEVANS.

[Copyright: 1944: By News Syndicate Co., Inc.]

We were talking about people, and the need of them that different men and women have. And my friend was comparing herself and her husband.

"John and I are different in that respect," she said. "He craves people, but I could go for days without visitors or visiting in the evenings. Quiet and a book, or music and a fire are my idea of contentment."

◆

Educators and psychologists dwell more and more these days upon social adjustment. Of course, we must all learn to live with others, enjoy them, and get on with them. But "social adjustment" doesn't mean the same thing for all.

There are Molly and Shirley, for example—two girls as different as this husband and wife. Molly is forever on the go—doing everything, going everywhere—always with people.

Shirley is not at all like her. She likes other girls, but she doesn't seek them all the time. If she wants to do something and no one else wants to do it with her, she'll do it alone rather than trail along with the rest and do what they're doing just for the sake of being with them.

Her mother worries about it. Not having made the most of her own social opportunities, she wishes Shirley would. An experienced teacher reassured her, "As long as Shirley fits in as well as she does with children, I shouldn't worry. She's just not like Molly and that's all there is to it. Besides, she has two absorbing interests. You'll have to take her as she is. And if you keep wishing she were like some one else, you're going to get into trouble, I'm afraid."

◆

This is good advice. But the parents who are not wise are those who cling to an ideal or pattern, and are disappointed because their children do not fit it—like the conventional mother who bemoans her daring and unconventional child; or the aristocratic, aloof parent who almost disowns the daughter who has what she calls "plebeian" tastes; or the intellectual father who is snobbish about his son's talent for all things manual. These parents are digging a chasm between themselves and their children.

Try to accept and really understand your child who is different from you or from your ambition for him, and help him to develop along his own lines.

NewCorduroys in Rich Shades Right for Fall

BY REA SEEGER.

Cotton corduroy in rich fall shades is living a double life, in town and country. Smart, simple two piece suits sufficiently smooth to survive a day in town and simple enough to blend gently with country life come in lusty autumn golds, yellows, crimsons, and that fascinating new charmer, gray. The jackets are casual in silhouette and collarless to show the top of dark contrasting wool blouses, shirts, or sweaters.

And while these two piecers are extremely simple they are softened appreciably with bias cut bands around the wrists of the long sleeves and along the front edges of the front sections and around the vee neckline. Skirts are still slim and straight, with kick pleats in front or back or both.

◆

The corduroy is distinctive, not only because of the jubilant bright colors, but for the very fine, thin rib texture. It's a cotton corduroy that assures lots of day after day wear and service of the best sort. It's a soft, flexible fabric, easily detailed and tailored, and looks much softer than the wide wale corduroy and the corduroy of past years that was thick and unwieldy.

Slacks and the clam digger shorts come in the same showing and the same colors, so the fun of matching and mixing a jacket with either skirt or slacks goes on merrily.

Opening lead: King of spades.

The last thought that would have occurred to East as he picked up those dregs of the pack, was that he was about to become the hero of the deal.

South opened with one spade and West doubled. North committed an atrocity in the way of a two club bid. "I bid over the double to show weakness," he pointed out. That sort of thing is prevalent in certain corners of the bridge world, and is little short of absurd. Why any one would wish to enter the bidding with a hand such as North held, is difficult to understand. A bid over a double is not made to show weakness. It does, however, indicate an absence of great strength, which is quite another matter. Where the partner of the opening bidder has a good hand, he goes thru the formality of redoubling first and bidding later. If he has something he wishes to talk about, and fears that he may not get a convenient chance later, he ought to bid immediately, but surely this should not be interpreted as showing weakness.

East was delighted that he had been relieved of the obligation to bid. South passed, which he is permitted to do in this case, since North's failure to redouble, shows that he has not a very strong hand. West doubled again. This is still a take-out double, since partner has not yet been heard from. North passed and East was up against it. His only four card suit had been adversely bid, so that he was obliged to respond in one of his three card suits, there was nothing else to do. A response to a double is not really a bid, it is rather an answer to the question put by partner, "Outside of the one that they have bid, what is your best suit?" East therefore bid two hearts which West carried to game.

South cashed the king and queen of spades and shifted to a club. The problem was to avoid the loss of two diamond tricks which could be done only if South held the ace and the suit could be led twice from declarer's hand. One entry was available in the queen of hearts and the other possibility was the nine. The ace of hearts was played with the remote hope that the 10 would drop. When it failed to show up East considered that his best chance was to play North for the 10. He therefore led a low trump and finessed the nine. When it held he led a diamond to the queen. He then returned to his own hand with the queen of trumps and led another diamond. This rendered the defense helpless.

INSTALMENT V.

FREQUENT VISITOR.

Garth gave an inward groan. What had the old dear been up to, and what had she let herself in for?

Miss Sophy patted his arm.

"Dear boy, you looked so like your grandfather then. And I don't suppose he would have approved, but it has all turned out so well. The very first time I met Miss Perry she was telling all our fortunes with coffee grounds, and she said I had just had a great break in my life. Not that there was anything surprising about that, because Mrs. Holdford knew all about Mrs. Johnson having to leave me, and I daresay she had mentioned it."

"I daresay she had. Well, what happened next?"

"She told me I was going to meet some one who would make the greatest difference in my life, and within 24 hours I had met Miss Brown."

"How did you meet her?"

"I think Miss Perry introduced us," said Miss Fell. "And O, my dear boy, you can't think what a difference she has made! She is so efficient—such a wonderful manager. And so musical. You know how devoted I am to music. She plays the church organ for us, and she is a very fine pianist. She sings delightfully, too."

"You don't find her gloomy?"

"O, no. O, I know what you mean, but we have all had a very severe shock. You may have seen something about it in the papers. Mr. Harsch—such a nice man, and very musical, too—was found dead in the church only the day before yesterday. I am afraid—well, I am afraid that he shot himself. It has upset and distressed us all very much. If anything could make me more glad to see you than I always am, it would be this distressing affair, because the inquest is tomorrow and it would be a great support to have you with me."

"Do you mean that you are obliged to go?"

"O, yes, my dear. You see, I heard the shot."

He looked back on the evening afterward and wondered about it. Just how dense had he been? Just where had he failed in the uptake? To what extent had he been oblivious of that faint current stirring beneath a surface calm? It was very hard to say. The calm upon the surface was complete. For the time there was no more talk of Michael Harsch. Miss Brown dispensed coffee, and then sat down to the piano to play the classical music upon which Miss Fell's taste had been formed.

Aunt Sophy kept up a desultory flow of conversation, interrupting it to listen to a favorite passage and then going on again. The windows stood open to the warm evening air, and the scent of the garden entered with it. Aunt Sophy's voice came and went thru the music.

"Dr. Meade is a great loss. Dr. Edwards is very nice, but he cannot be expected to take the interest. He lives at Oak Cottage, and his wife is an invalid. The new rector has Miss Jones' house. And you will remember the Misses Doncaster. They are still at Pennycott, but Mary Anne is quite an invalid now—she never goes out. There is a Mrs. Mottram at the Haven, a widow with a little girl of 5—very pretty and nice, but not musical. If it were not for that, I really think—but of course we mustn't gossip, must we?"

"Why mustn't we?" said Garth, laughing.

Miss Sophy bridled.

"Of course I don't mean anything in the least scandalous—far from it. It would, in fact, be a most delightful match for both of them. And so nice to have a lady in Meadowcroft again. One's next door neighbor always does seem a little nearer than the others."

"Who did you say was in Meadowcroft?"

"O, Mr. Everton. That is who I was talking about. I think he admires Mrs. Mottram very much, tho it is a pity she is not musical. He has a charming baritone voice, and a wife should be able to play her husband's accompaniments—don't you think so?"

"Has he got a wife?"

"My dear boy, of course not! I was just telling you how much he admired Mrs. Mottram. I happen to know for a fact that he has had tea with her three Sundays running. And it would be such a good thing for her—such a nice man, and a delightful neighbor. He often drops in to sing duets with Miss Brown, or to have his accompaniments played. We have quite a musical circle now. And then he is so active in the village. We are registered with him for eggs, and so is the rector. I believe he was in business, but he had a breakdown and is obliged to lead an open air life."

"What is Janice Meade like now she is grown up?"

Miss Sophy considered.

"Well, I'm so fond of her—don't you think it is very difficult to describe people when you are fond of them? I don't suppose you would think she was pretty, but"—she brightened—"she has very fine eyes."

Miss Brown, unexpectedly graceful in black lace, sat at the piano and swept the keyboard with a series of flashing runs.

Miss Fell nodded approvingly.

"That is what I call brilliant execution," she said. Then raising her voice a little, "Pray go on, Medora."

After a moment Miss Sophy prattled on again.

"She plays so well, does she not?"

Garth said abruptly, "What did you call her?"

"O, Medora. So charmingly uncommon."

"I never heard it before. Is it English?" And yet the moment he had spoken he knew that if he had never heard the name, he had seen it somewhere. He thought it was a long time ago.

Miss Sophy looked surprised.

"It is unusual, of course, but I like it better than Fedora, which I always think has rather an operatic sound. And then there is Eudora, in that delightful book of Miss Yonge's, 'The Pillars of the House.'"

From where they sat at the far side of the long drawing room, it was impossible that what they said should reach Miss Brown, yet Garth instinctively lowered his voice.

"She doesn't look at all happy."

"No, by dear boy. But I told you we have all had a severe shock."

"Is there any particular reason why it should be a severe shock to her?"

"O, dear me—I hope not. But they were great friends—their music, you know, and both playing the organ. He used often to drop in here for a few minutes on his way to church and sometimes afterwards."

"Did you see him the night he—died?" For the life of him he couldn't help that little pause.

Miss Sophy shook her head.

"O, no—he went straight to the church."

brating in New York with Mr. Waud. The senior Mrs. Waud did not make the trip east, as Col. and Mrs. Waud are coming to Chicago Sept. 30 for a week's stay. The same day the Wauds' other son, Maj. Morrison Waud, and his wife will arrive from his post at Wright field, Dayton, O., for a few days to make the family gathering complete.

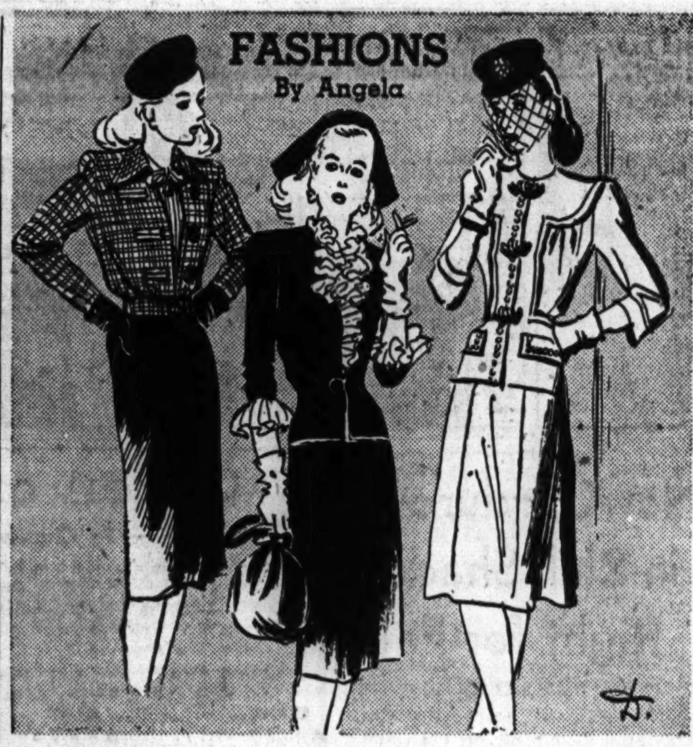
On the Calendar.

Scott hall of Northwestern university will be a magnet tonight for north shore residents, as the Evanston Infant Welfare society is sponsoring a novel benefit, a Dr. I. Q. program, in Cahn auditorium of the hall. James W. McClain of Evanston will appear in his usual role of radio quizmaster, and, following the custom of the program, silver dollars will be given away to members of the audience answering his questions correctly. There will be a number of dinner parties before the benefit, and later Mr. and Mrs. Drennan J. Slater will give an open house for Mr. and Mrs. McClain.

Five years of activity of the British War Relief society, founded just five years ago, will be observed by a birthday celebration starting today in the society's headquarters at 30 N. Michigan av. Mrs. William Sutherland will preside at a business meeting at 10:30 a. m. and Charles F. Glore, chairman of the Illinois committee, at a session at 3 p. m. The afternoon speakers, to be introduced by Chauncey McCormick, include A. B. Grant, vice president of the national society; British Consul General Wilfred H. Gallienne, and G. Ott Romney of the American Red Cross. Tomorrow's celebration will be devoted to the junior division of the society, headed by Mrs. Ernest S. Ballard.

FASHIONS

By Angela



Suit minded girls have an opportunity to gratify their desire for wardrobe variety by giving these smart suits consideration. Each is suitable for specific occasions and all three together form a complete tailored collection.

The street suit at left is one of the day time favorites for career or school girls. A rich brown skirt is combined with a small brown and white check jacket accented with false bound buttonholes of Kelly green on one side and large brown buttons opposite. The jacket does not meet but is fastened at the waist with a belt and material buckle. A green jersey vestee is pin tucked and trimmed with a spaghetti bow at the high, round neck line. It also is available in black trimmed with fuchsia.

Black velvet is appearing at afterdark or dress up functions, and the simple two piece suit in center is smooth fitting and slim of line, trimmed with a pink organdie ruffle around the bracelet sleeves and up and around the front and neck line. It is fastened with a single velvet button.

The dressmaker type suit at right offers a wealth of interesting detail. Created of heavy wool jersey in a fascinating shade of yellow, it displays unusual treatment in a curved shoulder yoke and center panel feature. Gold nailheads stud the false pockets and front. Large gilt buttons are decorative and effective. It is available in pink, blue, luggage, and shrimp.

Big Universities Look to Their Post-War Role

[Continued from page 23, column 7.]

education is the main emphasis. Another concerns the terminal points of a general education, that is, when a student should complete a general education in a formal sense.

There is wide opinion that every one should have a general education, which, by one national committee's definition, may be summarized as giving a sense of proportion and perspective to the student and enabling him to live and earn in a contemporary world without accepting it either as the best or worst in human affairs.

If so, and if all should partake, then where are enough skilled teachers to be obtained? The criterion of a teacher's formal education is a Ph. D. However, the Ph. D., generally a research degree, has been criticized as a teaching degree and no guarantee that its possessor also has the true teacher's ability.

President Hutchins has suggested the creation of an institute which could grant "teaching Ph. D.'s," with some other doctorate degree for the research specialist.

Assuming that every one needs a general education, the question is raised as to how can it be successfully accomplished without too great a sacrifice of time on the part of the student. This also raises the question of relocating the terminal of such education so that the student loses no time in mastering his specialty.

Minority opinion would have the student start college level education at the end of his high school sophomore year and be ready for his science, engineering, law, business administration, or specialty in liberal arts at the end of what now is his sophomore year in college. The debate is now on. But while the debate waxes warm, the University of Chicago has acted. Students there may now achieve an A. B. degree at the average age of 18 instead of 20, and then pass on into the divisions of the university. The June, 1944, class under the new plan, begun in 1942, numbered 768; the next class this year will double that number, according to the university.

See 'Mr. Winkle Goes to War'; It Has Appeal

"MR. WINKLE GOES TO WAR."

A Columbia picture, directed by Alfred E. Green, starring Edward G. Robinson, with Ted Donaldson, Richard Lane, and Ruth Warrick, and presented at the Garrick.

By Mae Tinée.

Good Morning!

Once upon a time there was a round peg in a square hole who decided to do something about the hole and did.

His name was Mr. Winkle.

When you meet the peg he's middle aged, fed up with his humdrum bank clerk existence, and nerving himself up to tell the boss that he means to quit and devote his life to fixing things with his hands in the little shop he has rigged up behind his home.

This hurdle accomplished, there is Mr. Winkle's wife to buck. . . . She's agin it. But Winkle and a devoted youngster [that wonderful kid, Ted Donaldson of "Once Upon a Time"] carry on beatifically. . . . Then, suddenly—Uncle Sam wants Mr. Winkle in the army!

And once more—in uniform—he finds himself relegated to an office job.

Again he doggedly takes the bit in his teeth and convinces his superiors that, middle aged, fat, out of condition tho he may be, he's still capable of joining a repair unit and taking the hard training necessary if he becomes an army mechanic. . . . Eventually he wipes out a Jap gun nest, using a bulldozer on which he has been at work.

The peg has rounded the hole. Mr. Winkle is a national hero. He is a home town idol. . . . Bands play for him. The mayor comes bearing bouquets. . . . Mrs. Winkle's like to burst her buttons with pride—all of which is pain in the neck to peg. . . . For still all that Mr. Winkle wants is to work undisturbed in his little shop.

He does.

Edward Robinson plays Winkle with reticence and understanding in this home town-army life comedy. Ted Donaldson [PLEASE, Powers-That-Be, team him with little Margaret O'Brien] does a beautiful job. . . . Other players are adequate.

Army sequences are best. Scenes in the Winkle home are forced and unconvincing. But, all in all, "Mr. Winkle Goes to War" has a lot of appeal.

See you tomorrow.

Maurice Evans, Actor, Is Promoted to Major

HONOLULU, Sept. 21 (AP).—Maurice Evans, Shakespearean actor, who forsook Broadway for an actor-director role in the army's special service, has been promoted from captain to major.

Looking at Hollywood

By Hedda Hopper

HOLLYWOOD, Cal., Sept. 21.—The day after **Dudley Nichols** finished the script of "Sister Kenny," **Roz Russell** announced she would do a comedy "Some Call It Love." The reason I mention it is that **Charlie Koerner**, head of R. K. O., promised me Roz Russell would start "Sister Kenny" some time in November, 1944, so that the picture would be ready for distribution before the next epidemic of infantile paralysis, probably next summer. The picture was promised a year and a half ago. Five months ago the studio was set to go, sets were being built, and costumes designed; then the picture was canceled. Pictures have been canceled before, but not one like this. In this, **Sister Elizabeth Kenny** will show on the screen her treatment of that dread disease, which may save thousands of little children from being crippled for life. That's a very serious thing. So I again ask Roz Russell and R. K. O.: When will you start "Sister Kenny"?

It's About Time, Isn't It.

In "Week-end at the Waldorf" you'll see **Walter Pidgeon** clean shaven. . . . But **Monty Woolley**, bearded, plays himself in the Cole Porter picture "Night and Day." . . . **John Qualen** [remember him as the quints' father?] returns to the stage after 11 years, in "The Streets Are Guarded." . . . **Ella Raines** and **June Vincent** are recovering from operations. . . . **Bette Davis** wants to play a 17 year old in "Ethan Frome," for which **Andrea King** has already tested. . . . **Gary Cooper**, in "Saratoga Trunk," is the Cooper you all adore.

Oh, Yeah? How Interesting!

Diana Barrymore, in an interview back east, says she's put Hollywood behind her. Well, I can go a snip farther and say, "You could put the state of California behind her and you couldn't see it." Miss Barrymore didn't make good in our city. . . . **Sam Spiegel** has "The Trap" all set up. He'll produce it on the Goldwyn lot. . . . **King Carol** has his duds packed, and it looks as tho the Russian ambassador to Mexico has gotten him the green light for a trip back to Romania. When **Russell Birdwell** started publicizing Carol, he had already turned down an offer to do the same kind of job for **Mr.** and **Mrs. Windsor**.

They'll Be Missed.

Tallulah Bankhead, **Garbo**, and **Katie Hepburn** are going to weep thru their tennis racquets when **Clifton Webb** and **Mabel** pull out for New York Sunday. Where will the gals be able to play tennis in such privacy? Clifton's reading a new play with music, sponsored by a new opera company in New York. If that doesn't jell, he'll go overseas. He's one cookie who doesn't need a company back of him—he can entertain alone. . . . Before leaving, he bought beach land beyond Malibu. **Gladys Cooper**, **Lillian Gish**, **Charles Mendl**, **John Darrow**, and **Constance Collier** all have bought there, and that's where **Merle Oberon** is now living. . . . **Johnny Johnston**, tall blond singer, said the reason he left Paramount was that he saw **Bing Crosby** in "Going My Way." "So I went my way," he says. . . . **Sigmund Romberg's** "Sunny River" is just about ready for production.

Good as a Movie.

The **Harvey Firestones** were planning a charming party for **Gov.** and **Mrs. Bricker** of Ohio, but the party was canceled because of a mixup stranger than fiction. Recently the Firestones bought the **Stanley Barbee** house. Then **Mrs. Barbee** brought suit, claiming it belonged to her. Last week Mrs. Firestone was awakened to find van loads of furniture being carried into her drawing room because when she moves from her present house to the one she bought from Barbee, he will move into her house. He didn't want his wife to get the furniture, so used the Firestone drawing room for storage, and not even a mouse can swing its tail in there. Even the Firestones have to dine out—they can't get thru to the dining room.

Bits and Pieces.

Howard Hawks' new discovery was discovered before she was "Miss Texas." Now she's **Annelle Hayes**. . . . Since **Mark Hellinger** is rested up from his overseas trip, his friends call him "Public Energy No. 1." . . . **Johnny Broderick** and **Ed Cronley**, New York detectives, were here recently with a prisoner in tow. Cronley, the younger one, was offered a job by **Martin Mooney** in his forthcoming picture "Crime, Inc." which rolls Oct. 6. When I produce a picture, I'll try to sign up Johnny Broderick. . . . **Barbara Everest**, who's been playing with **Edmund Gwenn** in "Sheppy" on Broadway, arrives soon for "Valley of Decision." . . . **Tommy Gomez** is back from the east after taking his yearly exercise bicycling from Cape Cod to New York. Now he'll hibernate for another season. . . . **Harold Bucquet**, director, is back from Detroit, where his son, **Howard**, was graduated and married **Barbara Beeman** all in two days. . . . **George Jessel** was telling **Benny Goodman** about a Hollywood party, when Benny asked "Who fought in the main bout?"

Keep On Doing War Duty and Stay in Shape

BY MAUREEN DALY.

[Copyright: 1944: By The Chicago Tribune.]

on the SOLID side

Don't slack up now! Perhaps you haven't come of age to be off to the wars yourself or for some other reason you don't qualify to be put in the "here today, gun tomorrow" group. But you'd like to be doing something—something definite. You feel almost guilty because you are still able to get a kick out of good dance bands, Bob Hope movies, and Frank Sinatra. You've done everything a civilian can do—especially a civilian with a limited income and a year or two of high school still ahead. You've bought war stamps, saved scrap paper, and helped the Red Cross, but you want to do something more — and you don't know where to start.

Well, start with yourself! After the boys in service are taken care of [and you've already crossed that off your conscience list], you're the kid who counts! You should be thinking of yourself as something essential to the war—and something more essential to the coming peace.

Your health is tops on the "must" list and you know what keeps you healthy. You not only planted a war garden last season, but now you're eating it, fresh or canned. You no longer go for that "carrots make your hair curly" conversation they handed you when you were a little five-by-five but you *do* know the value of vitamins. And you take the muscle-making qualities of spinach with a grain of salt—and sometimes creamed or with a pat of butter for variety because you know what makes a good joe run. You're smart about your diet.

And you're getting enough of that old shut-eye. You're sharp enough to lay down your own curfew and keep it and you're not doing your dating on the swing shift. You swim, you bowl, or you make your muscles by walking but at least you're not a loosely stacked character who gets all his exercise from taking the caps off coke bottles and pushing nickels into the juke box.

How to make the "good breakfast" taste better!

Enjoy delicious "Shreddies"! Crunchy spoon-size biscuits—rich in tempting, nut-like flavor. Made of 100% natural whole wheat.

BROWNS WIN; CUT TIGER LEAD TO HALF GAME

NED DAY WILL OPEN BOWLING SCHOOL OCT. 12

Classes to Precede All-Star Meet.

BY CHARLES BARTLETT.

Ned Day.

Ned Day, the personable Badger who will defend his national individual match game bowling championship in the fourth All-Star tournament to be held in the Auditorium Service Men's center from Dec. 2 thru 10, is going to prove that he is as able at teaching bowling as practicing it.

Day, who is to bowling what Willie Hoppe is to billiards and Byron Nelson to golf, will inaugurate the 1944 Chicago Tribune bowling school with a three day free course over the Bryn Mawr recreation lanes, 2015 East 71st st., on Oct. 12, 13, and 14. Bryn Mawr, a 32 alley establishment operated by Bill Wightman and Al Engelman, is one of the most progressive tenpin plants in the city.

Sites for Preliminaries Not Chosen.

Decision to have Day give beginners free instruction in the fundamentals of the sport was made after the All-Star committee approved it. This committee is composed of Chairman Barney Hochstadter, Louis P. Petersen, Eddie Linsz, C. P. Binner, C. O. Collier, Eli Whitney, Jerry Peck, Herb Lang, Arch Ward, sports editor of THE TRIBUNE, and the writer. The committee already has begun to function for the 1944 tournament, an event which in its first three years has become recognized as the world series of tenpins. On Oct. 5, at the regular meeting of the Chicago Bowling Proprietors association, it will entertain bids for local qualifying trials for the big show. Last year, these were held in five establishments—Rose Bowl, Garden recreation, Cascade, Monte Carlo, and Bowling Lanes.

Prof. Day will begin teaching at 2 p. m. each day, going from lane to lane to give individual tips to those bowlers rolling at the time of the school. He will continue in this fashion for approximately three hours. In the evening, he will discuss bowling with those participating in league competition, and when league activity is over, he will engage in a special five game match with other outstanding bowlers.

Other Alleys to Hold Schools.

The Bryn Mawr seminar is only the first of a series of classes which the champion will conduct thruout the city. Other establishments which plan to turn their alleys into classrooms for Day are Stevenson's Recreation, 757 E. 79th st.; Dominick De Vito's Park Manor, 100 E. 75th st.; Bowling Lanes, 5221 Broadway; Milo Wiesner, 823 W. 35th st.; Bill Goldammer's Twentieth Century Recreation, 3253 N. Cicero av.; Bensinger's, 29 W. Randolph st., and the Bowlium, 4361 Sheridan rd. Dates for lessons at these locations will be announced later.

MANAGER JIMMY DYKES threatens to start the 1945 pennant race with virtually the same White Sox personnel he has directed this year. . . . Nevertheless, President Grace Comiskey will urge him to come east from Hollywood for the minor league meeting in Buffalo the first week in December and the subsequent major league conclaves. . . . Coach Monk Simons of Tulane has a quartet of seasoned backs to open the season against Notre Dame Oct. 7. . . . The boys are Leonard Finley, one of the south's best blockers; Dub Jones, a tall youngster who can pass and run; Joe Renfro, 208 pound wing back and a fine punter; and Henry Robinson, hard running full back who transferred from Vanderbilt last year. . . . The smallest unit in Tulane's line is Ed Hoffman, 155 pound center from Memphis, Tenn. . . . "Imagine starting him against Notre Dame," says Coach Simons, but that's what will happen. . . . Before he left for army service Bobby Doerr of the Red Sox expressed the opinion that his friend, Joe Gordon of the Yankees, is the greatest second baseman he ever saw. . . . Frank McCormick now belongs in the select circle of players who have taken part in 1,000 or more games in Cincinnati uniforms. . . . The others were Edd Roush, Tommy Corcoran, Heinie Groh, Ivy Wingo, and Ernie Lombardi. . . . Tobacco chewers' item: The hotel which is the White Sox headquarters in New York is the only one in the American league which provides a cuspidor in every player's room. . . . The tobacconist, however, is insulted when a customer tries to purchase scrap, plug, or fine cut.

Seaman 2/c John Izzo of New Castle, Pa., has been mopping up in navy rings in the Central Pacific and is regarded as a sure-fire welter prospect after the war. . . . Cadet Dell Taylor, captain of Tulsa's Sugar bowl eleven last year, now a member of the Iowa Seahawk squad, played a year at each back field position in college, but he insists he'd rather be a lineman, where he can get in more blocking and tackling. . . . Some of the men up front would be happy to switch, no doubt, if it could be arranged with the coaching staff. . . . Bronko Nagurski's name led all the rest in a poll among current members of the Chicago Bears who were asked to name their favorite athlete. . . . Nine voted for the huge Minnesotan, three named George McAfee, and two selected Sid Luckman, also former Bears. . . . The million dollar overhaul Connie Mack has promised to give his Philadelphia ball park as soon as materials are available will include, 'tis said, an air conditioned press box. . . . Dr. Michael H. Dally, long a contributor of poetry to the Wake, is in Wesley Memorial hospital, 250 E. Superior st.

Have Faith in America.

Think not, Americans, that progress ends
Because our land is filled with implements.
Be thankful for the gifts invention sends
And tool them toward more wonderful events.
Weigh down the tightening-pulley of the mind,
Lock-nut your tongue when criticism slips,
Oil up the bearings of the soul that bind,
Unscrew more words of courage from your lips.
Why should one haltingly apologize
For keeping good old U. S. A. on top?
Turn on the steam of faith—a power that dies
Sooner than let the wheels of progress stop.
The same frontiers are here, in other dress,
That faced our fathers in the wilderness.

CARDS DEFEAT BRAVES TWICE TO CLINCH FLAG

Win, 5 to 4, and 6 to 5 in 10 Innings.

[The Cubs yesterday won a double header from the New York Giants, 11 to 8 and 6 to 4. Story on next page.]

Boston, Mass., Sept. 21 (AP).—The St. Louis Cardinals clinched the National league baseball title today by defeating the Boston Braves in a double header, 5 to 4 and 6 to 5. The second game victory, which was not needed mathematically to win the flag, was accomplished in 10 innings.

Southpaw Harry Brecheen got credit for both triumphs, finishing the games in relief roles. In the second game the Cards came from behind with two runs in the ninth to tie the Braves.

The 1944 championship is St. Louis' eighth, all won since 1926 when the Cardinals captured their first flag. Previously the Cards had not finished as high as second since 1876, the league's first season. From 1885 to 1913 St. Louis ended in the first division only once, gaining fourth place in 1901. In 1914, 1917, 1921, and 1922 the Cards ended the race in third.

Begining with 1926, it has been a different story for the Cardinals. Whereas they finished in the first division only five times in the previous 38 years, they have wound up in the second division only three times in the last 19 races.

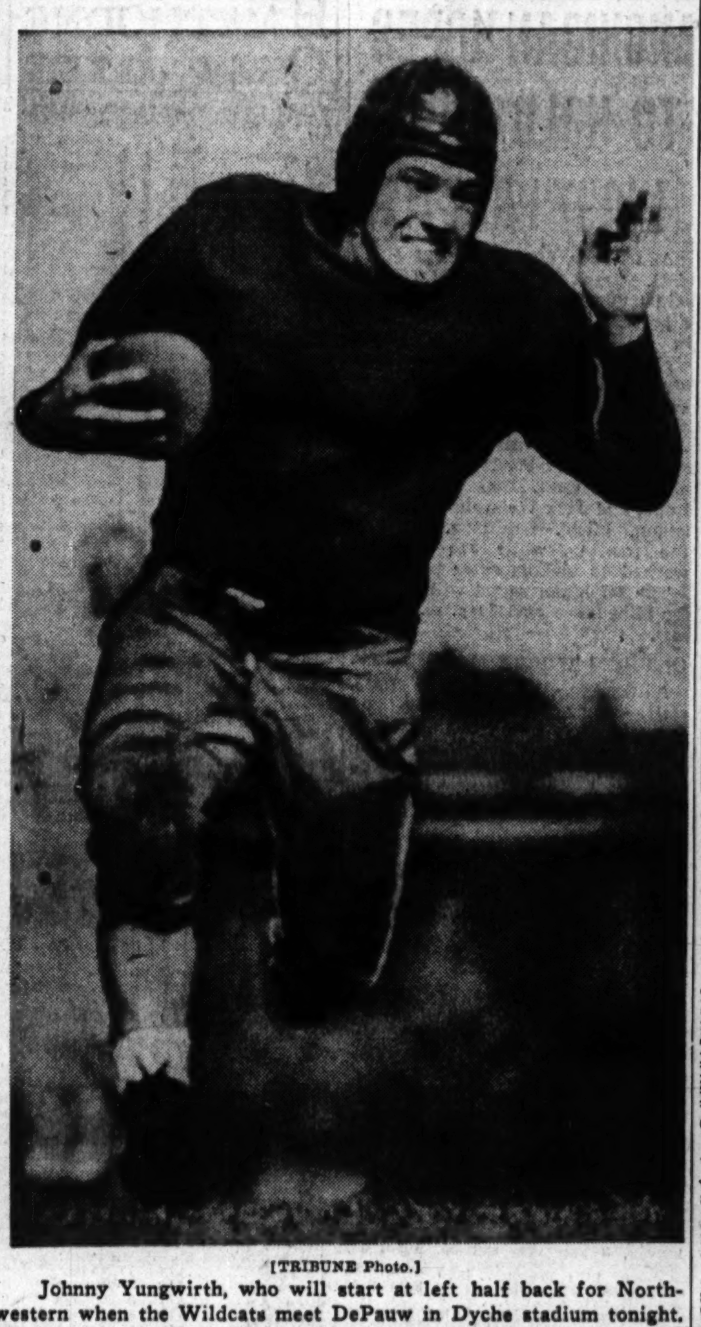
OTTO GRAHAM'S SUCCESSOR



[TRIBUNE Photo.]

Johnny Yungwirth, who will start at left half back for Northwestern when the Wildcats meet DePauw in Dyche stadium tonight. The successor to Otto Graham, Northwestern's starting left half for the last three seasons, is a 5 foot 6 inch freshman from Fond du Lac, Wis., who has a lot of drive and who is an excellent passer and kicker.

Illinois' Speed Is Indiana's Chief Worry

BY WILFRID SMITH.

[Chicago Tribune Press Service.]

Bloomington, Ind., Sept. 21.—Bob Hoernschemeyer, the young man who completed 72 forward passes in 151 attempts last year for Indiana university's football team, will play Saturday for the Hoosiers in the Western conference's opening game at Illinois. However, as Coach A. N. [Bo] McMillin gave out this information today while Hoernschemeyer went thru a second drill since arrival from Bainbridge, Md., naval station, the genial Hoosier coach did not seem as pleased as one might expect him to be.

McMillin admitted that Hoernschemeyer would be in Indiana's lineup at least part of the time at Illinois, but the Hoosier coach, on the basis of his scout's report of Illinois' game last week, was concerned over the question of speed.

Worries About Illini Backs.

"Hoernschemeyer will be a tremendous help to us this year," McMillin said as he watched his players take their final drill before leaving tomorrow afternoon for Danville, Ill., their camp site until Saturday. "Bobby may not be ready for Illinois, of course, altho he reported in good shape. But our problem apparently will be to stop Illinois backs, such as Buddy Young. Illinois may be just too fast for us."

Hoernschemeyer, who had a net gain last year from scrimmage of 515 yards in addition to his excellent record as a forward passer, recently received a special order discharge from the navy.

McMillin had other pleasant news when his trainer reported that J. C. Coffee, jovial Negro guard who was a regular last season, and John Canady, quarter back, would be able to play Saturday.

Coffee May Replace Kempf.

If Coffee starts against the Illini, he probably will replace Joe Kempf, sophomore from Louisville, Ky. Joe Sowinski, from Roosevelt High school, East Chicago, Ind.; Frank Ciolli, Campbell, O., and Bob Ravensberg, Bellevue, Ky., are other sophomore letter men in Indiana's line. Sowinski is a guard, Ciolli, is a tackle, and Ravensberg is a tackle on offense but will play end on defense. Incidentally, Ravens-

Kick-off—8 p. m.

BY FRED DE LANO.

Northwestern's 1944 football team, with five freshmen in the starting lineup, will make its debut tonight against DePauw university of Greencastle, Ind., under the lights of Dyche stadium as Coach Lynn Waldorf tests Wildcat personnel for a schedule ahead which includes games with six Big Nine opponents, Notre Dame and Great Lakes. The kick-off is set for 8 o'clock.

Waldorf yesterday made two changes in his starting combination. The veteran Hank Altepeter, brilliant quarter miler on Northwestern' track team last spring, will be at right half instead of Freshman Dick Conners and Freshman Oral Congdon will start at right tackle in place of John Kroeger, who still is suffering from injuries received in last Saturday's scrimmage.

DePauw Has V-12 Men.

DePauw, which reached its football peak a year ago when Bob Steuber was a member of its back field while in naval training on the campus, also will be opening its season tonight and little is known of its potentialities. Like Northwestern, DePauw's squad is made up largely of naval trainees.

Wildcat letter men, beside Altepeter, who will start tonight's game include Full Back Bob Funderburg, End Duane Sickels, and Capt. Ray Justak, guard. Two other players with collegiate experience, Guard Vern Lightfoot from Missouri and End Max Morris who played at Illinois, also will hold down starting assignments.

Freshmen Hold Interest.

More than a little attention will be focused upon the play by four freshmen at left half, where for three years Otto Graham has been a Wildcat fixture. Johnny Yungwirth, 165 pounder from Fond du Lac, Wis., will get the starting call at the No. 1 ball carrying berth. The three other newcomers waiting for a test at the position are Bruce Balstrow, Bill Roper, and Hap Murphy.

The Wildcats yesterday learned of the loss because of scholastic ineligibility for the season of Ken Wiltgen, outstanding freshman end candidate from St. George's city prep champion team of 1943, and Waldorf immediately switched the veteran Jack Harker back to end to fill the gap.

Potter Beats Senators, 9-4; 17th Triumph

St. Louis, Mo., Sept. 21 (AP).—The St. Louis Browns moved to a half game behind the first place Detroit Tigers in the American league tonight by defeating the Washington Senators, 9 to 4. Nelson Potter was credited with the victory, making his season's total 17 against 7 defeats.

The biggest inning for both teams was the fourth when Washington got three runs and the Browns five. The winners made 15 hits off three Washington pitchers, while Potter kept the Senators' nine scattered except in the fourth.

Just before the game Roberto Ortiz, Washington right fielder, and Catcher Tom Turner of the Browns traded blows in front of the stands. Apparently caused by a flareup of the long ill feeling between the teams, the fight was broken up by players and Ortiz went to a hospital for X-rays of his hand. Turner was unhurt. Score:

Seahawks to Keep 3 Out of Gopher Game

Minneapolis, Minn., Sept. 21 [Special].—University of Minnesota athletic officials today were informed that the Iowa Pre-Flight will drop Bus Mertes, star full back, and Vic Schleich, line standout, from their squad for their game with the Gophers here Saturday. The Seahawks' contract with the Gophers calls for an all-cadet squad, and Mertes and Schleich are Bluejacket seamen. Bob McCullough also will be missing from the Seahawks' lineup because of scholastic difficulties.

Pre-Flight replacements will be Jim McEvoy for Mertes, Leo Aramovitch for Schleich, and Bob Gertsenberger for McCullough.

PURDUE TO LEAVE TODAY.

Lafayette, Ind., Sept. 21 [Special]. —Purdue's preparations for the season's football opener with Great Lakes Saturday at the naval training center virtually were completed this afternoon as Coach Cecil Isbell sent the Western conference defending co-champions thru an intensive drill in which the emphasis was placed on the correct timing of running plays.

The Boilermakers will have only a light limbering up drill tomorrow afternoon before a squad of 38 players leaves for Chicago to remain over night.

The traveling squad named tonight follows:

OHIO'S DRILLS REDUCED.

Columbus, O., Sept. 21 [Special].— Ohio State's Buckeyes went thru a hard scrimmage session today, the last to be ordered prior to the season opener with Missouri here Sept. 30. Coach Carroll Widdoes decided that because so many minor injuries have plagued the squad the two workouts a day schedule should be abandoned, and one practice a day will be the order from now on.

Rain marred the scrimmage. Warren Amling, regular tackle, was instructed to back up the line on pass defense. Amling backed up the line in his high school days.

Jack Crider was elected captain of the reserve team which is to play Ohio Wesleyan at Delaware tomorrow.

Detroit, Mich., Sept. 21.—The New York Yankees, terribly handicapped by the Detroit Tigers' calm efficiency in the first two games of the series, broke thru that serenity in the late innings today and in the tenth wound up with a 5 to 4 victory in the final of the season between the teams. Bill Zuber, thrice beaten by the Tigers this year and previously winner of only three games in American league competition, was the conqueror and Hal Newhouser, with a chance to win his 27th of the year, suffered his ninth loss.

Zuber pitched to five batters, two of whom got on base with one out in the tenth. The game ended when Paul Richards lined into a double play. Newhouser, who entered the game at the start of the eighth, when the Yankees were leading, 3 to 1, yielded one unearned run in the eighth, saw his mates tie the score in the home eighth on a single by Pinky Higgins, Dick Wakefield's second homer of the series, a double by Jimmy Outlaw and a single by Richards, all off Walt Dubiel, the starting pitcher.

Tigers Watch Browns' Score.

The revival of the Yankees sent the New Yorkers on for four games in Cleveland still three games behind the Tigers, but left the Tigers waiting for the night results from St. Louis with renewed interest. At the close of the game here this afternoon the Tiger lead over the Brownies had been shaved to one game and it was further reduced to a half game by St. Louis' night conquest of the Senators.

In the game today a pass to Johnny Lindell led to Newhouser's undoing. With one out in the 10th he issued the pass and Nick Etten followed with a sacrifice. Frankie Crosetti then doubled off the left field screen, scoring Lindell with the winning run.

After striking out Rudy York on three pitches in the home 10th Zuber walked Wakefield and Outlaw. He threw three wide ones to Richards, then Paul lined to Stirnweiss, who ran to second to double Wakefield and end the game.

Wakefield Starts Trouble Early.

Frank Overmire held a 1 to 0 lead set up in the first inning by Wakefield's double until the seventh inning. Then the Yankees took the lead for the first time in the series by counting three times on singles by Lindell and Mike Garbark, an intentional pass to Oscar Grimes and an error by Jimmy Outlaw.

Newhouser was the Tiger pitcher at the start of the eighth. The New Yorkers picked up another run in that inning on a single by Herschel Martin, and errors by Joe Orengo and Rog Cramer. The Tigers tied it with three runs in the eighth. These grew from singles by Higgins and Richards, a double by Outlaw, and a two run homer by Wakefield.

IRISH SWITCH PERSONNEL TO BOLSTER LINE

Notre Dame, Ind., Sept. 21 [Special].—An hour and a half scrimmage occupied the Notre Dame football squad this afternoon, during which Irish coaches made several personnel changes to add reserve strength to line positions.

Most important of the shifts was that involving John Fallon, 200 pound freshman tackle, who was

Another change found 6 foot 7 inch Joe Kelly, Akron, O., junior, shifted from right end to left tackle.

CUBS WIN OVER GIANTS TWICE, 11-8 AND 6-4

North Siders Tighten Hold on Fourth Place.

[The White Sox were idle yesterday and have no game scheduled today. They will open a series with Washington tomorrow night in Comiskey park.]

BY IRVING VAUGHAN.

[Chicago Tribune Press Service.]

New York, Sept. 21.—The Cubs just about put some money in the bank today when they strengthened their hold on fourth place by repelling the challenging Giants in a double header. The Chicago boys took an 11 to 8 decision in a pitchers' parade and then came back behind Claude Passeau to collect additional comfort for themselves by 6 to 4, dropping the Polo Grounds tenants to five and one-half games from the dividend paying first division.

With Phil Cavarretta and Paul Gillespie producing homers, the Cubs hopped off to a 7 run lead against the talented Bill Voiselle in the first game but eventually went into arrears as the result of the Giants' consistent slapping around of Bob Chipman, Hy Vandenberg, and Paul Derringer. Bill Fleming finally joined the argument, turned out a one hit job in the last four innings and the Cubs meanwhile forged ahead by applying their bats to Rube Fischer and Ace Adams.

Secory Is the Big Gun.

Because the Giants started Ewald Pyle, a lefty, against Claude Passeau in the second game, Boss Charley Grimm gave Frank Secory an outfielding assignment and it proved a most happy choice. The ex-Brewer drove in a run to give the Cubs a 2 to 0 lead in the third inning. Later on he hit a homer and also supplied a perfect sacrifice that assisted in a two run eighth, all these being highly valuable for the purposes of Passeau, who was lathered for a grand total of 15 hits.

The Cubs' seven run splurge was produced chiefly by a three run homer by Phil Cavarretta which was followed near the inning's close by a homer by Paul Gillespie with one on, driving Bill Voiselle from the mound. The Giants bounced back with a pair of runs, chasing Bob Chipman to cover in the same inning. They added single runs in the second and third on respective homers by Nap Reyes and Joe Medwick.

Falters at Finish.

Five solid hits off Vandenberg and Derringer put the Giants into an 8 to 7 lead in the fifth, but the Cubs tied it up in the sixth. A run in the seventh and two more in the eighth off Rube Fischer and Ace Adams produced the triumph.

With Passeau hurling effectively the Cubs enjoyed a 3 to 0 lead in the second game's sixth inning. This was trimmed by two in the same inning. Marv Brewer relieved Ewald Pyle, the lefty who started for the Giants, in the eighth, but the Cubs reached him for a pair of runs in that inning and another in the ninth. Passeau gave up four singles and two runs in the ninth, but managed to stagger in with his victory.

Pirates Take Pair of Games from Dodgers

Brooklyn, N. Y., Sept. 21 (AP).—The Pittsburgh Pirates solidified their hold on second place today by taking both games of a double-header from the Brooklyn Dodgers, 10 to 4 and 14 to 6.

Rip Sewell gained his 19th triumph as the Pirates pounded three Dodger hurlers for 11 hits in the first game.

MICHIGAN HOPES TO HOLD FIRST NIGHT PRACTICE

Ann Arbor, Mich., Sept. 21 [Special].—Coach H. O. [Fritz] Crisler said today he hopes to arrange for a practice session under the lights in Marquette stadium tomorrow night before sending the Wolverines against the Hilltoppers at Milwaukee Saturday in Michigan's first night football game in history.

Crisler concentrated on kicking and noncontact blocking drills this afternoon. Capt. Bob Wiese, Don Lund, and Jack Weisenburger, Muskegon, Mich., freshman, handled the punting, while Joe Ponsetto worked on kicking extra points.

The Michigan squad will entrain for Milwaukee at 1:30 p. m. tomorrow.

INJURIES WORRY MARQUETTE.

Milwaukee, Wis., Sept. 21 [Special].—Minor injuries suffered by several regulars in scrimmage this week provided new worries today for Coach Tom Stidham as he gave the Marquette university football team its final heavy drill before Saturday night's game here against the University of Michigan. Full Back Johnny Rudan, Guard Harold Holz and End Frank Coskikowski all have slight injuries.

Icangetit Has Top Weight in $7,500 Stake

BY MAURICE SHEVLIN.

Henry Tikulski's Icangetit, winner of the Joliet stakes at the Lincoln Fields' meeting last spring and a fast closing second to John Marsch's unbeaten Free for All in the recent $25,000 added Washington Park futurity, will carry top weight of 122 pounds in the $7,500 Hawthorne Juvenile handicap tomorrow and no doubt will tote the hopes of the form players.

Icangetit, trained by Bob McGarvey, probably will go postward an even money favorite in one of the largest fields in the 18 year history of the fixture for 2 year olds. Thirty-five youngsters were nominated for the event and all still are in training, but it is unlikely that more than 12 or 14 will start.

Double Returns $38.80.

Well backed speedsters accounted for yesterday's daily double races and the combination return was only $38.80. W. W. Crenshaw's Edgar B., ridden by Art Fischer, won the first race and paid $6.60. Migration, with Billy Nichols up, took the second for Braverman and Appuzze and paid $9. Fischer was thrown by his mount, Linger Along, and retired for the afternoon.

Happy Issue, owned by the Happy stable of California and ridden by Apprentice Billy Nichols, won the featured $2,000 Del Prado purse, a six furlong sprint for older horses which drew a field of six.

Nichols' Third Victory.

It was Nichols' third victory of the afternoon and was scored easily, Happy Issue hitting the finish line four lengths in front of Mrs. V. E. Smith's Sirius. Woolford farm's Legislator was third, a length and a half back and six lengths in front of Tikulski's Bolus, the favorite.

Illinois' Speed Is Indiana's Chief Worry

[Continued from first sport page.]

berg, a guard in 1943, was moved to end when he participated in the All-Star game with the Chicago Bears.

The bellwether of Indiana's line is John Tavener, veteran of three campaigns. Tavener is the center who backs up Indiana's line on defense. Dick Deranek, Central High school, South Bend, Ind., and Ted Kluszewski, 215 pounder from Argo, Ill., are the ends on offense. Both are freshmen.

Coach McMillin said today he probably would start Abe Addams, freshman from Male High school, Louisville, Ky., at left half back Saturday. Addams, who weighs 197 pounds and is 6 feet 2 inches tall, is a runner, passer, and kicker and the attack, it was reported this summer, has been built around him.

The other backs at Illinois Saturday, in addition to Cannady and Addams, will be Bob Miller, right half, from Taft High school, Chicago, and George Sundheim, full back, La Grange, Ill.

Hammer Field, Portland Capture Softball Crowns

Cleveland, O., Sept. 21 (AP).—The Hammer army air field from Fresno, Cal., defended its men's division title in the world amateur softball championships tonight by defeating the Fort Wayne, Ind., Zollner Pistons, 1 to 0, in 12 innings. The Portland, Ore., Lind & Pomeroys won the women's title with a 1 to 0 triumph over the Phoenix, Ariz., Ramblers in 11 innings.

NORTH DAKOTA HAILED AS LAND OF FREE HUNTING

BY BOB BECKER.

[Chicago Tribune Press Service.]

Solen, N. D., Sept. 21.—Today we got acquainted with the sharp-tailed grouse in a country we could hardly believe existed up here in the northwest. We could look for miles thru the clear air across the rolling wheat fields and brown hills. Farm houses were far apart. Working out of the sloughs were small flocks of ducks going into the wheat and barley fields to feast on the unharvested grain, for its a race up here in some localities between the pintails and mallards and farmers to see who gets a good share of the crop.

Not a "no hunting" sign could we see anywhere. Big plots of untilled grassy ground do not even have fences around them.

Birds Easy to Find.

It seemed hard to believe but we could travel in any direction for miles, just take our pick of a field or slough most anywhere, and start hunting, for this is truly the land of free hunting. When Arnold Strand, a resident of Bismarck, told our small party of three, including Paul C. Clovis, Kenilworth, Ill., and Martin Lammert, St. Louis, Mo., to pile out and walk across a series of low hills covered with a lush stand of grass to see if we could pick up some sharptails we hardly expected to find these birds so soon. We had walked no more than a block when the first grouse popped out of cover.

In a short time our party had several brace of these sporty game birds which in many areas are unusually plentiful this season.

WPB PROMISES SHELLS.

Washington, D. C., Sept. 21 (AP).—The war production board has ordered immediate shipment to South Dakota, North Dakota and Minnesota wholesalers of 8,000,000 shotgun shells of the regular third quarter allotment and an additional emergency allotment of 4,000,000 shells, Sen. Bushfield [R., S. D.] said today.

Bushfield said the WPB acted after he relayed complaints from many retail dealers that they have not received their expected shipments from the second quarter allotment.

INDIANS DEFEAT RED SOX, 5 TO 2, ON TWO HOMERS

Cleveland, O., Sept. 21 (AP).—Two home runs, one of them a two run hit by Jeff Heath, gave the Cleveland Indians a 5 to 2 victory over the Boston Red Sox today, making it a series sweep. The second homer was Oris Hockett's first this season. The defeat dimmed Boston's hopes of overtaking the league leaders in the pennant race.

OIL PACT HELD MOVE TO FLOUT CONSTITUTION

Hill Warns Treaties Are Supreme Law.

BY ORVILLE DWYER.

Charges that the recently concluded oil agreement between representatives of the British government and the Roosevelt administration is not only unconstitutional but grossly detrimental to the United States and that the New Deal is attempting to keep the details from the public until after the election were made by George A. Hill Jr., prominent Texan, before a closed meeting of the petroleum industry war council in Washington, D. C., Sept. 13, Chicago oil men disclosed yesterday.

"But I am determined the people shall know all about it before the election," Hill was quoted as saying, placing particular emphasis on "before the election." The Chicagoans said he then read from a prepared statement analyzing and condemning the so-called Anglo-American oil pact.

Condemns Secrecy Policy.

"Secrecy surrounded the negotiations," he said. "I feel it is incumbent upon me to report the grave consequences which I believe will ensue from the approval and ratification of such a treaty by the senate, and which should be resisted by all citizens of the United States who are concerned with the maintenance of our consitutional federal system—irrespective of their engagement in the petroleum industry."

Hill is president of the Houston Oil company. He is chairman of the production committee of the petroleum industry, district 3, a member of the war council, and an authority on constitutional law.

He told the council of 72 oil men from all parts of the country in the presence of Ralph K. Davies, deputy petroleum administrator for war, and Charles Rayner, petroleum adviser in the state department, that President Roosevelt had sent the oil agreement to the senate for ratification, but that Sen. Tom Connally [D., Tex.], chairman of the senate foreign relations committee, had halted all consideration of it "until after the election."

Seek to Defer Discussion.

"The New Dealers definitely don't want any discussion of it now," one of the Chicagoans said. "They are afraid of it—fearful it will be made a campaign issue."

Hill told the war council that the oil agreement had been widely condemned. He said a state-wide meeting of independent oil producers in Texas condemned it by resolution; that the Texas railroad commission strongly opposed it and the interstate oil compact commission is expected to take similar action at a meeting in Oklahoma City, Oct. 5, 6 and 7.

The Texan told the group that the document as an agreement will not be enforceable and that efforts will therefore be made to make it a treaty. He continued:

"A treaty made by the United States with the advice and consent of the senate becomes the supreme law of the land under Article VI. of the Constitution, even tho contrary to the Constitution itself or in defiance of powers reserved to the states under the Constitution.

Can Destroy Limitations.

"The device of treaty making can be employed to destroy the limitations of federal powers prescribed in the Constitution itself without resort to procedures fixed in the Constitution for its amendment.

"The device of treaty making in connection with the Anglo-American oil agreement is being used as a legal expedient for creation of a federal power in congress in excess of the powers delegated to congress under the Constitution and this can be lawfully and successfully achieved by merely predicating this new body of congressional powers on the treaty itself as supreme law of the land.

"In brief, the subtle and ingenious device of an international treaty can erect a species of lawful federal control of the oil business, and this same unassailable legal device can be similarly employed in all kinds of treaties [receiving senate ratification] affecting any matters or businesses which might become subject matter of international negotiation."

Postpone WMC Meeting with Auto Union Chiefs

Detroit, Mich., Sept. 21 (AP).—A conference on reconversion problems scheduled for today by the war man power commission and representatives of the United Automobile Workers [CIO] and American Federation of Labor affiliates in the motor car industry has been indefinitely postponed. Edward L. Cushman, WMC director in Michigan, said the union leaders indicated they would be unable to attend.

Chicago Bank Deposits Set All-Time High

[Complete statistics on page 32.]

Chicago banks increased their deposits, cash resources, and holdings of government securities in the third quarter. The gains were disclosed yesterday in figures compiled in response to a call issued by the state auditor for the condition of state banks as of Sept. 18. Loans and discounts decreased.

Altho the state auditor's call was for the condition of state banks only, the national banks voluntarily presented their figures for the same date.

Continental Illinois Leads.

Deposits of all banks again set a new high record at $7,107,993,000, compared with the previous peak of $7,073,256,000 as of June 30. The bank with the largest deposits was the Continental Illinois National with $2,321,018,000, compared with $2,320,156,000 on June 30. First National showed a decrease from $1,974,014,000 on June 30 to $1,964,288,000 on Sept. 18.

Savings deposits of all banks increased from $864,179,000 on June 30 to $911,711,000 on Sept. 18. National banks' savings deposits rose to $610,396,000 from $579,077,000 and state banks' from $285,102,000 to $301,315,000. First National led all other banks in savings deposits with $229,456,000 last Monday, compared with $219,829,000 on June 30. Savings deposits of Continental Illinois totaled $137,294,000 against $133,226,000 June 30.

Altho cash resources of all banks increased from $1,539,838,000 to $1,614,491,000, those of state banks decreased from $32,707,000 on June 30 to $320,904,000 on Sept. 18. Cash resources of national banks were $1,293,587,000, against $1,212,759,000. Continental Illinois led all other banks, with First National second, each reporting an increase from June. Northern Trust company's resources decreased to $119,393,000 from $126,499,000 on June 30.

Hold More Federal Bonds.

Holdings of United States government securities by all banks increased $34,657,000 to $4,313,482,000. Holdings of national and state banks separately also increased. Amounts held by two national banks decreased. First National's total on Sept. 18 was $1,132,417,000 against $1,159,612,000 on June 30, and that of the American National bank $74,607,000, against $82,514,000.

Both state and national banks reported decreases in loans and discounts. The total for all banks was $1,172,177,000 on Sept. 18, against $1,191,960 on June 30. First National led all other banks at $410,949,000, compared with $405,730,000 June 30.

MISSOURI RIVER TVA PROGRAM URGED BY F.D.R.

Washington, D. C., Sept. 21 (AP).—Mixed congressional reaction greeted a recommendation today by President Roosevelt that an agency similar to the Tennessee Valley authority be set up for the Missouri river basin.

Senators Murray [D., Mont.] and Gillette [D., Ia.] already have introduced separate measures to create a Missouri Valley authority.

Sen. Robertson [R., Wyo.] told a reporter he was against "such a federal setup" and instead favored "state control of waters in the respective states." Sen. Langer [R., N. D.] said he was "100 per cent for the idea."

STOCK MARKET DIPS, BUT LIQUOR SHARES RISE ON GRAIN PLANS

New York, Sept. 21 (AP).—The stock market averages dipped today, after rising moderately in five successive sessions. Tho scattered liquors and other specialties successfully contested the trend, declines of fractions to more than 2 points predominated.

Some selling was attributed to belief that a technical correction was in the offing. Reconversion skeptics continued to stand aside. A stock exchange seat was sold for $72,000, up $5,000 to the highest since 1938.

Distillers came to life when the war production board lifted restrictions on the use of grain sorghums for the production of alcohol during the last three months of 1944.

BOND UPTURN FALTERS.

New York, Sept. 21 (AP).—The bond market made fair progress at one time today, but mild selling pressure and indifference of buyers later reduced or eliminated many gains.

CHICAGO PRICES MIXED.

Prices were mixed yesterday in turnover of 18,000 shares on the Chicago Stock exchange. Among the volume leaders were Aro Equipment, up ¾; Libby, McNeill & Libby, up ⅛; Chicago corporation and Kellogg Switchboard, unchanged, and Radio corporation, down ⅛.

WAR COSTS CUT BY LOAN POLICY —MORGENTHAU

Saving in Interest Large, He Says.

BY THOMAS FURLONG.

Secretary of the Treasury Morgenthau yesterday defended the policy by which the government has financed the war mainly by floating securities of short maturities.

"We tried to avoid the mistakes of the last war," he said. "At that time we loaded up corporations and banks with long term bonds that later sold as low as 78 cents on the dollar. This time corporations that need their money after the war to finance production can have it at once. If there is any loss to be taken, the government will take it."

Four Billion Saved Yearly.

Morgenthau said that the government is paying an average interest rate of 1.8 per cent on its debt and that this represents a tremendous saving in interest charges as compared with the last war. He estimated the savings at four billion dollars a year.

Asked if he believed the war debt could be refunded after the war at comparable interest rates, the treasury secretary said:

"I do not regard that as an immediate concern. There is no prospect of an upturn in interest rates for a long time. That will be controled by supply and demand and I believe the large volume of savings will hold rates down."

A reporter then asked if the government will continue its policy of selling mostly short term securities. Morgenthau replied that he did not foresee any change.

"Demand" Obligations Scored.

The secretary's defense of the use of "demand" obligations to finance the vast war spending occurred when a reporter referred to an editorial in Thursday's TRIBUNE in which the practice was criticized.

The chief criticism of this type of financing has been that the government is creating a tremendous demand obligation on itself that will ultimately bring about a crisis in its fiscal affairs.

Morgenthau expressed the belief that holders of war savings bonds would not rush to cash them when Germany drops out of the war. He was less certain about what will happen after both Japan and Germany have been defeated.

Expects Sales Difficulties.

"I haven't thought it thru that far," he said. "It will take the combined financial wisdom of the country to meet that problem when we come to it. I do think that the job of selling war bonds will be more difficult after Germany surrenders."

Morgenthau described as "crackpot" the suggestion of a University of Illinois instructor that all holders of war bonds turn in part of their holdings to be burned next July 4 as a gesture of appreciation to members of the fighting services.

Morgenthau was in Chicago to address the Jewish Welfare Fund association. At noon he lunched with Illinois war bond sales leaders at the Federal Reserve Bank of Chicago.

OATS CONTRACT BREAKS; OTHER GRAINS UNEVEN

September oats futures broke 3⅛ cents a bushel yesterday on the Chicago Board of Trade in evening up operations before the close of trade in September options. Scattered liquidation developed at the opening and continued until the close and the final price of 61¾ cents was off 4¼ cents from the high on Tuesday. After the market closed 250,000 bushels of cash oats were tendered on September contracts, reducing the uncompleted contracts to slightly below 2 million bushels. Deferred deliveries of oats lost ⅝ to ¾ cent.

Wheat finished ⅜ cent higher to ⅜ cent lower. Corn was ⅛ cent higher to ½ cent lower. Rye closed ¾ cent higher to ⅛ cent lower. Barley was unchanged to ⅝ cent lower.

Banker Urges Use of T Loan by War Plants

Mark A. Brown, vice president of the Harris Trust and Savings bank, yesterday urged all contractors to take advantage of the new T loan program, as well as the revised VT loan, as "a means of prompt conversion to civilian pursuits" and to substitute this action for immediate contract settlement "hopes" prevailing among many contractors.

T [termination] loans, authorized by the contract settlement act of 1944, will be made by private financial institutions to war contractors seeking working capital while other capital is tied up in terminated but unsettled contracts. Such loans, to be made only after the borrower's contracts have been canceled, may, however, be arranged for in advance of termination.

Guaranteed by Reserve Banks.

Addressing a Chicago Association of Commerce luncheon audience, he said the loans, to be guaranteed thru the federal reserve system in behalf of the contracting agencies, will be made against known assets. Roughly, the T formula calls for loans in amounts up to 90 per cent of the borrowers' receivables, 85 per cent of their inventories, and 75 per cent of their paid contractors' claims before the contracting officer's approval, and 90 per cent after approval.

T loans differ from the VT loans, which provide both production and termination financing, in that the latter type are not available after war contracts have been canceled.

Warns Payment May Be Late.

Brown advised contractors to arrange loans rather than rely on immediate partial payments from contracting officers after termination but before final contract settlement. Such payments are not likely to be made within the "30 day promise" due to cumbersome machinery, he said. Advance payments require separate handling thru each contracting agency, while under a loan it can be handled in lump form.

Surveys have disclosed that many contractors not only have not made loan commitments, but apparently are unaware of the problem that contract settlement and reconversion poses, he said. On June 30, 1944, V and VT loan commitments totaled only 8 billion 46 million dollars, yet contracts estimated at 30 billion 600 million dollars will be canceled when the war in Europe ends.

SUPPLY OF HOGS IS TIGHTEST OF YARDS' HISTORY

The pork and hog supply yesterday was described by trade members at the Chicago stock yards as the tightest in the market's history as receipts set a 29 month Thursday low. Only 10,000, including shipments to packers, arrived, the smallest volume for a Thursday since April, 1942. Ceiling prices were paid for almost all hogs received.

Only once since the United States entered the war have supplies been so low. In many pre-war periods hog receipts have been even smaller than current supplies, but demand, before lend-lease and military purchases, was also much lower.

Almost all cattle classes were 25 to 50 cents lower in one of 1944's slowest sessions, in which many loads were unsold at the close.

Steady prices were paid for lambs, altho the $14.65 top, paid for western range stock, was 15 cents higher than Wednesday's peak when no westerns were available. Natives sold at $14.50 or less.

C. H. SWIFT HONORED ON 50TH ANNIVERSARY IN PACKING BUSINESS

Charles H. Swift.

Charles H. Swift, chairman of Swift & Co., was guest of honor at a luncheon given by the directors yesterday to mark his 50th anniversary with the company.

The luncheon, in a Swift dining room, was attended by officers and directors who represented Swift with a silver platter and an American Meat institute gold button denoting 50 years in the meat industry.

Swift became a familiar figure in the plant even before 1894, as he began learning the business from his father, Gustavus F. Swift, founder of the company. He became a live stock buyer, then a director in 1907, and vice president in 1909. He was elected vice chairman of the board in 1931 and chairman June 9, 1932.

Name Forged, Butcher Says in Packer Suit

Charges that a forged signature was affixed to an affidavit offered by the office of price administration in its injunction suit against the country's four largest meat packers were made by an attorney for the packers yesterday before Federal District Judge Barnes.

The affidavit, bearing the alleged signature of Harvard Johnson, partner in Johnson and Peterson's butcher shop, 10818 S. Michigan av., said there had been excess fat on pork loins distributed to him by Swift & Co. Placed on the stand by George Austin, Washington OPA attorney, Johnson said the signature looked like his, but that he had not signed it.

He testified he had signed a counter statement for Swift in which he denied he had signed the OPA statement.

A government handwriting expert, William J. Sheehan, testified he had compared the signature of the affidavit with other signatures that Johnson admitted were genuine, and that they were identical.

The battle over the affidavit and counter-statement began when Atty. Edward R. Johnston, representing Swift, objected to the presentation of some affidavits as evidence. He said they were obtained under coercion or were forged.

The OPA filed approximately 300 affidavits in which butchers alleged there was fat in excess of the ½ inch allowed by the OPA on pork loins and butts distributed to them by the defendants, Swift, Armour & Co., Wilson & Co., and Cudahy Packing company.

COURT ENJOINS PLANT SEIZURE IN LABOR CASE

Holds WLB Threat Justifies Order.

Dallas, Tex., Sept. 21 (AP).—Federal Judge William H. Atwell today enjoined the war labor board and the petroleum administration for war from seizure of the Humble Oil and Refining company's plant at Ingleside, Tex., near Corpus Christi.

The decision was made in a suit in which Humble sought to show that the WLB, acting thru the PAW, was carrying out a plan to seize the plant to force obedience to a WLB order that the company insert a maintenance of membership clause in its union contract.

Government attorneys argued before the court that no seizure was threatened and asked dismissal of the case.

Holds Seizure Was Threatened.

"The testimony," said Judge Atwell, "drives the court to find as a fact, that unlawful and illegal sanctions were imposed. Such sanctions were being carried out. Threats were made to seize the plaintiff's property at Ingleside."

[The Humble Oil case in many respects is similar to the Montgomery Ward case, which culminated last April in army seizure of Ward properties in Chicago. Montgomery Ward challenged the authority of the WLB to extend an expired contract between the company and a CIO union embodying dues checkoff and maintenance of union membership provisions without having an election to determine whether the union represented a majority of employes. Hearing for an injunction was held before Federal Judge Holly in Chicago, but the action was dismissed without a decision after the government had returned the properties to the company following an employe election won by the union.]

Judge Atwell pointed out that there was no evidence of any labor dispute whatever between the plaintiff and its employes, and that the company is engaged in a highly essential war industry.

Regional WLB Overruled.

To the position of the government that the plant "might or might not" be seized, Judge Atwell commented: "The mere statement of that position at the bar of a court of equity surprises. As has already been indicated, the citizen, as well as the court, has long since learned to treat a threat which is believed to be for the execution of some act which is illegal or wrong, or without authority, as a sufficient basis for restraint of the person making it. Such jurisdiction is in the interest of peace and civilization. It has taken the place of the six shooter. . . ."

The case had its roots in June, 1943, when the 8th regional WLB ruled the company was justified in not including a maintenance of membership clause in its contract with local 316 of the Oil Workers' International union [CIO] at the Ingleside plant where 470 persons were involved.

A union appeal to the national WLB, however, brought a reversed opinion with which the company refused to comply on the basis that it would violate the long established policy of nondiscrimination for or against any employe over union membership and would violate the national labor relations act by interfering with free choice of employes to resign from a union.

Keep '44 War First in Mind, Krug Advises

[Chicago Tribune Press Service.]

Washington, D. C., Sept. 21.—Acting War Production Board Chairman Krug today took time off from planning conversion to peace time industrial production to warn that emphasis must be kept on war production and that a dozen "must" military programs are behind schedule because of lack of workers.

"We must emphasize this year's war, not next year's automobiles," Krug asserted at a press conference. He said the necessity of keeping war production as the nation's No. 1 industrial task had been obscured in recent weeks by the various disclosures of reconversion plans to take effect when Germany quits.

Short 217,000 Workers.

Urgent military production programs are short 217,000 workers in 2,000 plants, he said, adding he was confident present man power control measures eventually would relieve this situation. Among the "must" programs affected he listed heavy trucks, tires, shells, and artillery, foundries and castings, air borne radar, and combat transports and cargo carriers for the war in the Pacific. He said that many war workers on the west coast, convinced the war is over, are quitting plane factories and shipyards.

In answer to a question as to how the heavy truck shortage can be squared with the recent decision in Detroit to begin work on experimental civilian automobile models, Krug said that the two programs are not related. He explained that the WPB and the war man power commission have agreed to permit a small number of specialized technicians to work on the automobile models because it is necessary to plan for reconversion and because these technicians are not being taken away from war production.

Meeting with Advisory Groups.

Krug said the first of a series of meetings between WPB officials and various industry advisory committees began today with a conference of the steel industry committee. The purpose will be to acquaint industry with WPB reconversion plans and policies which will go into effect when Germany is defeated. He said the WPB hoped to be able to announce its master reconversion plan before "victory in Europe day."

ASSERT STEEL PAY RAISE NEED NOT HIKE PRICE

Report OPA Survey Shows Wage Data.

Washington, D. C., Sept. 21 (AP).—The office of price administration has prepared a report indicating that the steel industry could absorb a sizable wage increase and need no boost in steel prices, it was learned tonight.

The report said an 8 cent an hour wage hike could be allowed to compensate for loss of premium pay when the 48 hour week is abandoned, it was understood. It takes into consideration downgrading of workers to lower pay rate jobs when large scale reconversion begins and suggests this will permit an additional 6 to 8 cent increase.

Technical Aids Are Factors.

The survey shows other factors that will contribute to cost saving are technological improvements developed during the war and generally lower production costs in peace time because of less precision work, it was said.

The petition of the steel workers for a 17 cent increase is being studied by the war labor board. OPA's report was said to have been made for Stabilization Director Vinson, who will decide whether a price increase is needed if the wage boost is allowed.

OPA's conclusions that steel prices can be held at the present level are based on the assumption that any wage increase granted would be put into effect after reestablishment of the 40 hour week.

While the report was understood to deal only with the steel industry, OPA economists expressed confidence that reconversion prices for all industry can be kept to 1942 levels if wages are increased only to the extent of compensating for loss of overtime.

Silent on Effect on Price.

They declined to express an opinion as to the effect on prices of a more substantial wage hike thruout industry.

Price Administrator Bowles has said a number of manufacturers have indicated they expect to price at 1942 levels consumer goods going back on the market when the European war ends.

A WLB panel held yesterday that the President has the power to modify wage controls, asserting that the Little Steel wage ceiling can be broken to keep earnings on a par with the cost of living.

BRITISH PLAINTS ON LOST TRADE DRAW NO TEARS

Washington, D. C., Sept. 21 (AP).—A British newspaper's contention that American commercial interests are moving into France behind the conquering allied armies while British subjects are refused entry brought a state department assertion today that the British government has never raised such a point.

American officials denied the report, published in the London Daily Mail, but they said they were not surprised by its publication. The British public and parliament, they explained, naturally are nervous about the future of Britain's business interests.

Sen. Brewster [R., Me.] expressed the hope to a reporter that the Americans would not seek "undue advantage," but added that if the British will know now how we felt about our being left out of the commercial picture in other parts of the globe."

Brewster "Gratified."

Brewster was one of five senators who toured the battle areas last year and returned with complaints that better coördination between the British board of trade and the British military leadership had operated to the disadvantage of American commerical interests.

"My first reaction is one of gratification that at some spot on the globe we apparently have been able to move in quickly," Brewster said. "At the same time, we don't want to seek any undue advantage."

The war and navy departments took no official action, but their spokesmen indicated belief the London paper's account was in error.

Red Cross Denies Charges.

The newspaper also said American Red Cross representatives whose interests were primarily commercial had appeared in France. This was denied here by Harold G. Anthony, director of publicity for the Red Cross.

Foreign economic administration officials had no official comment on the London report, but some sources in that agency expressed the belief that military advances in France have not yet reached a stage that would permit commercial operations by either American or British firms.

Sen. Mead [D., N. Y.], another of the battle touring lawmakers, offered the observation that if American business men were getting the jump on British competitors, "it would be about the first time that ever happened."

HOLDS BUREAUS WORK TO CRUSH PRIVATE EFFORT

Urging that the inducements of open competitive enterprise be perpetuated, John W. Anderson, president of the Anderson company, Gary, Ind., last night assailed as a burocratic effort to destroy private initiative the bill proposed by Sen. Murray [D., Mont.] which proposes a super government agency to direct reconversion and federal payments to the jobless of as much as $1,820 a year.

Addressing the Conference of American Small Business organizations in the Stevens hotel, Anderson, also president of the Motor and Equipment Manufacturers association, said that "a clique of saboteuring superliterates, sustained by government pay roll, have been preparing cleverly misleading bills, sponsored by unsuspecting members of congress."

The Murray bill is among such deceptive drafts, he charged, and it would set up a revolving fund of 1 billion dollars to be loaned or withheld from small businesses at the whim of single Presidentially appointed administrator. This would destroy all competitive advantages resulting from efforts of small businesses to outperform competitors, he said.

FEDERAL BUYING OF BUTTER ENDS UNTIL SPRING

The government will not require butter manufacturers to set aside any of their output for government purchase after the end of September until at least next spring, E. O. Pollock, regional director of food distribution of the war food administration, announced yesterday.

Despite the fact that the entire winter production will be available for civilian use exclusively, civilian supplies are expected to continue as low as last year, Pollock said. Creamery butter output in the first seven months of this year was 131 million pounds less than a year ago. July production was the lowest in 22 years.

Civilians will receive 80 per cent of the year's smaller production.

DAISY, I WANT YOU TO KNOCK BEFORE ENTERING MY OFFICE--
GEE, BOSS-UH-I DIDN'T SEE YOU AN' WINNIE HUGGIN'! AN' I WON'T SAY NOTHIN'!
WE WERE NOT HUGGING, YOU FOOL! WINNIE BROKE DOWN AND CRIED ON MY SHOULDER! I WAS MERELY SYMPATHIZING WITH HER!
SYMPATHY, EH? THAT'S A LINE THE OLDER GUYS ALL USE!
STOP IT! WINNIE RECEIVED A TELEGRAM FROM THE WAR DEPARTMENT, STATING THAT HER HUSBAND BILL, IS REPORTED MISSING IN ACTION!!
NOW, AREN'T YOU ASHAMED OF YOURSELVES!!
GOSH, I FEEL LOWER THAN A SNAKE'S HIPS!
AW, GEE! POOR WINNIE!!

INVESTORS' GUIDE

SANFORIZING ROYALTIES.

I would appreciate information on the proportion of Cluett, Peabody & Co. income represented by Sanforized division earnings. When do the patents expire?—O. N.

Royalties from the company's patented process for the shrinkage of cotton fabrics have increased in recent years both in amount and in percentage of total net income.

After income taxes, the net royalties in 1943 totaled $1,714,255, or 74 per cent of total net income; in 1942, $1,296,560, or 51 per cent; in 1941, $1,243,012, or 41 per cent; in 1940, $989,182, or 35 per cent.

The yardage of fabrics treated increased each year from 130 million in 1934 to 1.7 billion yards in 1942. The amount for 1943 was not reported.

Basic patents covering various phases of the Sanforizing process are held by Cluett-Peabody. It is understood that some run to 1949 and 1951, while others expire in later years. The company has been conducting research in connection with another process, known as Sanforset, to control the shrinkage of viscose rayon fabrics.

Profit margins in the men's wear manufacturing division have narrowed thru a combination of ceiling prices and rising costs, but post-war prospects for this division are considered excellent.

SECRETARY.
In business circles, a stenographer-executive secretary is a professional sufferer without a Union Card. One who combines the qualities of a watchdog with the patience of a saint and memory of an elephant, is called a good secretary. To be considered executive timber, a secretary's boot-training must be under straw-bosses and presidents, some sane, some swivel-chair prima-donnas. From the maturity of such experience, unsung diplomats are born. A secretary of top-drawer efficiency who survives draft age gets about $250 monthly and this he splits between taxes and Aspirin. I'm looking for a major headache.
